THURSDAY A sad tragedy occurred near McDonald's Point, North Bedeque yesterday afternoon when Master Edward, only child of Mr. and Mrs. James E. McDonald, lost his life while out on a raft with his cousin, John Leckey, son of Alban Leckey.

It appears that the two little boys, both eight years of age, after they came from school went down to the shore from McDonald's home, which is one of the shore farms at McDonald's Point. They got into a raft which was on the shore and succeeded in pushing it off. The raft began to drift out to sea and the children became frightened. John jumped out and waded in water up to his neck to the shore. He at once ran to McDonald's home for assistance. Neighbors went down and taking another boat soon reached the raft, but it only contained the clothes of the other little chap.

It is supposed that he had stopped to take off his garments before following his little companions example and jumped into deep water. The water is very deep near the shore at this point and the current strong. The first little fellow showed great endurance in his struggle to reach shore. The other little chap delayed a little too long. Search parties were unsuccessful in their efforts to locate the body. A further search will be conducted at low tide early this morning.

Much sympathy is felt for the bereaved parents as he was their only child and a lovable little fellow. Only that morning he had attended the closing services of the children's mission in St. Paul's Church, Summerside, and had received Holy Communion from Rev. Father Connolly, one of the mis-

The Maritimes, he thinks, have little cause to complain as there is a general air of prosperity here to be found practically nowhere else in the Dominion.

Word has been received by His Honour Lieutenant Governor Dalton that the visit of His Excellency the Governor General to Nova Scotia has been cancelled owing to the death of Lieut. Governor Stanfield and that the date of His Excellency's visit to this Province has been changed from Oct. 14th to Oct. 5th. Mr. George Bowness, of Summerside, had 28 wild geese killed by dogs in the early hours of Wednesday morning on his property at the east of the town. Mr. Bowness, on getting up early that morning for the purpose of taking the geese to their winter quarters on Holman's Island, was horrified to find on reaching the pens that almost all the geese were killed, some were lying in the enclosure and others strewn around in the field and in the brook, which runs through the property. The birds were badly mutilated and their feathers torn. Tracks could be seen as if made by large dogs, all over the ranch. The six remaining geese, two ganders and a breeder, and three tame ones were huddled in a corner and did not come, as was their custom, to greet Mr. Bowness.

Mr. Bowness values the geese at \$20 a pair. He had raised eighteen wild geese this summer. His flock was the result of several years of scientific breeding, which had its origin in a single pair. The breeding of the birds was a keen hobby with Mr. Bowness and he feels the loss from a breeder's standpoint. The monetary loss is in the vicinity of \$300.

A night or two previous to this disaster, Mr. Bishop Read lost a flock of tame geese, some of which were seen down on the shore.—S.
