Stock Markets At A Glance

CHICAGO, Jan. 7 — (AP) — Grain futures markets were firm to strong Saturday with wheat up fractionally and rye and barley at times gaining more than a cent.

WINNIPEG, Jan. 7 — (CP) — In the coarse grain pit rye futures held above prev. ...cls Saturday, closing 1 to 1 1-2 cent a bushel higher. May finished at 1.18 ¼, July 1.15 ⅛-⅜, and October 1.12 ⅛.

MONTREAL, Jan. 7 — (CP) — Despite a fair percentage of individual losses on Friday and Saturday all groups in the indices managed to finish up last week's trading on the Stock Exchange and Curb Market in net higher positions except banks which lost ground.

NEW YORK, Jan. 7 — (AP) — The Stock Market Saturday finished one of its liveliest weeks in several years on a slightly sour profit cashing note.

The Associated Press 60-stock composite was off .1 of a point at 58.8 but held a net gain of .5 on the week. Transfers of 742,990 shares compared with 1,016,440 the previous Saturday.

TORONTO, Jan. 7 — (CP) — Tone of trading was generally steady on Saturday's short session of the Toronto Stock Exchange.

Golds showed a slight upswing until near the close when some faded to bring the index slightly down. Oils were mostly unchanged and Base Metals slightly off in light trading.

In the golds Central Pat took a 10 point rise to 2.20 and Pioneer gained 5 at 4.55. Little Long Lac was a 15-point drop at 3.25 in activity just before the close. Sheep Creek, Bidgood and Broulan were slightly off. Giant Yellowknife traded quite heavily to finish at 11, up ¼.

Sec'y.-Treas.

LANTIGEN LANTIGEN LANTIGEN LANTIGEN LANTIGEN LANTIGEN LANTIGEN LANTIGEN LANTIGEN

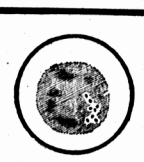
IMPORTANT BRITISH MEDICAL DISCOVERY of Dissolving Micro-Organisms

In the case of chronic diseases such as acute rheumatism, arthritis, catarrh, and sepsis conditions, the poison in the system uses up or destroys the whole or nearly the whole of the hydrotropins in the body system, thus rendering the ordinary type of vaccine when taken orally or by injection, either partially or totally ineffective, due to the fact that there are little or no hydrotropins available to dissolve the vaccine, which results in the antigenic fluid not being released from the body of the organisms, which further results in a complete failure to produce the necessary antibody resistance to destroy the toxic poisons, and either to make the poison germs innocuous, or to actually kill them off.

THESE PICTURES SHOW HOW LANTIGEN OPERATES

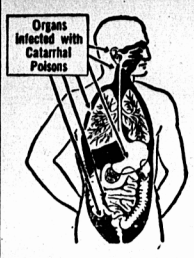
1. These are the villi—small sucker-like protuberances in the upper intestine, which have together an absorptive surface equal to a room 12 x 12 x 12 feet, and which absorb LANTIGEN from the gastric fluids and carry it into the system.

2. This diagram shows some of the many dangerous germs that cause disease. Observe their small dot-like appearance.



3. This is an illustration of a white corpuscle stimulated by Lantigen engulfing and destroying infective germs for the purpose of their elimination from the system.

for CATARRH & BRONCHITIS



Bronchial Asthma, Antrum, Sinus, Catarrhal and Bronchial Colds.

Lantigen "B"

Usually the first catarrhal infection is due to the neglect of a simple cold. Rapidly the infection spreads, and develops into severe chronic inflammation in the mucous lining and the air passages become blocked. The excretions which are dislodged by blowing the nose often fall back into the throat, infect the tonsils, and result in acute laryngitis and inflammation of the throat. Maddening head noises make the catarrhal patient's life a misery. LANTIGEN "B" Oral Dissolved Vaccine will quickly improve this condition and create a feeling of well-being.

for RHEUMATIC & ARTHRITIC PAINS

In acute arthritic cases where sufferers have been bed-ridden for several years, and in many cases being over 70 years of age, have been so completely relieved of the toxic poisoning given off by the streptococci germs as to be completely relieved of pain and a great deal of freedom of their joints restored. When this immunity is obtained to this extent it can be regarded as permanent, if parenteric doses are maintained such as six drops of Lantigen C in water say once weekly, and on the signs of the complaint returning the doses should be maintained daily, which would almost invariably disappear again in less than five or six days.

Neuritis, Sciatica, and Lumbago

Lantigen "C"

The early effects of using Lantigen "C" are: (1) relief from pain, (2) the recedence of swollen joints and limbs, (3) improvement in general health. In the case of Rheumatic pains; in most cases the following bacterial organisms are present—Streptococci polyvalent.

Sufferers report good results. Many now enjoy improved health. Free from pain first time in years, following a course of Lantigen which treats and immunises, without vaccination by injection.

Lantigen Laboratories, 12 Richmond St. East, TORONTO, ONT. Dec. 12, 1944.

Gentlemen:

I am writing to let you know what Lantigen B has done for me. First I am able to go to bed and sleep the whole night through without wakening around three o'clock, choked up and getting no more rest the remainder of the night. It is a wonderful thing that I can go out in this frosty, stormy, weather and have lots of pep—something I have not been able to do for years and years. Other winters I would only go a few yards in frosty weather till I would be choked so badly that many times I would go to my Doctor's and get the needle in my arm before I could return back home. It has been a God-send to me to learn of Lantigen B, and what it has done for me—It is worth its weight in gold—mine being very stubborn severe attacks of Bronchial Asthma.

I have just completed using one bottle and I feel so much better that I think I can reduce the dose to about three times a week. I really feel with Lantigen B I will in time be completely cured of this treacherous disease. I have at least ten people started taking it, since they can see what it has done for me. I had one lady come to me this morning saying, "I am like you now. I feel like a new person and I have only taken half a bottle of Lantigen B." You can see it is helping others—anyone with Bronchial Asthma, don't suffer one more day. Give Lantigen B a try—no diet, eat anything you wish, the same as I am with Lantigen B. I trust this letter can be published to let everyone know what Lantigen B has done for me.

Yours very truly,
Mrs Mary Braithwait
366 A Belliol St.,
TORONTO, ONT.

Lantigen Laboratories, 12 Richmond St. East, TORONTO 1, Ontario.

60 Sibley Avenue, TORONTO 13, Ontario, November 29, 1944.

Dear Sir:

I feel it is my duty to write and tell you what my first bottle of Lantigen has done for me. I have been one of the most stubborn cases of Asthma Bronchitis in the City of Toronto for the past twenty years. I have spent a small fortune in trying to get relief which in one or two cases I did get a little relief. For the past fifteen years I don't know what a real night's rest was, I had to sit the night out in a chesterfield chair. I have been taking Lantigen for two weeks and from my first dose of six drops I have had perfect rest—not even a wheeze or cough all night. I leave the house at 7 o'clock in the morning, rain, fog, or sunshine, and in the past two weeks I don't think that I have coughed six times in the two weeks, and at $6.00 per bottle which lasts sixteen days, I think that it is far cheaper than any doctor's bill I have paid for one week without any signs of getting sleep. I have never felt so good in nearly twenty years, and I will never be without nor never stop boosting Lantigen B as long as I live.

Henry James Foster
Wombarra, April 20, 1943.

Dear Sirs,

I am writing to let you know that both my husband and myself have derived great benefit from Lantigen "B". My husband is a T.B. case, greatly complicated with Catarrh, and the "B" Lantigen has greatly relieved the latter; also a friend at Blackheath to whom I recommended Lantigen "A", has not had a cold for three years. She is now taking Lantigen "C" and receiving much benefit. As I am still taking "B" will you kindly let me know if I could take "C" say, alternate nights, or would they clash. I am troubled a little (not very bad yet, but I would like to "nip it in the bud") with Rheumatism in knees, shoulders, hands and big toes, and would like to try Lantigen "C", but not sure if both kinds can be taken at the same time. Shall be glad of an early reply.

Yours sincerely,
L. RUMARY.

CONTRIBUTION TO THE WAR EFFORT—80,000 Chinese soldiers are being treated each month free of charge with LANTIGEN Oral Anti-Typhoid Vaccine.

WHAT IS LANTIGEN ?

Lantigen is made in a Government Licensed Laboratory in Australia and therefore all their stringent regulations have to be adhered to. Lantigen is not a patent medicine—and is devoid of drugs. Lantigen is an oral vaccine in a DISSOLVED state.

Being a completely Oral Dissolved Vaccine, it is operative immediately it is taken. It is operative in two ways, firstly by absorbing into the open tissue, such as the tongue, throat, and intestinal tract, and secondly it is also operative by means of its distribution through the alimentary—stomach system. The antigens being fully released, begin to immediately incite the system to produce antibodies, which in turn destroy the toxic poisons given off by the poisoned germs and also render the poison germs harmless.

LANTIGEN SUCCEEDS

LANTIGEN is a natural aid. It is produced out of the human body and gives increased antibody resistance to disease. It is not a drug or a chemical aid. You would not develop colds, catarrhal and rheumatic conditions if your antibody resistance was strong enough to combat them. Remove the cause sapping your vitality. It reduces or eliminates the inflammation of the nerves, which result from all disorders.

Dear Sir,

Please find enclosed Money Order for £3. being payment & freight for two Bottles of Lantigen B. which you will kindly forward on to me at your very earliest convenience, also a List of your other productions & remedies & prices. I may say since taking the Lantigen B. some 7 months ago I am a new man in health the symptoms of trouble are leaving me & I have better immune from cold & colds although living here in a marsh at the foot of the Australian Alps. Thanking you in advance for your prompt attention & good success to your vaccine treatment which I consider the very best. Yours Faithfully
James Ballidge

Edinburgh Laboratories
Sydney

Dear Sirs

Two years ago 1st Jan 1940 I had a letter from you asking me to give you permission to publish the benefit I got from Lantigen for B catarrh, I neglected writing before as I have taken all the medicines advertised & can say That Lantigen B was the only remedy that I got any benefit from after two bottles I began to feel better & I took four bottles, & it made me a different man, you can publish this letter in your own way. I have a Third Phlegm occasionally & cough up & I suppose I should take another bottle or two however I have Lumbago like Rheumatism & Sciatica & would you please forward me a bottle for one & advise me if I could also take Lantigen B. for Catarrh at the same time I enclose Cheque of £2-3-0 & if I can take Lantigen B for Catarrh as well as Lantigen for Lumbago etc send me a bottle of each & forward me two bottles for Lumbago etc.

Yours Sincerely
R. R. Scammell

PERSONAL WRITTEN REPORTS FROM USERS OF LANTIGEN

James Lumsden & Co.
Dear Sirs

I am writing on behalf of my wife who has a very bad attack of bronchitis I bought your Lantigen C for Rheumatism & am sending you post office order for the sum of 22-3-6. as I have been a sufferer of Rheumatism for the last 25 years & I've tried everything I thought might cure me but nearly everything else failed but this Lantigen seems to be the best so far as I have seen that has been cured with it.

So trusting to hear from you by return

I remain
yours Faithfully

Dear Sir

I thought you might be interested to hear from one who has been cured from neuritis, by Lantigen C. my arm was useless & my hand was heavy & useless & I could not dress myself or do anything. Pain was terrible & I could not sleep in bed for the pain. Friends & Doctors called cures, Rubbish & then I went to the Dr. I had & who treated & was my seller & so I decided to try Lantigen. I really did not expect good results as I had tried so many cures, anyhow I am pleased to say I am all right & have been for 2 months now. I was bad for 8 months & went to anything & was taken in by so many cures & was so fed up with them all. Now I am all right & can do anything & go anywhere & I am pleased to say I am free from pain & use my arm & hand as well as ever. Thanking you for your kind attention & wishing you success with your cure.

Yours Faithfully
A. R. Anderson

ANTS CROSS A STREAM

Our Dumb Animals

—The insect known as the driver ant is a most ferocious creature and perhaps more to be feared than even the wild animals and cannibals of Africa. They travel like soldiers, in columns, and the order of march is perfect. Their numbers are so large as to be considered only in astronomical figures.

When the marching column comes to a stream the ants unite and form themselves into balls, some as large as a hornet's nest and roll out upon the water. A given point on the other shore is aimed with uncanny accuracy, scouts having been first sent out at night. The soldiers of the colony, however, can stand more sunlight than the workers, so the former unite to form tubes about one inch in diameter, through which the workers pass without being subjected to the fearful rays of the African sun. This occurs in cases where they must make a daylight pilgrimage.

The driver ant cannot stand direct sunlight; therefore it works to locate the best point of embarkation. Subsequent balls cross in like manner until the entire colony is on the opposite side.

MONTREAL GREAT CITY

Montreal is the largest city in Canada, and the second largest French-speaking city in the world.

JEWELRY NOTED

Columbus called Costa Rica the "rich coast" because the Indians wore gold jewelry.
