### La Grippe and Colds

In La Grippe and Colds, Anti-kamma (A-K) Tablets are unexcelled, as they stop the pains, soothe the nerves, and bring the rest so greatly needed by nature to restore the system to health. Physicians have used these tablets for over twenty years, in the treatment of colds, fevers and grippe, and have found no other remedy more useful in these conditions. Anti-kamma Tablets are so inexpensive, so pleasant to take, so satisfactory in their results, and so useful in all conditions where there is pain, that A-K Tablets should always be kept in the house for the time of need. Many of our ablest physicians obtain perfect results in the grippe and colds, by cleansing the system with Epson salts or "Acids", a very good cathartic, putting the patient on a limited diet, and administering one A-K tablet every two or three hours. This treatment will usually break up the worst case in a day or two, while in milder cases, ease and comfort follow almost immediately. These tablets are also unexcelled for Neuralgia, Rheumatic Pains, The Pains of Women, Indigestion and Insomnia. All druggists have them. Genuine A-K Tablets bear the K mark.

Sarsaparilla Compound Extract of Sarsaparilla with Iodide of Potassium is an efficient alternative remedy in all scrofulous conditions and wherever lowered vitality shows itself by eruptions, pimples, pustules, boils, blotches, etc.—\$1.00 bottles. E. A. Foster, Central Druggists.

### EGYPT'S CLIMATE SHOWS CHANGE

The climate of Egypt has been changing in a remarkable manner in the last few years. Rain fell in torrents in Alexandria during the celebration of the accession of the new Sultan.

Such a happening half a century ago would have been regarded as a phenomenon, but rain now falls in places where it had never been known to fall before in many centuries, and more rain is falling where only very little, or merely dew, once aided the farmers.

The English are believed to be responsible for the rain, with their new channels for spreading over the land the waters of the Nile. Just as the plantation of trees in a desert will bring rain, so is Egypt now a moister place, because of the extension of cultivated lands.

But it is not likely that Western civilization will destroy the wonderful dryness of the Egyptian air, with its beneficial effect on invalids.

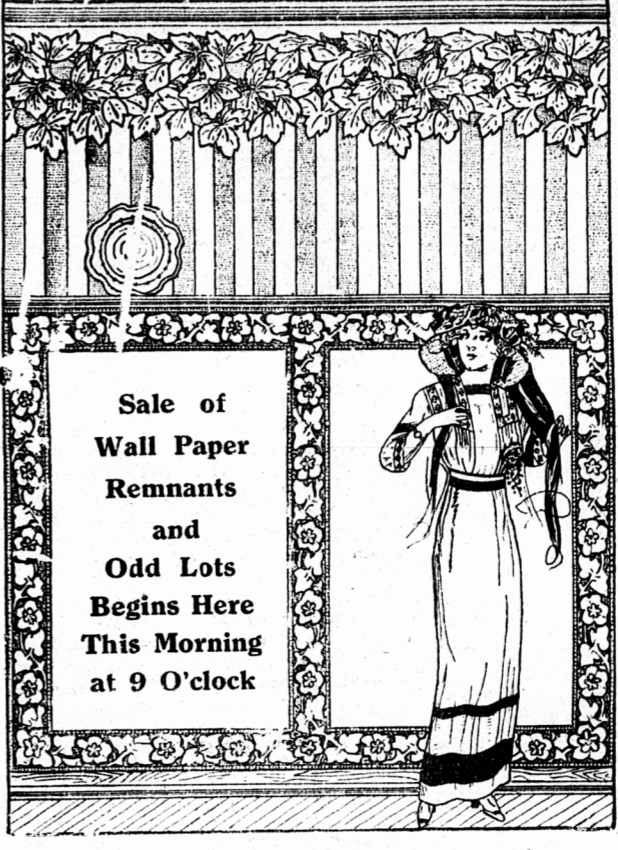

The first factory in Great Britain for the production of metallic tungsten will be opened at Sheffield in the near future.
