

SUMMERSIDE and WESTERN GUARDIAN

Good home made bread is the most palatable, wholesome and nourishing food in the world. It is far more economical than any other staple food.

A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one to three Royal Yeast Cakes a day for a few weeks.

Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health.

Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal time. The chances are in a few weeks the complexion will be clear.

They had a grand time, camping, boating, fishing, swimming, trawling for the big fish out in the bay and indulging in all the outdoor fun so dear to the heart of the athletic boy. No big catches of fish were reported, but a good time was had and that was all they were after.

Rules and Regulations

- 1. NUMBER. Each entry or pen shall consist of ten birds of a standard variety; each bird must be typical of the breed, and free from standard disqualifications as laid down in the Standard of Perfection. 2. SUBSTITUTION. Each contestant will be allowed to keep his pen of 10 birds up to strength throughout the year. In the Canadian Contest, two reserves intended as substitutes, must accompany the original birds and will be housed with them in the pen. The ten birds for the original pen must be specified before the Contest begins. Further substitution will be allowed as deaths occur. In the provincial contests substitutes will be accepted when deaths occur. 3. ACCEPTANCE OF ENTRIES. The accommodation being limited, any entry may be refused and preference will be given: 1. To breeders who have had their flocks entered in Record of Performance. 2. To breeders who enter birds bred by themselves. 3. The Inspector's report of the flock. 4. The time of application. 4. INSPECTION. Pens for which applications have been received are subject to inspection between August 15th and September 30th, and those that prove to be amongst diseased flocks or kept under unsanitary conditions will be rejected. Those that do not promise to mature satisfactorily or those that may mature too early, may be rejected. 5. DECLARATION OF HEALTH. Each entry of a pen, and each additional entry of a male or female must be accompanied by a declaration stating that the bird or birds come from a flock that has not been affected with chicken-pox or tuberculosis for at least three months previously. 6. This will be from the 15th to the end of October. ment reserves the right to refuse any entries, to reject and return to the owner, those which are in any way unsuitable for the contest. To destroy birds suffering from contagious or infectious disease, to clip the wings of any bird that may be troublesome, to reject all birds that show impurity of breeding or standard disqualification, and to return to the owner, pens from which eggs have not been received by December 15th.

9. BREEDING. After February 21st the owner will be allowed to send a suitable male to mate with his pen, and any or all eggs from a mated pen, from March 1st to April 15th, may, at the request of the owner, be shipped to him, or to any other single address which he may designate. If he so desires, the owner may designate individual birds from which he wishes to have eggs for breeding. All eggs will be shipped in bulk, but only to the one address throughout the breeding season. As the mating of the pens is optional, it will be noted that in the case of cost of production awards, a proportionate reduction of feed will be made in the pens having a male bird.

10. PRICE. Eggs so shipped will be charged for at a price to cover market value plus extra cost of handling, and will be shipped express collect. A bill will accompany each shipment, which must be paid, before the next shipment will be forwarded.

11. FEEDING AND HOUSING. While in the Contest the birds will receive the best of feed and care, and the system of feeding will be mixed grain in litter morning and evening, and dry mash in a hopper before them all the time. Green feed, grit, shell and beefscrap or green bone will also be supplied. They will be kept in houses having glass and cotton fronts.

12. EGGS COUNTED. The contest shall be decided by the total number of marketable eggs laid by each pen. Exceedingly bad shaped eggs, soft shelled eggs or eggs weighing less than 20 ounces to the dozen, will not be given official credit.

13. DISPOSAL OF EGGS. All eggs laid during the Contest become the property of the Department of Agriculture, and those not shipped as breeding eggs will be sold at market prices.

14. REPORTS. A report of the trap-nest weekly record of each bird, and a weekly and total record of each pen, will be issued at the close of each week. Copies of this report, along with a six months summary will be sent to each Contestant, and to all papers that will publish them.

15. THE RETURN OF THE BIRDS. If no notification as to the return of the birds has been received by October 1, 1922, the birds on the completion of the contest will be sent by express collect, to the owner's address from which the shipment was made. Should any of the pens not be laying towards the close of the Contest, and appear not likely to lay before the end, they will be returned earlier, so as to make room for birds entering for the next Contest.

16. SALE OR TRANSFER. No recognition will be made of any sale or transfer of birds during the Contest, nor shall any entry be withdrawn during the Contest, except for reasons stated above.

17. RECORD OF PERFORMANCE. All birds in the Contests, not otherwise disqualified, whose eggs average 24 ounces to the dozen and that in 52 consecutive weeks lay 150 eggs, will receive certificates of Record of Performance AA, and those that lay 225 eggs, will receive certificates of Advanced Record of Performance AA.

18. RESPONSIBILITY. While every precaution will be taken, neither the management nor any official of the Contest will be held responsible should loss occur.
