WILL DENOUNCE AGREEMENT WITH RUSSIA

British Gov't. Will End "Dumping" Of Russian Goods Into England.

(Special to the Guardian)
LONDON, Feb. 10.—The Daily Mail said today that the Government would soon denounce the trade agreement with Soviet Russia by the late labor government with a view to ending a "dumping" of Russian goods which imperilled the British trade balance. The announcement of the agreement's termination, the newspaper said would be made soon after Sir John Simon, Secretary of State for Foreign Affairs returns from the disarmament conference at Geneva next week. Imports of Russian goods exceeded British exports to Russia by about \$125,000,000 a year, the Mail explained.

It said the expectation which the trade agreement was based that British trade would benefit had been erroneous, moreover the newspaper added most British goods had been bought by Russia on credit with the result that Russia owed Great Britain about \$250,000,000. While Russia had been flooding the British market with goods at prices sometimes 40 percent below value against which the British could not compete.

"TRADE BILL" INTRODUCED TO HOUSE

LONDON, Feb. 10. (Canadian and Associated Press Cables)—The "trade bill" to establish a general ten per cent tariff on imports to Great Britain tonight was introduced to the House of Commons in "dummy" form and given its first reading, after the government had disposed of two Labor amendments which would have limited operation of duties to one year and placed all foodstuffs on the free list.
The first Labor amendment to limit operation of the tariff to one year was rejected by a vote of 345 to 62 and the second, demanding exemption of food-stuffs from taxation, was voted down by 285 to 65. The bill was then introduced by Rt. Hon. Neville Chamberlain and given first reading. Exact contents were still unknown and publication

JAPANESE MAKING HUGE PREPARATIONS FOR FINAL BIG PUSH

(By Morris J. Harris, Associated Press Staff Correspondent)

SHANGHAI, Feb. 11.—(Thursday)—The greatest concentration of guns, manpower and ammunition of the entire Shanghai-Woosung engagement was in progress this morning as the Japanese and the Chinese got ready to fight it out to the finish. The troops were massed about the Woosung forts, where the Chinese have stood up for a week under almost continued bombardment and aerial attack.

JAPS RUSHING TWO DIVISIONS TO FRONT

The concentration movement was carried out under the cover of darkness last night and early this morning. Passengers aboard steamships from Japan that docked at Shanghai late Wednesday said they had passed a dozen Japanese troopships. Neutral sources here received a code message from Japan saying that two army divisions, about 20,000 men, had embarked for the front.
The Chinese got ready for the big push by draining their reserve troops from trench lines to the rear of their positions in Chapel.

In the sector about the north station only two lines of trenches remained manned. Hitherto three or four lines have held full complements of men. A gap of half a mile existed between the Chinese front and the support lines after the shift had been completed. Japanese field, pieces, unloaded from ships in the Whangpoo, were picked up from the Shanghai docks by motortrucks that rumbled away to the north. Japanese trucks rushed
