

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Edmonton, Alberta, Can. — "I think it is no more than right for me to thank you for what your kind advice and Lydia E. Pinkham's Vegetable Compound have done for me.

"When I wrote to you some time ago I was a very sick woman suffering from female troubles. I had organic inflammation and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills, and think they are fine. I will never be without the medicine in the house."—Mrs. FRANK EMSLEY, 903 Columbia Avenue, Edmonton, Alberta.

The Other Case.

Beatrice, Neb. — "Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered terribly with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound and was doing for others and I used several bottles of it with the result that I haven't been bothered with my side since then. I am in good health and I have two little girls."—Mrs. R. B. CHILD, Beatrice, Neb.

FRIDAY

IN FOR REPAIRS—The S. S. Pekin, which is owned by McKinnon Bros., Montague, and runs between Montague and Pictou, which came to Charlottetown on Wednesday night, is to undergo repairs and the work will be done by Messrs Bruce Stewart & Co. The repairs which are chiefly to the engine will keep the steamer off her route for a week or ten days.

RAG WORT EXTERMINATED.—According to Dr. Pethick, of the Department of Agriculture ragwort is now exterminated here. It got a slight hold sometime ago in Souris, but immediately steps were taken to eradicate it and with complete success. Dr. Pethick is still carefully investigating the peculiar poison of the weed, and the Department is in communication with the agricultural chemists in London with a view to discovering the particular alkaloid which is responsible for the slow poisoning of the animals which may eat the weed in hay.

BRIDGE CONSTRUCTION.—Work has already been started in connection with the big program of bridge construction which the Provincial Government have in hand for the present year. Over a dozen new steel bridges are to be erected in various parts of the Island. At all the points where the bridges are to be laid, operations have been commenced in the erection of the sub-structures, which in each case will consist of two tiers of creosoted wood piles and one concrete pier. The building of the big bridge at Bay Fortune and a small bridge at Glencoe, near Vernon River, is most advanced. At Glencoe a 35-foot steel span is to be erected and to be completed by Monday. The bridge at Bay Fortune is to be a large one, and the sub-structure of this is of a very stout nature. One of the piles in the centre pier for instance, is sixty-six feet long. The bridge will consist of a steel span 225 feet long. The super-structure for it will be completed within the next week.

DREDGE MONTAGUE.—The dredge Montague of the Department of Public Works was towed into Charlottetown from Georgetown on Wednesday night after finishing her work dredging in Georgetown. She was towed in by the tug Wm. Aitken and S. S. Pekin and will be fitted out preparatory to her going to Pinette. She would have gone into Pinette on Wednesday night but found it impossible on account of the stormy weather.

BROOKFIELD.—The Revd. Principal McKinnon of the Presbyterian Theological College, Halifax, N. S., and the Revd. G. A. Sutherland of Kensington will conduct the services in the congregation of Brookfield, etc., first Sabbath, Aug. 31st. The River 11 a. m., Brookfield, 3 p. m., and Hunter River 7 p. m. The services in the Presbyterian churches at Brookfield and Clyde River, of Sabbath, Sept. 7th, will be conducted by the Rev. John Pringle D. D., of St. Andrews church, Sydney, C. B.

NO BUG THIS YEAR.—The greatest satisfaction prevails among agriculturists at the complete absence of the potato bug this year. The potato crop is completely free from disease—the first time for many years. Speculations have been rife as to the reason for this, and the consensus of opinion seem to be that the cold backward spring prevented the bugs germinating. Whatever the cause, the agriculturists are rejoicing, though the Paris green salesmen rather lament the consequent decrease in the consumption of that commodity.

BELOW UPSET PRICE.—At eleven o'clock in the forenoon yesterday, Mr. R. Beattie, licensed auctioneer, offered for sale at public auction, the premises at lot 196, Richmond street, city, the residence and office of the late Dr. James McLeod. The sale was conducted on the instructions of Messrs. McLeod & Bentley. There was a small attendance of bidders. Bidding started at \$2,500 and went to \$3,000 at which figure it stopped. But that offer, which was made by Mr. J. J. McKinnon, was not accepted, as the amount was below the upset price.

WORK AT CAR FERRY.—Mr. Fred R. Miller of Messrs. Roger Miller & Sons, Toronto, the car ferry contractors, came to the city yesterday from Cape Traverse, accompanied by Mrs. Miller and Mrs. Crosby. In the course of the day Mr. Miller had an interview with Mr. A. A. McLean, M. P., and Mr. D. Nicholson, M. P., and reported to them the steps to be taken in fulfilling the contract. The camps for the employees will be erected, the plant brought down from the Upper Lakes, and possibly two or three crabs built before winter sets in. A great deal of preliminary work has to be accomplished before the contract proper is entered upon, including the opening up of a quarry on the mainland. It will take six weeks or two months to bring all the plant down, and seven or eight weeks before the necessary timber can be brought to the spot. Mr. Fred Miller will be in general supervision of the work, visiting it from time to time, but the resident superintendent will be his brother, Mr. Roy Miller, who will winter at Summerside.

WEDDING BELLS.—The pretty home wedding of Mr. Thomas Woodridge's youngest daughter Miss Susan Wood Islands was celebrated at her home Cove Head Road on Wednesday evening, August 20th, at 5 p. m. The couple were married in the parlor which was beautifully decorated with ferns and sweet peas. The ceremony was performed by Rev. E. A. Westmoreland. The bride's sister Miss Ella, from Brookline, Mass., acted as bridesmaid, while the groom's cousin Mr. Archibald D. McNeill ably supported the groom. The bride was charmingly attired in a gown of brocaded silk, wearing a bridal veil caught up with white sweet peas and carried a shower bouquet of white sweet peas. The bridesmaid wore white embroidered crepe with sash and tulle hat trimmed with lilies of the valley. She carried a bouquet of pink sweet peas. Following the ceremony the happy couple, after wishing the guests all good wishes, retired to the dining room where supper was prepared by the bride's mother. Dancing and music were the chief amusement of the evening. The bridal party with parents of bride, rode to Charlottetown the following afternoon and went on the Murray Harbor train to their future home in Wood Islands. They were met at the depot by the groom's father and several other friends and taken in carriages to the groom's home. A large number greeted the party there and gave them a hearty welcome. About 7 p. m. the guests partook of a bountiful supper prepared by the groom's mother. The evening was quietly spent in violin music and singing. The happy couple were the recipients of many beautiful presents showing the high esteem in which they are held in both communities. The bride is one of the Island's most popular teachers, while the groom is a most enterprising farmer.

DOCK DREDGED.—The dredge Prince Edward, No. 10 of the Department of Public Works, has just about completed the dredging of the Plant Line dock and the big steamer Evangelizing last night docked at the side of the wharf for the first time. The work was commenced about June 15th and a depth of 13 feet has been dredged, 350 feet wide and the length of the dock. The dredge goes next to Pownall wharf.

SUDDEN DEATH.—A telegram was received on Friday morning announcing the sudden death in Concord, N. Y., of Mrs. James Heartz, formerly Eliza McKinnon, daughter of Mr. and Mrs. Alexander McKinnon of Fredericton, P. E. I., in the 39 year of her age, leaving a husband and five children—besides two brothers and three sisters—to mourn the loss of a departed one. The heartfelt sympathy of the whole community goes out to the bereaved in this hour of trial.

WEDDING BELLS.—The marriage took place on Aug. 27th at the Maunse, Valleyfield, by Rev. Mr. Stewart of Miss Katie McDonald, second daughter of Mr. John McDonald to Mr. David Bell of Hopfield. After the ceremony the happy young couple drove to the bride's home at Caledonia where a reception was held attended by a large number of friends. The bride was dressed in a charming blue traveling suit with hat to match and was attended by the groom's niece, Miss Florence Wetherbie who was daintily attired in white. The groomsmen were Mr. Norman McDonald, the bride's brother, and a pleasant evening spent in social intercourse the young couple left for their future home amid the best wishes of their friends. The appreciation of Mr. and Mrs. Bell, who are very popular was shown by extensive array of handsome wedding gifts.

A REMARKABLE RECORD.—An extraordinary record is being made by fur-bearing animals, especially those of Canadian forests, is that of T. Major Howatt, of Coleman, P. E. I., who has achieved signal success in the care and breeding of the silver black fox which is now attracting widespread attention in the world of commerce, says the St. John Times. To the haunts and habits of these little animals, Mr. Howatt has devoted almost life-long study particularly to the needs and welfare of baby foxes, known to ranch folk as pups, with which he has been remarkably fortunate. A St. John man who has visited many of the ranches on Prince Edward Island remarked last night that to T. Major Howatt belonged the distinction of having more foxes under his care than any living breeder and that in all his experience he had never lost a pup.

HORSES FOR MILITARY.—How many horses are there in the Island fit for service in time of war? How many farmers' wagons are there for the transporting of supplies in the event of the mobilization of a Canadian army being necessary? These are some of the questions which Captain E. B. Eaton of the Army Service Corps, Halifax, will soon be solving on a tour through the country. Under the recent change in the division of the Dominion for military purposes there are a number of divisional areas, of which the Maritime Provinces comprise one area. It is known by the military authorities that in the event of war and the mobilization of a Canadian army so many hundreds of thousands of horses and wagons, etc., would be necessary. The object of Capt. Eaton's tour (he is now in New Brunswick) is to find out where those horses are going to come from and he has been visiting the individual farmers in the St. John Valley registering horses and equipment available for military purposes.

Falling Hair

Dandruff and Itching Scalp are caused by Microbes.

There is no doubt about it. Doctor Sangerboud proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangerboud's discovery as final. Ask any worthy physician.

Paris leads the world in knowledge of diseases of the hair and remedies for the same.

Parisian Sage which can now be obtained at leading druggists all over Canada is the one great remedy that kills the dandruff germs.

That is why Geo. E. Hughes says to every reader of The Guardian, if Parisian Sage does not banish dandruff, stop falling hair or itching scalp in two weeks he will refund the purchase price.

Dandruff is a forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now before the dandruff germs kill your hair.

Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing.

It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 50-cent bottles at Geo. E. Hughes and leading druggists everywhere. Girl with Auburn hair on every package. Made in Canada by The R. T. Booth Co., Ltd., Fort Erie, Ont. Mail orders filled, all charges prepaid.

Liquor and Tobacco Habits

ONTARIO WHEAT MANITOBA No 1 HARD

BEAVER FLOUR

YOU can make a bigger and better loaf of bread with "Beaver" Flour than with any Western Wheat Flour.

Of course, there's no comparison between Ontario fall wheat and western wheat. Bread made of Ontario fall alone is immeasurably superior to that made of western wheat in texture, fineness, whiteness and flavor.

It is true that western wheat flour makes a big loaf—but it is heavy, tough, full of holes and uninviting both in appearance and flavor. "Beaver" Flour has the delicacy of flavor—the fineness of texture—the snowy whiteness of the best Ontario fall wheat, with the strength of Manitoba wheat flour.

Because "Beaver" Flour contains both Ontario fall wheat with a little Manitoba spring wheat to increase the strength. "Beaver" is the original blended flour—a product of science and patience—perfected after years of testing.

If you want real home-made bread with the real home-made flavor—if you want light, delicious Pastry, Cakes and Pies—use "Beaver" Flour, best for one, best for all.

Pedigreed Black Foxes

JOHN R. DINNIS, PEDIGREED FOXES, LTD.

Incorporated July 22, 1913
Authorized Capital \$300,000
Subscribed Capital \$123,000
Shares each \$100

TERMS 10 per cent on application
40 per cent September 20, 1913
50 per cent November 15, 1913

THE ASSETS

on which the issue of \$123,000 is made consists of:

- One pair 2 year old Dalton breeders (now in Dinnis ranch) that reared 4 young in 1912 and 4 in 1913.
- Five pairs of young foxes (1913) of the Dalton, Oulton, Rayner and Tuplin strains, all selected from litters of 6's, 5's and 4's

The sole use of the name "John R. Dinnis" and cost of organizing the company.

THE PROVISIONAL DIRECTORS

President, John R. Dinnis, Charlottetown, P. E. I., Stockman and Fox Rancher.

Vice-President—Dr. B. C. Borden, Sackville, N. B., President of Mount Allison University.

Secretary-Treasurer—J. Walter Jones, B. A., B. S. A., (Toronto) Charlottetown, P. E. I., Farmer, Author of "Fur Farming in Canada," late of the United States Department of Agriculture.

Director—William E. Cameron, B. A., (Oxon) First Rhodes Scholar from P. E. I., Professor of Economics and Commerce, St. Dunstan's College, Charlottetown.

Director—Charles Lyons, Charlottetown, P. E. I., Mayor of Charlottetown.

THE DINNIS RANCH

Mr. Dinnis is the most successful large rancher on Prince Edward Island. The Dinnis Ranch has the best location. It is situated about two miles from the Capital City and is the chief point of interest for tourists. It has a thoroughly up-to-date equipment and is under the direct supervision of Mr. Dinnis who lives close to his ranch and personally tends the animals. An efficient staff of men assist in managing and guarding the Ranch.
