WHERE TO SHIP SMELTS AND EELS

Island shippers who send their consignments of smelts and eels to Austin Haley & Co., 176 Atlantic Avenue, Boston, will find a ready and satisfactory market for all their products. With their very wide experience they can place their goods to the best possible advantage and always make daily returns. An early trial shipment is solicited in the ad elsewhere.

One of the old established fish firms whose ad appears in another column of this issue, is Prior and Mahoney, Long Wharf, Boston, who want shipments of smelts and eels from this Province. They will send stencils on application and furnish any information required by the shipper. Write them before sending consignments abroad.

IN MEMORIAM

MRS. W. GALBRAITH.
Mrs. Geo. H. Cooke, Fitzroy Street, received a telegram yesterday morning announcing the sad news of the death of her mother, Mrs. W. Galbraith, Dorchester, Mass., which occurred yesterday morning. The deceased had been ailing for some time, and bore her long illness with truly Christian patience, and her death will be sincerely mourned by a large circle of friends besides her immediate relatives. The funeral takes place on Monday, when the remains will be laid to rest in Dorchester. To the sorrowing relatives the Guardian tenders sincere sympathy.

THANK-OFFERING.—The Women's Missionary Society of Lot 14 Presbyterian Church held their annual thank-offering meeting, Nov. 5th. Miss Elizabeth McCully, returned missionary from Corea, was present and gave an address, telling of the work being done among the people of Corea. The offering taken amounted to \$41.

JUBILEE SERVICES.—The jubilee celebration of the opening of the First Methodist Church in this city promises to be a most interesting event. The committee is sparing no pains to make the event worthy of this large and progressive church. A week from tomorrow the Rev. Dr Campbell preaches in the morning, and the far-famed Rev. A. B. Simpson takes the evening service and lectures on Monday evening.

SPECIAL SERVICES.—The Central Christian Church will begin a special Evangelistic campaign on Sunday, 15th inst., when Evangelist Lowell C. McPherson will preach at the evening service on "Your Two Worlds—Without and Within." The meetings will continue for an indefinite period—every evening at 8 o'clock, except Saturday. Mr McPherson is a strong and fluent speaker, who preaches a full and clear message. Mr Whitehead, the new pastor, is making good, and has already made many friends. He will take the morning service, and all who have not heard him should take this opportunity to do so. Special singing will be a feature of the meetings. Gospel songs by congregation.

ANTITUBERCULOSIS SOCIETY.—A meeting of the Executive Committee of the Charlottetown branch of the Anti-Tuberculosis Society was held in the Board of Trade Rooms yesterday afternoon. PLANT LINE.—The following, taken from a Halifax exchange, will be of interest here:—The Plant liner A. W. Perry moved alongside the Plant wharf yesterday afternoon, from anchorage, where she had been laying in the stream for several months. She is being overhauled and got in readiness to start on the winter run between Halifax and Boston. It is understood the A. W. Perry will go into commission on Nov. 25, when the "Halifax" of the same line will lay up, and it is thought she will be chartered for southern traffic during the coming winter. J. N. Macrae, second engineer of the Plant liner Evangeline, and H. Doyle, first officer, are standing by that vessel, which is now at Boston, awaiting a charter.

SUPPER AND CONCERT.—A concert and supper was held in the North Wiltshire Hall, on Monday evening, 9th, inst., in aid of the Belgians, and the handsome sum of \$108 was realized. An excellent program was rendered before a large and appreciative audience. Great credit is due to all the local talent who participated in making this entertainment such a success. Hearty applause greeted each number, but special mention might be made of readings given by Miss Maud McLean, Charlottetown, and also of Mr. H. Irving Beers, who, while being on a visit home, kindly gave some excellent readings. The rendition of these showed the art of a gifted elocutionist coupled with long and careful training. The following is the program:—Remarks by the Chairman, L. L. Jenkins, M.P. Chorus by Choir, O Canada. Reading, Miss Maud McLean. Solo, Just Before the Battle, Mr. Amos Monaghan. Reading, Mr. H. The ladies of this branch of the Red Cross Society wish to thank the people of North Wiltshire and all the surrounding districts who helped so generously in making this supper such a success.

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

Up-to-date Ranch---

The Lampson Company's Foxes are being ranched by the Canada Silver Fox & Fur Company Limited, near Charlottetown. This ranch is ideally situated—the grove is young and uniform, supplying just sufficient seclusion to make the foxes feel at home—the ground is remarkably level, the soil cannot be excelled for the purpose of Fox Farming.

Efficient Management

The Lampson Company's Foxes will be fed, housed, cared for, and protected by the same efficient, experienced ranchers that are caring for the foxes in the Canada Atlantic Fox & Fur Company's ranch. Every conceivable appliance and protection that will add to the safeguard of the foxes has been installed by the Company.

The Capitalization of Foxes in the Lampson Silver Cross Fox Company Limited is at "ACTUAL COST"---

What Others Have Earned with Patch Foxes---
E. B. sold a pair of crosses to J. R. and they produced one pair of silver black foxes which sold for \$3,000.00.
A. M. sold two pairs of patch foxes which produced litters of silver black foxes, yielding the owner big returns for the investment.
One pair of 60 p. c. patches purchased by parties in Crapaud in 1913 produced among their litter two silver black foxes, one of which sold for \$2,500, the other female was retained by the company.

If we knew how we could make the Lampson Company more attractive—more profitable—more permanent as an investment, you may rest assured that we would have had it created and capitalized that way.

THE FORTY-THREE FOXES in the Lampson Company are all well developed, strong, vigorous animals, healthy and hearty. The rancher reports them in perfect condition and is most enthusiastic regarding the prospects for the coming breeding season.

The following are the directors of the Lampson Silver Fox Company, Ltd.
The fact that nearly all of these men are experienced in the fox industry is a guarantee that the Company will be efficiently managed, and the production of each breeding season sold to the best interests of the shareholders.

PROVISIONAL DIRECTORS.
MYRON E. HENDERSON, Capitalist, Halifax, N. S.
H. L. HEWSON, Amherst, N. S.
Secretary-Treasurer—F. G. JORDAN, Charlottetown, P. E. I.
D. A. MacKINNON, Charlottetown, P. E. I.
J. STANLEY WEDLOCK, Charlottetown, P. E. I.
F. R. NEWSOM, Charlottetown, P. E. I.

The Lampson Company was primarily formed with the intention that the Directors retain the full issue of stock. As it is at present, only a limited amount is offered for public subscription.

There are no promoters or promoters profits to this proposition—there's no watered stock—everyone goes in on the same basis, everyone shares equally in the profits.

You know as well as we do that with high quality silver cross and patch foxes capitalized at less than \$1,000 per pair, good returns are assured.

The patch and cross foxes in this Company are from 50 p. c. to 95 p. c. silver black; and considering what others have accomplished in the past with the foxes the Lampson Company should secure a sufficient percentage of silver black foxes alone in the 1915 litter to pay a big dividend.

Shares are \$25 each—only a limited amount will be offered for public subscription.
