McLeod, Garfield has made arrangements for the steamer Harland to leave Bruce Stewart & Co's. wharf on Wednesday morning at 9.15 arriving at Hallidays wharf 11 a.m. Parties with autos will convey people to the races. Returning the boat will leave at 7.15 p.m. The races will be first class and the sea trip thoroughly enjoyable. Meals will be served on the grounds. 2i

Died in Toronto

Mr. C.H. Black, City, received a telegram from his brother in Toronto, bringing the sad news that their mother, had died there early Friday morning, at the age of 79 years. The deceased was the widow of the late Hibbert C. Black, formerly of Pugwash. She was a daughter of late Rev. Dr. A. W. MacLeod, and was born at Bedeque, P.E.I., where her father was at one time pastor of the Methodist Church. He was the first editor of the Wesleyan, and a writer of considerable ability. The late Mrs. Black was a highly educated lady, and years ago was a teacher in the Ladies College at Sackville. Like her father, she had literary attainments of a high order. She was very prominent in church and social work and enjoyed excellent health until about a month ago, when she suffered a nervous collapse. She leaves to mourn, three sons C.H. Black, of Charlottetown; Dr. W.A. Black, of Toronto, and Professor Herold G. Black, in Sacramento, California, also one sister in California, Mrs. Emma Bent Hall. The body will be brought to Pugwash for burial, and the funeral takes place Tuesday afternoon. Mr. Black, of this city, and the other members of the family will have deep sympathy in their sad bereave met.

Ch'town Boy Drowned

Continued From Page One

all hope of restoration was abandoned.

The body had been in the water an hour so that the chances of recovery were very slight.

While the search was in progress telephone messages were rushed to Charlottetown for physicians. Dr. Ledwell responded immediately and upon arrival pronounced life extinct.

The sad affair needless to say caused a great shock to the members of the party.

The body was brought back to Charlottetown in the same boat in which the unfortunate lad had left the city, the girls returning home by automobile with Dr. Ledwell. The boat reached the marine wharf at 9 p. m. and the remains were taken to Wright's mortuary chambers.

The Attorney-General was notified and an inquest was deemed unnecessary under the circumstances.

The deceased was 23 years of age and a son of Mr. John Cairns formerly of this city and at present residing in San Francisco. A sister Mrs. Rodd of this city also survives. Deceased was employed with Stanley, Shaw & Peardon in their plumbing department. He was overseas with the 105th Battalion and had an excellent record. The sad event is deeply deplored.

THE WONDERFUL FRUIT MEDICINE

NOX A COLD TABLETS
A safe and speedy cure for La Grippe, Coughs, Colds, Headache, Neuralgia, Flu, a mild laxative. Breaks up a cold in a few hours. Get the genuine at all drug stores. 25c per box.
H. A. Foster, Central Drugstore.

Why A Farm Needs A Milwaukee Air Power Water System

Combined in a few words the answer is: Because it is the best investment a farmer can make.

Time spent in carrying water, in pumping water and in taking the stock to the watering trough is time that can be used to better advantage at other work.

The matter of home comfort also is important. Isn't the wife of the farmer just as good as the city woman?

What about the children? Is there any reason why they should not have a home equipped with a bath room and inside toilet just like their city relations?

And to think what it means in case of fire to have a hose handy and eighty pounds water pressure to fight it with.

Call in the next time you are in town and look over our demonstrating outfit.

Currie & Murnaghan
11 Queen St. Charlottetown.

Fox and Fur Notes

Mr. Rancher; Are you in the business of fox ranching for fun or are you in it to make money? If you are in it for your health only, then you need not care about the future of the industry nor need you take steps to make it profitable. If on the other hand you are producing foxes for profit, then it is a business proposition and you must go at it in a business like way. You must not only produce but you must provide the demand and the markets for your production. What is the most sensible way to do this? Do you trust to luck and expect that the demand will create itself automatically? If so, you will have a wide awakening some day. Prices for any article are governed by supply and demand and the moment the supply exceeds the demand, down go the prices.

There is only one sure way to create a demand and consequent markets for a non-essential article and that is by advertizing. A campaign of advertizing costs money. An individual rancher cannot bear the burden alone, and it is only by sharing the burden that ranchers can undertake to carry the load. The Silver Fox Fur Selling Association has as one of its objects and purposes the union of ranchers for the purpose of carrying an advertizing campaign for the purpose of popularizing fox furs among the class of people who are looking for a beautiful and exclusive fur for which they are prepared to pay a good price. The Association is asking you to invest an amount which represents less than five per cent of the value of your breeding stock in order to insure this stock against being a liability to you instead of an asset.

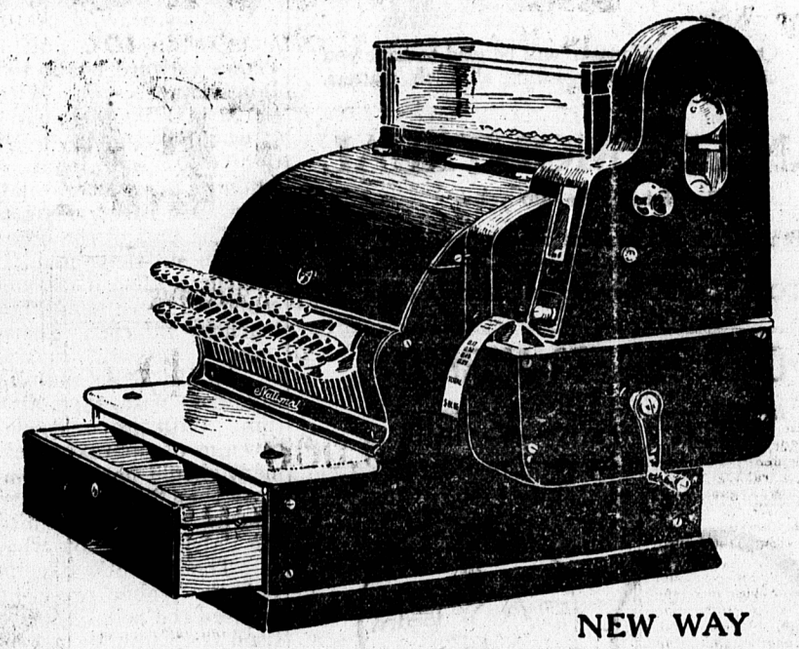
In your own interest are you going to be far seeing enough to realize this? We believe that at least a sufficient number will see this to ensure success to the association. Some will not see it now, but they will later when it may be too late in their own interest. Do not wait to be forced by circumstances to come into the Association but do it NOW.

The Fox Ranching Business in Prince Edward Island represents an investment of more than seven millions of dollars. This is a vast sum of money. Such an industry must surely be organized if it is to prosper. The meeting in Summerside on Monday has such organization for its object. Foxmen! You surely can spare one day of your time, be it worth ever so much?

No more mistakes in adding up the items of a sale

OLD WAY

By hand and brain and pencil.
Makes mistakes.
Causes losses.
Causes worry.



NEW WAY

This new receipt-printing cash register adds the items by machinery.

1. It prints a receipt for each customer.
2. It indicates the price of each article.
3. It prints the price of each article.
4. It prints the total of all items.
5. It retains an added and printed record.
