The great Brindamour opened a three night's engagement at the Opera House last night and astonished everybody. His manipulation of coins, cards and magic rings, a mysterious act that guesses numbers, and many other wonders puzzled the curious. The following trunk trick in which while locked into a trunk a tall man was metamorphosed into a short, young woman is a real wonder. With hands securely tied behind his back the performer with the cabinet quickly got out of his coat and donned the coat of one of the committee set to watch him. Tonight the police are to make the experiment of handcuffing and fettering the magician to see how quickly he can free himself. The performance is a genuine display of wonders so deftly done as to defy detection.
