A very lovely wedding was solemnized at the Church of the Assumption, Stephensville, Crossing, Newfoundland, when Rev. Stoyles united in marriage Miss Madonna Reiff, daughter of Mr. and Mrs. Robert Reiff, to Mr. Richard Collings, son of Mr. and Mrs. James Collings, Montague. The groom was assisted by Mr. Cornelius Curnew, while the bride was attended by Miss Jody Nardini. The bride wore a lovely floor-length white satin gown, and carried lilies and ferns. The bridesmaid was attired in an attractive shell pink gown and carried narcissus and ferns. Following the wedding a reception for one hundred guests was held at the home of the bride's parents. After the reception the bridal party left on their honeymoon for Corner Brook where they were guests at Glymill Inn. For going away the bride wore a grey travelling suit with grey accessories. On their arrival in Montague the young couple were tendered a reception at the home of the groom's parents, Mr. and Mrs. James Collings, where the immediate families of the newlyweds assembled to wish them every happiness. On Monday evening a large crowd serenaded the happy couple at the home of Mr. and Mrs. Adolph White when best wishes for their future happiness were extended. The young couple are to reside in Montague.

Fishing enthusiasts are having very good luck in the Montague River now that the big June run is on. During the past week it has been noticed that the run has been getting heavier and that the trout are making their way up the streams. During the present week with low tide in the evening, the shore may be seen to be lined with fishermen, each trying to capture the big one. Recently a lovely 2 lbs. 1 oz. trout was on display in the store window of C. R. Boehner's jewelry shop. Mr. Boehner caught this beauty in the Montague River, and since then many other larger trout have been taken. Up to the present sea trout will be found up the Valleyfield stream as far as Sutherland's bridge, and on the electric dam stream as far as the old bridge. This latter spot is one of the best places for July fishing, and is much frequented by many fishermen; however, fishermen usually move to the 'big hole' on the Valleyfield stream during the month of August, and are usually lucky enough to come away with a few large trout. Last year a 3 1/2 lb. trout was taken from the 'big hole' but the record of 4 lbs. 10 oz. caught in 1939 is still standing, and only a very lucky fisherman will take out one large enough to beat this long standing record.

They were accompanied on the return trip by Mrs. Walter Barwise and little son Allan who will spend two weeks visiting her mother and other relatives in New Glasgow. Also Master Lionel Stevenson who had spent the winter months with his aunt in Saint John.

THE SIMPLE SULFAS The sulfas drugs are so widely known, so remarkable in their effect, and so easily administered that caution is necessary in their use. Since these drugs have simply to be swallowed in pill form, there is a tendency for them to be used as a means of home treatment without medical advice. Like many effective drugs they are dangerous if not administered wisely and with the necessary precautions. Fortunately the doctor can provide his patients with the necessary 'do's and don'ts' when he prescribes a sulfa drug for an illness. He can also make certain tests which will guide him as to whether it is necessary to discontinue treatment with sulfa.
