CALLED HOME.—Mr. J. J. Dunphy, Inspector of the Department of Investigation, C. N. R. Atlantic Region, has been called to his old home at Morell, P. E. I., on account of the critical illness of his father, Mr. William Dunphy, a well known resident of that place. The telegram summoning Inspector Dunphy home stated there was no hope for his father's recovery.—Moncton Times.

POLICE COURT.—At the Police Court yesterday morning five cases of unsanitary cases appeared. Two were fined $2.00 and costs; two having cleaned up their premises were each fined $1.00 and costs. One case was adjourned on account of the person charged being in jail. One drunk and disorderly was fined $30.-00 or thirty days. He tok the jail sentence. One prohibition case was fined $200.00 and costs. One man for driving at night without lights was fined $5.00. Another motorist for negligent driving whereby he struck a silent policeman was fined $2.00 and costs. One case of operating a motor vehicle while intoxicated was fined $25.00 and costs and ten days imprisonment, the latter part of the sentence suspended.

LAID TO REST—The funeral of the late Gordon Tomlins was held yesterday afternoon, from his residence on Rochford Street. A brief service at the house was conducted by Rev. H. D. Raymond. The services at St. Paul's Church were said by Rev. H. D. Raymond, assisted by Rev. W. Bruce Muir, while the Masonic service was said by Capt Ernest Kemp, Grand Secretary of the Grand Lodge of Prince Edward Island. Mr. Raymond and Capt. Kemp also officiated in the committal services at the grave. There was a large attendance, and the many beautiful floral tributes testified to the respect and esteem in which the deceased had always been held. The pall bearers were: Messrs George DeBlois, Ernest Seller, Victor Purdie, James Robertson, Philip Coyle and Gordon Wright.

NEW MAGISTRATE APPOINTED—The Government has given a thirty-three and a third per cent implementation to at least one of its pre-election promises, namely that for the better enforcement of the Prohibition Act it would appoint three Magistrates to deal exclusively with Prohibition cases. It is announced that at a meeting of the Government on Tuesday night Mr. George Tweedy was appointed Magistrate under the Prohibition Act with jurisdiction over the whole province. Mr. Tweedy is a young man with two or three years' experience at the bar. He is evidently in the good graces of the Government, as he was appointed legal clerk at the last session of the Legislature over the head of a returned soldier, whose nomination for the position was turned down by a standing vote. His appointment this time has been over the head of a senior member of the Bar, Mr. Robert McNeill, who has given much longer service to his party and who was recommended by the Temperance Alliance, along with Mr. Tweedy, as one of the County Magistrates to be appointed under the Act.

led today to the news that Commander H. C. MacDonald had hopped from Newfoundland on a trans-Atlantic flight in a tiny Moth aeroplane. Because of the size of his machine and his own limited flying experience the attempt was hailed as probably the most intrepid exploit ever undertaken. British airmen found it hard to believe that their comrade was in real earnest and not making a short test flight. They pointed out that while the Moth machine was supposed to have a fuel capacity sufficient for 35 hours flight it was a question whether this gave enough margin of safety.

The experts figured that MacDonald would run a big risk of finding himself without fuel if he met unexpected head winds or other delaying factors on his route to Ireland. On his present attempt his skill in navigation gained in the navy was thought likely to be of great advantage to him.

Another factor in his favor, it was pointed out, was the condition of the weather which could hardly be better. No storm centres have been reported over the north Atlantic and along the Irish western coast the weather is fine and dry with an entire absence of wind and rain.

NEW YORK, Oct. 17.—Flight Commander MacDonald will have "peculiarly favorable weather" on his flight from Newfoundland to England, Dr. James H. Kimball, of the weather bureau told the Associated Press, today. From reports received here there are no storm areas over the Atlantic and the flier will have the advantage of a following wind. This wind should attain a velocity of 20 miles an hour. The plane probably will encounter cloudy weather here and there with some rain in small areas.

ALL AMERICAN ROUTE

(Canadian Press)

ST. PAUL, Minn., Oct. 17. — If connection between the Great Lakes and the Atlantic Ocean by the St. Lawrence River does not materialize after negotiations with the Canadian government, the United States government will construct an all-American route through the state of New York, declared Hon. Frank B. Kellogg, Secretary of State, in addressing a luncheon meeting of the Ramsey County women's republican club today.

ODDS ON ELECTION IN HOOVER'S FAVOR

NEW YORK, Oct. 15.—Betting on the Presidential election throughout the country has been extremely light. Odds are at a wide variance but heavily favor Hoover, according to a survey of principal cities made in the past week.

There seems to be a reasonably firm market, with the odds against Smith averaging around 2 1-2 and 3 to 1. In some states they are less than 2 to 1. Of course on big bets the New York odds usually rule, the money being wired here for action. The New York market is about 3 to 1 against Smith on the national outcome and about 11 to 10 against him on winning the state.

The first sleeper-bus service in England has been established between London and Livepool and other lines are planned.

The Markets

EGGS

OTTAWA, Ont., Oct. 17. — The fresh egg market continues firm today but storage eggs are dull. Chicago spot futures have declined further.

TORONTO—The local situation on fresh eggs is quite firm. Storage stocks are dull and easy.

MONTREAL—Fresh extras continue to advance on this market under light receipts and are jobbing on spot at 52-53c. Other grades are unchanged.

ST. JOHN—Last week's prices are well maintained here particularly on fresh extras which have shown further strength in a jobbing way. There has however, been heavy importations from P. E. I. and many short held eggs are being placed on the market. As a result fresh seconds are dragging, dealers preferring to use storage eggs to this grade. Dealers are quoting country shippers for ungraded eggs, delivered, cases returned, extras 46c; firsts 42-43c; seconds 30-31c.

CHICAGO—Spot 34-36; Nov. 29 3-8; Dec. 30.

NEW YORK—Unchanged.

MONTREAL, Que., Oct. 17.—The export trade in Canadian grain here today was again quiet and the only business transacted was the sale of a few cars of barley and wheat to the continent. The trade in the local cash grain market was also inactive but values were unchanged. Prices for all grades of spring and winter wheat flour were firm but the demand was only moderate. A moderate amount of business was done in millfeed and the undertone was steady. Rolled oats were quiet but firm. The demand for all grades of fresh and storage eggs was fair and values were well maintained. Receipts were 344 cases. The potato trade was fairly active and Prince Edward Island best grades cobblers sold at 85-90c per bag of 90 pounds, F O B Montreal and New Brunswick Green Mountains at 80c per bag of 90 pounds in bulk, with cobblers at 75c per bag, ex-track. There was no change in imported beans with choice white handpicked selling at $4.40 to $4.60 per bushel, ex-store. Little business was done in butter but prices remained steady. The receipts were 171 packages. An easier feeling developed in cheese and prices were reduced a fraction. This was attributed to the limited demand from local and foreign buyers. Receipts were 6,109 boxes.

meeting with no definite appointment in prospect. At the conclusion of the meeting, Mr. Morris accompanied me to the platform, where we secured the attention of Mr. Taylor, M. P., who at once brought up my refusal of the Brantford proposition. I reiterated my stand in this regard. He then expressed his willingness to remove the conditions of acceptance referred to above, since he admitted being responsible for having them attached to the proposal.

"It was at this time that Mr. Veniot approached us, and after shaking hands with us, as a matter of course, he stated that he would help me get the position. He remarked that I was not to consider the Postoffice episode a personal matter and that he bore me no hard feelings. This was all that was said between us, and after shaking hands again, Mr. Veniot bade me good-bye.

"This statement which he attributes to me as having been uttered at this meeting constitutes an absolute falsehood and a deliberate attempt to lead the public astray, as well as a contemptible effort to justify his position by shifting the onus for high-handed conduct from his own shoulders."

KING HONORS TWO

LONDON, Eng. Oct., 17—The highest order which may be bestowed by the King has been tendered to the Earl of Lonsdale (Hugh Cecil Lowther), some times known as the "King of British sport." He is named a Knight of the Garter. The Earl of Strathmore and Kinghorne (George Bowes-Lyon), father of the Duchess of York, has been made a Knight of the Thistle.

TEACH POETRY PURIFY SPEECH

(By Canadian Press)

MONTREAL, Que., Oct. 17—Advocating a wider place for poetry in the early education of children, Rt. Hon. Sir Rennel Rodd, in a lecture at McGill University on "The Essence of Poetry," said that children had an instinctive sense of the poetry of things and appreciated the rhythm, the color and even the felicitous phrase though they did not grasp the poet's meaning. Sir Rennel said he thought youthful memorizing of examples of great verse would contribute to the purification of the language.

Sir Rennel was Ambssador in Italy from 1908 to 1919 and was a British delegate to the League of Nations in 1921 and 1923 and is the author of several books of prose and poetry. He is giving a series of lectures in Canada.

(Special to The Guardian)

TIRANA, Albania, Oct. 17.—The coronation of Zogu as King of the Albanians has been postponed to sometime in February. In the interval a house will be built in this tiny capital for the accommodation of foreign guests. The government also contemplates construction of a parliamentary building and improvement of the streets of the capital.

NEW WELLAND CANAL WILL OPEN IN 1930

OTTAWA, Oct. 17—The opening of the Welland canal probably will take place on Dominion Day, July 1, 1930, if present plans of the ministry of railways and canals materialize. The cost of the huge undertaking will be by that time between $115,000,000 and $120,000,000.

Col. A. E. Dubuc, chief engineer of the department has returned to Ottawa from an inspection of the work and expresses gratification over the completion of one of the most difficult tasks of the enterprise, the construction of the inverted siphon under the present Welland canal just outside of Welland. Tremedous difficulties were overcome in the construction of this siphon, as it had to be carried 100 feet down and in addition to the rock excavation had to be constructed through a sea of liquid mud which was struck about 75 feet down. Several times the men were endangered by threatened collapses, but the engineers successfully overcame all the difficulties and the siphon is now complete.

On July 1, 1930, the canal will be ready for ships of 24 foot draft to come through into Lake Ontario, providing a through waterway down to Prescott. All the permanent works provide for a 30-foot clearance so that the canal can be dredged to take ships with 30 foot draft without any great expense.
