## New Lamp Burns 95 Per Cent. Air

**BEATS ELECTRIC OR GAS**

A new oil lamp that gives an amazingly brilliant soft white light even better than gas or electricity, has been tested by the U. S. Government and 25 leading Universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).  
The inventor, G. A. Johnson, 216 Craig St., W. Montreal, is offering to send a lamp on 10 days FREE trial, or even to give one FREE to the first user in each locality who will help him to introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency and without experience or money make \$250 to \$500 per month.

## Consider the hardy Scot!

He knows that as long as he keeps his body good and warm, his exposed limbs can withstand almost any degree of cold.  
This was proved by the gallant Highlanders in the late war.  
Pure wool next the skin, the woollen-cloth kilt covering the vital organs; thus is the whole body protected and the health safeguarded.  
In damp mist or driving sleet, the hardy Scot, clad with wool, braves the elements.

## "CEETEE" THE PURE WOOL UNDERCLOTHING THAT WILL NOT SHRINK

"The Woollen Underwear without the itch."  
is made of pure, cleansed, Australian-merino long fibre wool, plain, graceful and absolutely comfortable.  
The wool-burrs that cause the itch and scratch in ordinary wool garments are all removed from Turnbull's "CEETEE" by a special and infinitely careful process.  
Ceetee is the only Underclothing made in Canada that is reinforced at all the wearing parts.

Made in all sizes and weights for man, woman or child.  
Sold at the best shops Worn by the best people All pure wool—re-inforced at all wearing parts and full fashioned.

## Making Good Ones From Bad Ones

In former days, before vulcanizing had become such an exact science as it is today, a tire shoe with a big hole or blowout in it was "done for." Not so now. We can take almost any blown out casing and make it practically good as new. We vulcanize inner tubes too.
