The Baby Sick?

Then probably it's a cold. Babies catch cold so easily and recover so slowly. Not slowly, however, when you use Vapo-Cresolene. Then a single night is all that is necessary for a cure. You just put some Cresolene in the vaporizer, light the lamp beneath, and place near the crib. While baby sleeps he breathes in the healing vapor. Cold loosens, inflamed membranes heal, and all trouble ceases. It's a perfect specific for whooping-cough and croup. 60

Vapo-Cresolene is sold by druggists, or sent express prepaid on receipt of price. A Vapo Cresolene outfit, including a bottle of Cresolene, complete $1.50. Send for free illustrated booklet. LEEMING, MILES Co., Ltd., Agents, 288 St. James St. Montreal.

INDICATIONS point to the crowded house tonight when the T. V. Stock Moving Pictures and High Class Concert Co., open their three nights engagement here. And by Tuesday morning it will be the most talked of attraction seen in Charlottetown in years, especially referring to La Protea Miss Grace Gilmore Hamilton the Lyceum Entertainer whose reputation as a clever entertainer is well established in our city. Among the laughable moving pictures presented are. The Young Tramp's, Flat Dwellers, A Pipe Dream—and the largest and most amusing moving picture ever introduced. A scream from start to finish. King Leopold's Auto' Ride' Many have read the book of Sherlock Holme's—see it in moving pictures. Scenes are depicted from all quarters of the globe and there is more education combined with amusement in seeing a performance of this kind than obtained in year's of travel. Bear in mind there is no strain on the eyes watching the picture's no noise in connection with the running of the machine flickering and a performance that even the most fastidious can attend with perfect propriety as it pleases all classes. Reserved seats are selling fast and are on sale at Rankin and Jamieson's. Tonight at the Opera House.

GENERAL MANAGER POTTINGER, of the I.C.R. had a distinguished visitor last week in the person of John Sark, Big Chief of the Micmac tribe in P. E. Island, with headquarters at Charlottetown. Big Chief Sark arrived in Moncton on the Springhill express from Painsec and few if any, of the passengers, recognized in the plainly dressed Indian anything more than a common wayfarer. But shortly after his arrival at Moncton depot a complete transformation had been wrought in the appearance of the unassuming red man. He carried a large black grip proved to contain toggery that was calculated to give him a pretentious and warlike appearance. The chief of the Island Micmacs did not find it necessary to make a change of garments in robing himself in his official clothes, but the decorations were added to the plain looking black clothes in which he travelled. When he finished making his toilet in the men's waiting room of the I. C. R. depot, in place of the ordinary looking coat, Chief Sark wore a much braided garment of some splendour, while the common-place looking black soft felt hat had added a second story of fancy material adorned with feathers of many colors. The heavy rubber shoes worn by the chief had given place to moccassins of a fine quality and altogether the garb of the distinguished visitor when he started out to hold a parley with the I. C. R. general manager, seemed to be quite in keeping with his position.

The object of Chief Sark's interview with Mr. Pottingery was to obtain some concessions for his people and himself in particular. The Micmacs protest against the increase in rates on the government road and ask that the fare be reduced to what it formerly was. Chief Sark, since leaving his Island home, has been visiting the Big Chief of Nova Scotia and has incidentally called at different Indian camps en route to Moncton.—Moncton Times.

FROM The Colonist, Victoria, B. C., March 4th, 1906:—"On Monday evening a quiet wedding was solemnized by Rev. W. L. Clay at the residence of Dr. E. C. Hart, Cadboro Bay Road, the contracting parties being Miss Jennie Boss, M. A., a graduate of Harvard University, and Edward B. Cogswell, Barrister, of the the firm of McDonald, McKinnon & Cogswell, Edmonton. The bride was attired in a pretty dress of mauve crepe de chene; her going away dress being pale grey with hat to match. After the ceremony the bridal party and their friends partook of a tempting repast, the table and different apartments being prettily decorated with choice cut flowers and plants. Then in Dr. Hart's beautiful new touring car, amid a shower of rice and old shoes, Mr. and Mrs. Cogswell left for the Princess Victoria, on their way to Edmonton their future home, spending a short honeymoon at Vancouver and Banff, en route. Many beautiful presents were in evidence, (among them a silver tea service of five pieces), Both Mr. and Mrs. Cogswell are Maritime province people, and have many friends in this and other of the coast cities." Mrs. Cogswell is the niece of Dr. Carruthers, and a sister of Miss Ross, matron of the hospital, and of Mr. Theodore Ross of the Prince of Wales staff. Both are Dalhousie gradua es, she in arts and he in law. Miss Ross was for many years Principal of Kentville Academy, and taught for one year in the New Glasgow High School. She is admired by all who know her purely masculine intellect, and loved by her purely feminine disposition. Few have so many warm friends as she to wish her every happiness in her new home.

MONT. DAVISON left this morning for Toronto, where he will be employed with M. J. Haney.

CHARLES HINE, who is a patient at the Prince Edward Island Hospital was reported to be doing very well" yesterday

THIS YEAR eleven associations have been organized in Ontario and Quebec by the dairy division of the department of agriculture. About three thousand cows are now regularly under test, their owners having agreed to weigh the milk six times a month the department doing the testing for a year. It is expected in this way that unprofitable cows will be detected and disposed of, while an incentive will be given to keep better stock and feed them better. The value of these tests is shown by the highest and lowest yield of butter fat from the best and poorest cow in each herd. In one station at St. Armand West Quebec, the highest production per cow in 30 days was 36.6 pounds and the lowest 7.9 pounds. In other words ore good cow was producing more than four and a half times as much as a poor one.

ADVERTISING IS BROAD.

Advertising in itself means publiticy and publicity is a very broad and comprehensive term. It does not mean simply a word whispered to a favored few. It is, rather, synonymous with a general, broadcast declaration, and the broader the scope of the announcement, the better the advertising. No occupied space that directs attention along given and desired lines can be reasonably regarded as wasted; nor can any funds expended to this end be adjudged extravagance.—American Medical Journal st
