ANIMAL SWIMMING

Although all reptiles and most animals and insects are able to swim in varying degrees, few possess the swimming power of human beings. A man has been known to swim thirty miles without a pause, and the only land animal which approaches this performance is the American black bear.

The American deer will, however, occasionally swim twelve or fifteen miles at a stretch. It is noteworthy that, whereas the hare is a proficient swimmer, the rabbit cannot swim at all. The common house and field mouse can swim only a few yards, and they often drown in the act, yet rats can swim splendidly.

Lions and tigers swim well, although only from necessity, as to cross a river, for example. The horse can swim for miles without being exhausted, and he shows a wonderful instinct in chosing the best landing places. Bears and moles swim well, but bats and monkeys are helpless in the water.

REGISTERED NO. 42948.
RECORD 2:23 (4)

AN IDEAL SPECIMAN OF THE AMERICAN TROTTER.
Handsome, Richly Bred and a Game Race Horse.

All agree that the Wilkes is the leading speed producing family of America. The number of performers in standard time sired by George Wilkes (2:22) and his sons, and produced by his daughters, is 3381. The nearest competitor Electioneer has only 2040. The fastest in the Wilkes family are inbred. Oakley Baron (2:23) is an inbred Wilkes. He is a direct descendant on the male and female line of George Wilkes through three of his best sons, Baron Wilkes (2:18), Onward (2:25), and Bourbon Wilkes. He is a magnificent individual, has all the qualities required in a sire, soundness, size, speed and beauty. His progeny sell for highest prices. Almost impossible to buy one. Oakley Baron is without doubt the best bred and handsomest stallion on the Island. His early speed points to the fact that it is born with aim. He will transmit it. At the Amherst Horse Show this spring, colts by Oakley Baron won first prizes in the two and three year old classes. His oldest colts are three this spring. Oakley Baron will make the season of 1910 at the owner's stable, 254 Kent St., opposite King Square. Service fee $15.00 cash or note payable Nov. 1st. Usual return privileges.

A Richibucto School Teacher

Once a Dyspeptic—Now Well, Thanks to Father Morriscy's No. 11.

Richibucto, N. B., Nov. 17th 1909.

Father Morriscy Med. Co., Ltd.,

I have been teaching school for upwards of thirty years, during the last twenty-five of which I have suffered seriously with stomach trouble, indigestion and dyspepsia.

I have tried many remedies, and while I would get temporary relief from some of them, yet the old trouble would return, and with it the sufferings only known to the chronic dyspeptic.

Last year I had made up my mind to abandon my profession, feeling that in my condition I could neither do justice to myself or to the many pupils under my charge. A friend suggested to me that I try Father Morriscy's No. 11 Stomach Tablets; I did so, and have continued to use them with the result that my stomach trouble is cured—my indigestion and dyspepsia gone and I feel as well as I ever did.

I have, thanks to the Tablets, been able to continue in my profession, and feel that I am once more enjoying my work and am able to give justice to the fifty-four pupils under my care.

Yours Gratefully,
(*Signed*) MARY CHRYSTAL.

Are you one of the many thousands who, like Miss Chrystal, are prevented from doing their best work, of really enjoying life, by stomach trouble?

If you are you cannot do better than she did—take Father Morriscy's No. 11 Tablets.

Each No. 11 Tablet, when dissolved in the stomach, will digest 1¾ pounds of food—a good, hearty meal—so that no matter how weak your stomach may be No. 11 Tablets will enable you to get the nourishment out of your food and build up your strength, while the stomach, thus relieved, recovers its vigor.

A BABY ENGINE.

The smallest locomotive engine in the world, we are told, weighs twelve grains, and three drops of water fill its boiler. Despite the fact that it could be placed inside a thimble, it is composed of one hundred and forty distinct pieces, and is held together by 52 screws. The stroke of the piston is one-twelfth of an inch, yet when in motion it works as though it were the biggest and strongest locomotive that ever ran on rails.

POSTCARD CAME LATE!

A citizen of a Melbourne suburb received a postcard recently, which had been posted to him just 21 years ago. The card was from a person bearing the not inappropriate name, "A Gamble," of a Victorian country town. What happened during the 21 years between the posting and delivery is a mystery which the authorities will, no doubt, now seek to penetrate.

SPINNING AN EGG.

One of Lord Kelvin's favorite experiments while teaching natural philosophy at the University of Glasgow was to spin an egg which was suspended in the air. If the egg were hard boiled it would spin a long time otherwise, owing to the friction between its contents and its shell, its motion would soon cease. Lord Kelvin inferred from this that the interior of the earth cannot be a fluid or the globe's rate of rotation would have been checked long ago. Once the students substituted raw eggs for the hard-boiled ones provided for the experiment. Not one would spin properly, but Lord Kelvin was not to be fooled. "None of them boiled," was his only comment.

PROVIDE PLAYGROUNDS

(Toronto Telegram)

Toronto would have playgrounds everywhere if past boards of education had not sought stingy little school sites in new districts.

Suburban school sites could have been purchased by the acre when land was cheap. Thus, as the suburb became central, the city would have been equipped with a system of ready-made playgrounds in every district.

Past errors are irreparable. But every new school site that is planned for the suburbs should be bought in big areas. Surround each new school with a wide and ample playground. Then the city will have something to show for its money when these schools become the centre of thickly peopled communities.

PARASOL GIVES FINISHING TOUCH.

Parasols give the finishing touch to a costume. Handbags fill a certain place of course, but there is nothing that can take the place of the parasol. An embroidered parasol is not at all a foolish investment, even for women of limited means.

Nowadays embroidered silks are made of such materials that they can easily be cleaned at home. Women who are handy with the embroidery needle can make a very pretty parasol, but it requires time and patience before the article is finally completed. Long white handles are being used for the summer parasols.

Tom Medium, Jr., will be seven years old next July. He is a beautiful seal brown, with a glossy coat. Stands 16 hands high and weighs 1300 lbs. He has never been trained but promises to have as much speed as his sire Tom Medium (2,16 1-4). He is admired by all horsemen and has no equal on P. E. I. for style, bone and size. He enjoys the distinction of having the fastest inheritence as he possesses to a marked degree the blood of the world's champions. His sire, Tom Medium, (2.16 1-4), grand sire Riley Medium (2,10 1-4), great-grand sire Happy Medium. Tom's dam was Dolly B, sired by Neptune Lee (2.24). He by All Right, grand dam Bush Messenger. Tom Medium Jr's, half sister Lettie Lee sold for $300.00.
