GETTING acquainted with the people who can and will fill your wants is an easy matter if you mention your desires through The Guardian's classified columns. The Guardian is read by rich and poor and old and young people—thousands of them—and it would be remarkable indeed if you should have a want that not one of these thousands of people could fill. A reasonable want ad never escapes the notice of someone who is glad to know about it.

L. B. McMILLAN, J. J. Hornby, T. Ronahan, and W. M. Keating left last night for Halifax, to be present at the institution of a Council of the Knights of Columbus to be organized in the city on the 28th inst. The degree corps from the United States which instituted the council at Antigonish on the 23rd inst, will perform the function. Knights will be present from Sydney, Pictou, New Glasgow, and St. John. The Charlottetown branch is the senior branch in the Maritime Provinces.

The settlement of Victoria Cross, King's County has been suffering greatly from an epidemic of measles. In a majority of cases, they were followed by that dread disease pneumonia. James and Mrs. McLeod were called upon to part with their youngest child, a little girl of 15 months and of a very winning disposition. It is however the home of David Reid that has suffered most. Within two days of each both mother and child were snatched away, while at the same time two other daughters and a little boy were dangerously ill. The latter are now improving. Mr. Reid and family have the sympathy of the whole community in their great and irreparable loss.

THE train for Tignish, which left Charlottetown yesterday morning met with a slight accident near Northam. The trucks under the tender broke down, and the tender left the track. This compelled the return of the engine to Port Hill. Another engine went from Summerside and took the train to its destination. No one was injured and very little damage caused by the accident.

The Guardian Employment Bureau is the general topic of conversation in this city and throughout many parts of the Province. This is not to be wondered at, for so many persons are through it getting just what they want. To those who do not desire to advertise the fee is 25 cents, but no charge is made unless they get what they are looking for. However, by advertising many persons get just what they desire for much less than the above amount.

A CHANGE in the well known drug business of H. A. Ellis will remove a highly esteemed citizen in the person of the present proprietor who during his stay in Charlottetown has won well-merited popularity with all among whom his lot has been cast. The regret over his departure will be tempered by a feeling of pleasure that his place will be filled by Fred Atkinson, formerly of the staff of Johnson & Johnson. Mr. Atkinson's friends are many, and in his new move they wish him every success. He possesses the qualities that make strong connections in both business and social life and there is no question as to his ability in his line of business. He has had nine years of experience in his chosen career, and is especially capable in the dispensing of prescriptions. He is a graduate of the Prince Edward Island Pharmaceutical Association, and will meet with a warm welcome on his entry into business life on his own account, which will take place in about three weeks time.

The Vice-Chancellor ordered that the defendants be restrained from building on the site selected and that they account for the moneys.

W. F. TIDMARSH, President of the Charlottetown Board of Trade, yesterday sent the following telegram to the Minister of Marine and Fisheries: "Council of the Board of Trade consider it important that the Stanley or Minto be ordered to Charlottetown at once. Ice conditions not considered formidable enough to prevent steamers reaching here if earnest effort is made."

Mr. Tidmarsh received the following reply:—"Have given instructions to go to Charlottetown if captains consider conditions favorable and will take the responsibility."

ON Friday evening last at Brackley Point road a large company gathered at the residence of John F. McMillan, the object being to present an address to him and Mrs. McMillan on the occasion of their departure for the Northwest. Three addresses on behalf of the Trustees of the Presbyterian church, the community in general and of the church choir respectively, (the latter to Mrs. McMillan) were presented all expressive of the high esteem in which Mr. and Mrs. McMillan are held in the community. These were most gratifying to the recipients, especially as their neighbors and friends had gathered in a drenching rain storm to thus express their regard. The address from the choir to Mrs. McMillan was accompanied by a handsome piece of silverware.

His many friends were pleased to see James Anderson, Manager of the Britannia Mfg. Co., Halifax, in the city yesterday after an absence of seven years. And Mr. Anderson was equally glad to renew the acquaintance of his many patrons in the Dry Goods trade. Mr. Anderson's business is growing at a rapid rate. A year ago he employed thirty hands but now it requires sixty-five to keep up with orders. The firm's work rooms, situated in the business centre of Halifax, are among the best in Canada. In addition to the manufacture of skirts Mr. Anderson has added coats and costumes, and merchants greatly appreciate the convenience of being able to obtain so quickly and so near home, goods which are the equal in style and quality of the best manufactured anywhere. Mr. Anderson placed his goods in this city with all whom he had time to call upon, and intends visiting three or four towns throughout the Province next month.
