Editorial

MONDAY

LAND AND STOCK VALUES.

There is something of interest and value in the monthly bulletins issued by the census and statistics office at Ottawa. A late issue deals with the value of farm lands and farm stock in the different provinces.

There are like variations in the value of farm stock. For instance, horses of three years old and upwards are below the average of \$120 in Prince Edward Island, Nova Scotia and Alberta, while in New Brunswick, Quebec and Ontario they are worth about \$140 and in Manitoba and Saskatchewan they are quoted at \$170 and \$176.

MILCH COWS have an average value of \$34 for the Dominion at large, rising upwards from \$29 in Prince Edward Island and New Brunswick to \$56 in Ontario and \$48 in British Columbia.

Here in Prince Edward Island we are paying from two to five times the rates for equal distance on the Government Railways, along with Government steamers that the people of Ontario pay on their through traffic on either the company or Government railways.

In the face of these facts it is adding insult to injury when Ontario newspapers and serial publications discuss Intercolonial affairs in the temper and terms used by the Canadian Courier.

The Canadian Parliament will open at Ottawa today. The party choice having fallen upon Hon. Charles Mackenzie, Speaker of the Commons.

Could anything be more reprehensible than the trade in brandy chocolates? These goods are sold chiefly to young persons and children.

THE altered condition of Canadian finances, the disappearance of the surplus and the necessity for retrenchment in expenditure will have its effect upon the discussions and deliberations of Parliament.

Among the Government measures, promised in the speech from the throne, is one to enlarge the boundaries of Quebec, Ontario and Manitoba.

The Maritime Provinces are so situated geographically that no extension of their boundaries can take place if the proposed enlargement of the territory is to be carried out.

THE WESTERN VIEW.

"The Intercolonial has never paid interest on its cost. The Maritime Provinces have always regarded it as their consolation for entering confederation. If it had paid they might have seen a grievance in the achievement."

The above is taken from the Canadian Courier, which usually takes a fair and broad-minded view of public matters. This is unfair and illiberal to a degree.

The canals have cost as much as the Intercolonial. They are like the railway a Government property. They happen to be in Ontario and Quebec.

Ontario men now hold five Cabinet seats with the prospect of another in the near future. (The portfolio of labor.) Quebec has the Premiership, three portfolios and the Solicitor Generalship, making five in all.

GROWING POWER OF THE WEST.

The Ottawa correspondent of the Toronto Globe states that after the next census, which will be taken two years hence in 1911 the growing power of the west will come to be fully realized.

And with this must come a readjustment of the representation by Provinces in the Cabinet. It will not be a matter of surprise," he says, "if the next time Sir Wilfrid Laurier appeals to the people, there will be in the Cabinet representatives from each of the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia."

ST. JOHN, Jan. 18—(Special)—The Railway Commission held a session here this afternoon, hearing a number of complaints re Express charges and freight discrimination.

MEXICO, Jan. 20—(Special)—A volcano near Colima is now in a state of active eruption, throwing out a great quantity of ashes and stone.

MESSINA, Jan. 19—(Special)—A serious fire broke out among the ruins today.

The Pennisi Palace caught and the flames are rapidly spreading, despite the heroic efforts of the soldiers to control them.

The Duke of Genoa today heroically risked his life in saving a democratic woman who insisted on forcing her way into the blazing ruins, maintaining that her husband was still alive.

MONCTON, Jan. 19—(Special)—Before about six or seven hundred people tonight the Moncton Victoria took the first game from the Charlottetown Victoria for the Starr Trophy by a score of five to three.

The game was not marked by any special features except that it was clean and remarkably free from roughness.

Not a single player was penalized and the referee, Percy Howard, of St. John had a comparatively easy time. Moncton scored all their goals in the first half while Charlottetown made one in the first half and two in the second.

Within five seconds after the play started Moncton scored an easy goal and continued to find the net until the total stood at five.

The Charlottetown team, while possessing some good material, went weak on combination and defence and made a poor showing.

With the game clinched the cup as the referees played with the puck in the second half and allowed the Charlottetown men to do most of the aggressive work.

NEW YORK, Jan. 19—(Special)—Prominent importers declare that as a result of the earthquake, a quarter of a million Italians will emigrate to America within four months.

It is also asserted that unless the duty on lemons is reduced the importation will cease.

MONTEREAL, Jan. 18—(Special)—A few days ago a school boy became intoxicated eating chocolates.

As a result some hundreds of dollars worth of brandy drops manufactured by Lowmyer were seized today from the ware houses and retail merchants who are charged with illegal selling of brandy.

MONTEREAL, Jan. 18—(Special)—The Royal Arthur school, one of the largest Protestant Schools, was burned this morning before the opening hour.

The building was not fitted with fire escapes and the hallways were very narrow.

Had a fire started during school hours great loss of life would have resulted.

SACRAMENTO, Jan. 19—(Special)—Several bills inimical to the Japanese are now before the California Legislature.

President Roosevelt has telegraphed earnestly requesting that all action on these be suspended until a letter from him dealing with the proposed legislation reaches the Governor.

The request has been promptly granted. Roosevelt explains that the federal Executive possesses knowledge not available to the State Legislature which may materially affect the action now proposed.

REGGIO, Jan. 17—(Special)—The population are greatly excited and antcipating the continuation of the rescue work by alleged miracles involving the restoration of persons believed dead.

Saturday a five year old boy was taken out showing absolutely no signs of privation.

The boy said his mother fed him with bread and oranges every day.

The mother was killed nineteen days ago.

The populace declare this a miracle and insist that many others are buried under the ruins being kept alive by Divine Will.

An old woman was also rescued Saturday at Messina.

The bodies of Consul Cheney and his wife, which were recovered Saturday morning have been despatched to New York.

ST. JOHN, Jan. 20—(Special)—Peculiar matrimonial complications were revealed in a Carleton County case before the Equity Court.

Mrs. Esther Phillips sought to recover a share of her deceased husband's estate.

The application was opposed by Phillips' second wife and children. It appears James Phillips married Esther fifty years ago.

They lived together three years, when a separation was arranged, the woman alleging ill-treatment.

She went to Maine and while there married William Barnes, having been informed that Phillips had secured a divorce.

Phillips, believing his first wife dead, also married, having three children by his second wife.

Neither of the original couple took very much trouble to make certain of their freedom before contracting a second marriage. Judgment was reserved.
