New Presbyterian Church at Murray Harbor

On the evening of Tuesday, February 17th, the Presbyterian congregation of Murray Harbor held a congregational meeting in the Baptist Church for the purpose of discussing the question of building a Presbyterian Church Rev. Allister Murray who is in charge of the Presbyterian congregation presided and conducted short devotional service. In this service he was assisted by Rev. R. Hensley Stavert moderator of the Maritime Synod and Rev. Thos. A. Rodger, Moderator of the Presbytery of Prince Edward Island, both of whom had been invited to attend the congregational meeting. Instructive addresses were then given by the visiting clergymen. It was moved by Mr. David Brooks and seconded by Mr. Joseph Livingston that we as a Presbyterian congregation proceed at once to build a Presbyterian church on the lot secured about a year ago in the village of Murray Harbor. The motion was carried. A subscription list was then circulated. After it had been passed to all present it was found to have upon it upwards of \$1,000. The following were then appointed as a building committee: Joseph Livingston, Arch. McDonald, Norman McCaulty, Jas. H. Brooks, John Bell, Wm. McDonald and John McDonald. It was agreed to ask the church and manse building fund for a loan of \$1,000. After the discussion of some minor matters in reference to the collecting of the money etc., the meeting was closed by the singing of the doxology followed by the benediction by Rev. R. Hensley Stavert Moderator of the Synod.

BUCK DEER FOUND DEAD IMPALE ON YUCCA PLANT

(British United Press) SEQUOIA NATIONAL PARK, Cal. Feb. 20.—Forest service men have been wondering what could have caused the wild life tragedy that was revealed when workmen found the remains of three point buck deer impaled on a yucca plant. They said the yucca leaves are indelible, and each one is tipped by a vicious thorn. The forest men say it is not unusual to find bucks killed by wild cucumber or grape vines, in which they become entangled while trying to rub the velvet off their horns, late in the season, but they say the buck found there had been dead since July or August which would eliminate that theory.

BUY HORSES CUT COSTS

(Canadian Press) DRUMHELLER, Alta., Feb. 20.—Old Man Economy is bringing Dobbin back into his own. At an organization meeting held here recently, attended by prominent farmers of this district, the Drumheller Horse Association came into being. The object of this association will be to supply to farmers of the district horses of desirable quality for farm purposes. A large number of farmers contemplate breaking their land this year by the old method of horse ploughing and, as a measure of economy, are solidly behind the organization.

LUNenburg, Feb. 20.—A respectable octogenarian in the person of Mrs. Augusta Winters died on Friday at the home of her son Uriah Winters who lives at the Ovens, Lunenburg, Mrs. Winters who was 82 years of age, is survived by two daughters, Emma, Mrs. Allan Dexter, of Michigan; Mrs. Obediah Zinek of Bayport; two sons Uriah with whom she resided, and Solomon, of Tignish, P. E. I., also a sister Mrs. Solomon Whynacht, of Bayport. The funeral took place on Sunday afternoon, Rev. Ernest Rowland, of Trinity United Church, officiating at the service. Interment was made in the Bayport Cemetery.

MONDAY JOE E. BROWN

Riding the waves of laughter! Zooming through a whirlwind of mirth. Top speed ahead into the funniest situations you've ever seen. He's the Crown Prince of Joy. And he's brought a boatload of thrills to make the fun complete.

Horses Of Famed French Marshall's Back In Service

PARIS, Feb. 20.—(U. P.)—There is no one knows exactly where the Foch mount is. The favorite mount of Joffre is still in Paris, but transferred on the books to the service of the general staff. In a short time another officer will be riding her, but soon after she will be over to the horse butchers of Paris, or to a drayman. "Witch" is already well along toward the age of sale. When Joffre was well, he weighed over 200 pounds and "Witch" shows the effect of carrying such weight. Her hind legs are shaky, but when she walked behind the coffin of the Marshal, she was a majestic animal, covered entirely with a black pall. While Joffre always rode the same horse, Foch had several and changed when "Spider" on one of her temperamental days, was wild.

HATCHERY APPROVAL GROWS

Having its third year in operation the Hatchery Approval Policy of the Dominion Department of Agriculture shows a record expansion in the number of commercial hatcheries entered under the scheme. In 1929 there were 18 hatcheries in approval and in 1930 the number stands at 100, an increase of 81 for the hatchery season of 1931. It is from these hatcheries alone that approved flocks are supplied. Their product is known and sold as "Approved" because of strict government supervision from the flock producing the eggs which supply the hatcheries to the baby chick delivered to the farmer.

HELPING THE HORSEMAN

Considerable interest is being taken in the announcement of the Hon. Robt. Weir, Federal Minister of Agriculture, that Spring Station Hiring Shows will be held at the five points in the Prairie Provinces where Winter Fairs are held. Prizes money totalling \$1,500 is being offered at each of these shows. The arrangement will furnish an excellent opportunity for those interested in Club work to see the best horses in the respective provinces at a minimum expenditure of time and money. The shows will also provide an indication of popular interest in and demand for horses.

MAKE GOOD READING

This is the time of the year when the interest of the amateur gardener turns to the seed catalogue with its attractive and amazing variety of color-plate displays of beautiful flowers in all the glorious beauty of full bloom, but there is a world of difference between the attractive display of the coloured plate and the result one gets in the garden. That is why anyone contemplating investment in a flower garden this year should take the trouble to get the report of the Dominion Experimental Farm or Station serving his district. Horticulture in all its varying phases is a specialty with this branch of the Department of Agriculture. Valuable information as to the adaptability of varieties, their ability to thrive under local conditions, and the best methods of cultivation, are points dealt with in these reports. It would also be well to have the report of the Dominion Horticulturist. These are available without charge on application to the Department of Agriculture at Ottawa.

THE ANNUAL CHICK BILL

February is the month which marks the opening of one of Canada's largest seasonal occupations—baby chick production. A committee of experts of the Department of Agriculture at Ottawa which met recently, estimated that to maintain Canada's poultry flocks at their present total of over fifty million birds a supply of eighty million baby chicks will be needed. Experience shows that 90 per cent of this huge total will not survive the first three weeks of their existence, 25 per cent will be the victims of disease, while a further 5 per cent will become the prey of predatory animals or die from other causes. With an estimated value of 25¢ per hundred this means a chick loss of over \$6,000,000.

PECULIAR, WILL

There is an old saying that you can tell a man by the company he keeps. Sometimes you can tell also what type he was by the will he leaves. One such will was enough to judge a Wall Street business man who included these provisions in his will, recently probated: "To my son, I leave the pleasure of earning a living. For 35 years he has thought that the pleasure was all mine. He was mistaken. "To my daughter, I leave \$100,000. She will need it. The only good piece of business her husband ever did was to marry her. "To my valet, I leave the clothes that he has been stealing from me regularly for the last ten years. Also my fur coat that he wore last winter when I was in Palm Beach. "To my chauffeur, I leave my cars. He almost ruined them, and I want him to have the satisfaction of finishing the job. "To my partner, I leave the suggestion that he take some other clever man in with him at once if he expects to do any business."

FOOTBALL STARS PARTNERS

CHAPEL HILL, N. C., Feb. 20.—The firm of Magner and Sapp still carries on, despite the fact both ex-football players have graduated from the University of North Carolina here. Odell Sapp and Jim Magner were team-mates in 1928, Sapp as an all-state end and Magner as a first year halfback. Now they have entered a law partnership in Chapel Hill. By the loss of a coin, Magner won the right to have his name placed on the left side of the shingle.

Central Guardian

HUNTER RIVER—The services in the Hunter River United Church for Sunday, Feb. 22nd are as follows: 11 a. m., Wiltshire; 2:30 p. m., Hampshire; 7 p. m., Wiltshire. A. E. Chapman, Pastor.

ON SEVERAL OCCASIONS during the play "Gone Broke," you will hear numbers sung by Miss Margaret Sterns and Mr. Leigh Dingwell. 3449-2-19-31.

DON'T MISS HEARING Miss Kathleen Hornby and Mr. Jack Wilkins in their duet at the Prince Edward Monday and Tuesday night. 3449-2-19-31.

GARDEN CITY BUTTER—2 lbs for 70 cents. Buy your supply from our teamsters or at our salesroom. Pure Milk Co. Ltd. 1422-1-10-31-stu-fri-imo.

YOU WANT THE BEST your money will buy. Ask your grocer for, and insist on getting Quaker Flour and Quaker Quick Oats (China-ware. 1422-1-10-31-stu-fri-imo.

ST. ELIZABETH'S AID.—The members of St. Elizabeth's Aid have done exceptionally well during the past year in helping St. Vincent's Orphanage. These kind ladies are indeed silent workers. The sum of \$1,429.00 was realized to date \$846.00 of this being proceeds of cook books compiled by Mrs. W. Flynn. Much thanks is due Mrs. Flynn for her generosity in devoting so much time and energy to compiling the book which is highly recommended. The Sisters in charge wish to thank also all the members for their loyal co-operation in caring for the homeless little ones.

"FULL HOUSE"

ROME, February 20.—(British United Press)—Only one bed was available in the Inn at an Abruzzi mountain village when a weary traveller arrived. It was given to him, and he slept soundly all night, being only awakened in the morning by the undertaker, who arrived to call for the corpse of the tramp's cousin, which was under the bed.

HUGE COAT OF ARMS PLANNED

CHESTER, Pa., Feb. 20.—The largest coat of arms of the Commonwealth of Pennsylvania ever cut will adorn the new building of the Chester Times. The seal, carved on three stones, will weigh 6,400 pounds. The center stone weighs 2,800 pounds with each of the outer pieces weighing 2,200 pounds.

Y. BOWLING

Y'S MEN'S LEAGUE

On alleys 1 and 2 the Senators defeated the Maple Leafs by the small majority of 59 pins. On alleys 3 and 4 the Maroons handed the Canadiens their first defeat in this league by the small majority of 37 pins.

Murray Wants State Mineral Survey Halted

OKLAHOMA GOVERNOR DECLARES IT EXTRAVAGANT AND WASTEFUL

OKLAHOMA CITY, Feb. 20.—State participation in the work of locating additional mineral resources in Oklahoma will cease if recommendations of Gov. William H. Murray are adopted.

Gov. Murray has requested the legislature to make no appropriation for the state geological survey. "The survey is primarily for the discovery of oil and gas fields," the governor said. "Since Oklahoma is now producing more oil and gas than needed, it seems an official extravagance and public folly to continue the survey."

Dr. Charles N. Gould, survey director, has announced his opposition to Gov. Murray's recommendations.

Mineral Deposits

He said the survey has been conducted to locate deposits of other minerals, including zinc, coal, lead, limestone, asphalt and clay. Gould declares that when the oil and gas resources are exhausted it will be necessary to rely upon production of other minerals. Recommendation that the geological survey be abandoned is one of the few opinions expressed by Oklahoma's new governor on the oil problem. The governor has refrained from expressing his future plans toward oil proration.

Attempts have been made to bring the proration question up on the floor of the Oklahoma legislature, but heated debates over the issue have been avoided when resolutions condemning the present oil curb policy have been shunted to committee.

Legislative Inquiry

However, sub-committees of the house oil and gas committee have conducted inquiries. Changes have been made before the committees that certain operators in the Oklahoma City field, one of the largest pools in the Mid-Continent area, have been allowed to flow their wells wide open in violation of the curb order, which is enforced by the state corporation commission. Opponents of proration have attacked the curb on the grounds it is causing a decrease in the state revenue from gross production tax collections. Revenue from that source decreased approximately \$3,000,000 last year, it has been pointed out.

DAY LABORER CLAIMS HUGE FRENCH FORTUNE

NANCY, France, Feb. 20.—Adolphe Bujardin, a day laborer, of Roubaix, has made claim to a fortune, which he charges was wrongfully appropriated by Napoleon Bonaparte to supply his troops. The heritage, in 1676, was estimated at 50,000,000 francs about \$2,000,000, which would be doubled many times now. According to the history of the fortune, a poor cobbler of Chateau Thierry, named Jean Thierry, moved to Vienna where he made a tremendous fortune. It was deposited in the bank of Venice, following his death, as no descendants were known. Late in the 18th Century Napoleon seized the funds for his troops. Bujardin now advances his claim that he is descended from the cobbler. It is stated that 200,000 francs has been offered for his claim.

Husband And Wife Find Them Very Beneficial

Read What Mrs. E. J. Arbeau Says of Dodd's Kidney Pills. New Brunswick Lady Speaks Very Highly of Canada's Foremost Kidney Remedy—Dodd's Kidney Pills. Upper Blackville, N. B., Feb. 21.—(Special)—What all women want is a reliable medicine that they can turn to with confidence in time of need. Mrs. Elmer J. Arbeau, of this place, has found such a remedy—Dodd's Kidney Pills have done for her. She writes: "After my second baby was born I had to walk the floor continually on account of my kidneys. I could not get any comfort and was unable to sit down. I was advised to try Dodd's Kidney Pills and after taking one box was greatly relieved of my distress. My husband also had a queer feeling in his side—a sort of dead pain. After taking half a box of Dodd's Kidney Pills the pain has gone. Thanks to Dodd's Kidney Pills. They are wonderful."

Wonders Of Wireless Control

LONDON, February 20.—(British United Press)—A reliability of 94.18 per cent is now being maintained by the aircraft of Imperial Airways in their flights between London and the continent, and England and India. Skilled pilots, together with the standardization of a fleet of multi-engine aircraft, and the existence of a ground organization which is the fruit of years of operating experience, all play their part in securing such a dependability as this; while another aid which is vital is represented by wireless telegraphy and telephony, as they are now utilized, systematically, in the everyday operation of a modern airway. The basis of the system, as evolved for regular airway use, is represented by a stream of routine messages by wireless telegraphy, in which many abbreviations are employed to expedite transmission. These service signals are flashing constantly between the London air terminus at Croydon and stations along the main air-routes. The airway traffic controller, in his office in the tower at the London air-station, has a big map before him which he is studying constantly. From this he ascertains not only the position of aeroplanes which have alighted at stations here and there, but also the progress from time to time of machines which are in flight. These movements of machines are represented, on this map, by a series of small flags which, as signals are handed through to him from the wireless room, he is constantly changing in position. So that this tracing of aircraft may be effected systematically while machines are in the air, a method is in operation whereby pilots in flight make use of their wireless telephones to broadcast, frequently, brief messages indicating when they are passing some city or familiar landmark, along main air-lines.

PREDICTIONS FOR 1931

MINNEAPOLIS, Minn., Feb. 20.—The Rev. Charles J. Morrow, pastor of the First Spiritualist church, revealed to-day a list of 73 predictions of world important events during 1931, obtained, he said, through consultation with the spirit world. Among the events forecast by Rev. Morrow for the next eleven months are repeal of prohibition, death of Premier Benito Mussolini and defeat of Mayor William H. Thompson by Judge John H. Lyle in Chicago's forthcoming election. Also, according to the predictions, the Prince of Wales will be seriously ill during September, an unsuccessful move will be started to unite Protestant and Catholic churches and a steamship with hundreds of passengers aboard will sink because of an intoxicated captain. "I stake my profession reputation on the belief that my forecasts will come true," Rev. Morrow announced. "Last year I issued a list of 32 predictions. All except two of them were fulfilled." Here are some of Rev. Morrow's other forecasts: There is a man coming out of obscurity who invented wings which can be attached to a man or woman to lift the individual off the ground. David Belasco, John D. Rockefeller, Marie Dressler and Von Hindenburg will die. The stock market will advance steadily until November and then decline, two of the largest steel companies will merge; three great motion picture companies will unite. The United States and Canada will have plenty of rain and sunshine and an abundance of crops. A man named Edward Lynn will be the help of God, will discover a political cure appendicitis. In Arizona there will be discovered a new kind of fruit which appears to grow on bushes. Not as large as an apple. It is to be eaten raw and is exquisitely delicious.

Penny-In-Slot Typewriter

BERLIN, February 20.—(British United Press)—A typewriter which, by the insertion of a ten pfennig (two cent) piece will allow the use of visitors to the writing room of a cafe in Berlin. Should the document to be typed exceed 1,000 letters and spaces another coin must be placed in the slot.

ORCHARD CARE

Much of the success in fruit growing is secured through the proper pruning and preparation of trees for their natural purpose. With the warm sunny days of spring just a few weeks ahead orchardists are beginning to think of getting their orchards into shape for the year's work. For good results there should be a definite objective, particularly in the work of pruning, and for this purpose the horticultural experts of the Federal Department of Agriculture have prepared a bulletin, "Modern Orchard Practices" (No. 129). This bulletin is proving popular with orchardists and is available without charge on application to the Publications Branch of the Department at Ottawa.

MEMORIAL TABLET GIVEN TO OHIO MUSEUM

COLUMBUS, O., Feb. 20.—(U. P.)—A bronze memorial tablet, honoring the late Senator Frank B. Willis of Ohio, has been presented to the Ohio Archaeological and Historical museum by 70 friends of Willis. The tablet will be placed in the corridor of the museum, reserved for memorials to Ohio's great men. Willis also was a former Governor of Ohio.

Collide In Fog

(Canadian Press) HAMBURG, Germany, Feb. 20.—The British steamer Cheldale collided with the Danish steamer Florida in a fog off the mouth of the Elbe tonight, damaging both vessels. However, both rescued port. An S. O. S. call from the Cheldale brought the tug Hermes, which towed her to Cuxhaven with a seriously damaged stern. The Danish ship arrived at Cuxhaven with only slight injuries to its bow.

OREGON DEAN TO SPEAK

EUGENE, Ore., Feb. 20.—Dr. John J. Landsbury, dean of music at University of Oregon, has been invited to speak at the second Anglo-American music conference at Lausanne, Switzerland, from July 31 to August 7.

When Your Cough Hangs On, Mix This at Home

The best cough remedy that money could buy, can easily be mixed at home. It saves money and gives you the most reliable, quick-acting medicine you can get. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing. Any drugstore can supply you with 2 1/2 ounces of Pinex. Pour this into a 10 oz. bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it, you will never be without it. Keeps at the home of her son Uriah Winters perfectly and tastes good—children really like it. It is surprising how quickly this loosens the germ-laden phlegm, and soothes and heals the inflamed membranes. At the same time, part of the medicine is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which follow cold epidemics, are promptly ended. Pinex is a highly concentrated compound of genuine Norway Pine, contains the active agent of eucalyptus, in a refined, palatable form. Nothing known in medicine is more helpful in cases of severe colds, chest colds and bronchial troubles. Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.
