FOX NOTES

Mr. Henry Lewis, Alberton, P. E. I. has just received sales report of one Silver Black Fox sent to New York for the recent sales. This pelt brought $1,000.00, and Mr. Lewis claims that it is not the best he has in his ranch. This is surely satisfactory for this season of the year, and gives some idea of the earning possibilities of properly managed Companies.

Mr. W. S. Wetherbee Middleton, Conn., is at present in the province. Mr. Wetherbee has purchased a large number of silver black foxes for American interests.

Things never looked better in the Fox Industry for big earnings than they look right now. Those who can look into the future have every reason to be optimistic.

::SHEER WASTE—It's sheer waste of money putting cheap half shoddy shoes on growing children. One or two wet days and the shoe is twisted out of shape, and the counter has a slew like an Irishman's hat at a picnic. The counters of CROSBY'S "YOUNG CANADA" School Shoes never go over—if the shoe wore for a year the counter would be as straight as the day it was put in—the soles never twist because the sole stock is selected with a view to quality, not price. Add a few cents to the price and treble the wear by insisting on CROSBY'S "YOUNG CANADA."

As a souvenir of her connection with the P. E. Island Hospital the nurses presented her last night with a valuable set of fruit-knives and a sterling silver bon bon dish. ACCIDENT AT RACES—Dr. Nicholson, who is driving Cap. Cresceus in the races at Halifax, had a narrow escape from serious injury on Wednesday. Whilst the horses were warming up for the second heat of the 2.27 trot Cap Cresceus and Earl Bingen collidied in front of the grand stand. Both drivers were thrown and a wheel was torn off Cap Cresceus' sulky. Cap Cresceus galloped, completely around the track before being stopped, demolishing what was left of the sulky as he went along. Dr. Nicholson's injuries were fortunately confined to a slight shaking up, and he finished out the race with his horse. "Dannie" Steele, who was driving Upton Prince in the same race also met with an accident, losing a tire as he was going well up to the last time round the upper turn. As a consequence of the accident Upton Prince was given the flag, but in view of the circumstances the judges allowed him to continue in the race.

DR. DANIEL HENNESSY— Dr. Daniel Hennessey, of Bangor, one of the oldest practitioners in the state, died on Sunday afternoon after an illness of several weeks. He was seventy-nine years and nine months old. He entered Mt. Allison Wesleyan Academy, now Mt. Allison University at Sackville, N. B., and prepared for his course at St. Dunstan's College, Charlottetown, P. E. I., where one of his classmates was the late James Jeffrey Roche, a poet and editor of The Pilot, Boston. Having determined upon the study of medicine, he began his studies at the University of Syracuse, then Geneva Medical College, where he was graduated and later he took special courses in New York city. At the close of the civil war he was attached to the surgical staff of the famous Aide-Camp hospital on David's Island, where thousands of soldiers were sent from battlefields for treatment.

Ontario Doctor Guilty of Fraud

(Canadian Press Despatch.)

CAMP BORDEN, Ont., Sept. 13— A practising physician in Central Ontario has been found guilty, according to a statement by Assistant Director of Medical Services, of rendering false health certificates to soldiers who desired to prolong their leave. For a dollar or two he would give a soldier a certificate declaring him unfit for service for a few days because of an imaginary ailment.

A soldier was despatched to the doctor after being examined by two medical men in camp and found in perfect health. He paid a dollar to the physician and was given a certificate declaring him unfit for work for several days, as he was suffering from tonsilitis. On return to camp he was again examined and found to be in good health. The matter has been reported to the Council of Physicians and Surgeons.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made.

Two Hundred Turks Were Killed

(Canadian Press Despatch.)

LONDON, September 14—The British army is Mesopotamia, which has been inactive for several months on account of the intense heat, has engaged in a few minor operations recently, which were reported officially today as follows:

"On the Tigris line on the morning of September 11, an aerodrome of the enemy was raided by auf airmen, who destroyed a small camp.

"On the Euphrates line on September 9, reconoitering party was attacked northeast of Nasiriych by Turkish irregulars. Two days later a mixed force from Nasiriych drove them northward. The operations were most successful. Over 200 of the enemy were killed and large quantities of ammunition were captured and destroyed."

Says Russia is to Have Constantinople

(Canadian Press Despatch)

SAN FRANCISCO, Cal., Sept. 15.—That Constantinople has been promised to Russia by the Entente Allies should the central empire be defeated in the war was the statement made here yesterday by M. M. Itches, member of the duma and one of the Russian parliamentary deputation sent by the Czar to England, France and Italy to confer with these governments.

"The reason for the visit of the duma deputation to England, France and Italy," said Mr. Itches, "was to convince ourselves of the military and economic resources of our allies. Having seen, we are more than ever prepared to go on with this war, the more so, as we now have all the munitions we require and can maintain a continuous offensive. Russia has the solemn promise of the other allies that Constantinople and the Dardanelles will become Russian territory."

Mr. Itches, who came here by way of Japan, said he was visiting America to consult with committees of his countrymen as to measures for the relief of the thousands of refugees who fled into Russia when German troops occupied Lithunia.

Reason Why Zaimis Declined to Accept

(Canadian Press Despatch)

ATHENS, September 15—Every effort to persuade Alexander Zaimis, the aged Premier, to remain in office, was fruitless. His pride was wounded by the appearance of the Allied fleet off Pieraus at the very moment when negotations had been begun for the entry of Greece into the war. The arrest of Austrians and Germans in Athens by French and British agents and the invasion of the French legation by ruffians who fired shots there, taken in conjunction with the continual internal discord in the face of a great national crisis, completely discouraged the entire cabinet. The result was not quite to precipitiate the retirement of the Zaimas ministry, but to bring to a standstill and possibly even to an end, all discussion of a departure from neutrality by Greece.

"I hope the Entente now sees where its policy of trying to force matters leads," a prominent Greek officials with sympathies for the Entente said to the Associated Press to-day.

Letter From Island Soldier

The following letter was received by Mrs. Ernest Griffin, from her son, Brenton, now in Westcliffe Hospital:

WESTCLIFFE HOSPITAL,
Shorncliffe,
Sept. 1, 1916

Dear Mother,— Just a line to let you know I am back in the Hospital, my wound was opened up again yesterday. It seems hard luck to start over again after it was healed up,—but maybe they can do something for me here. This hospital is on the sea front, a lovely view we have, for any stray Zeppelins. I am sick and tired of hospital life. It will be a relief to get away from them. The doctor here thinks I will be all right soon, but I know it will be a long spell yet before it comes right. There is a lot of recovered Canadians going back to Canada, would like to be one of the lot may have a chance after leaving here. They say this is the last resort in England, if they can't cure you here back you go on Permanent Base. There is a lot of fellows here deaf and blind; they are hard to patch up. I was sorry to leave the convalescent camp in Epson as it was a lovely place. We had lots of friends there. They gave the wounded a good time. The weather has been very wet the past week, but cleared today. Suppose harvesting is in full swing at home. The weather here has given the farmers a set-back, but the Germans have got a bigger one since Roumania joined the Allies. Hope a few more come in and it will finish it. Have an awful lot of letters to answer: don't know how I can do them all today. Tell the girls I will write as soon as possible. How is Mr. Brown and the rest of the old folk? Hope you are all keeping well and the children.

U. S. Ambassador Again Under Fire

(Canadian Press Despatch.)

BERLIN, Sept. 14—via London—The American Ambassador, James W. Gerard, is again under fire in a section of the German press, this time for a remark attributed to him, regarding a speech made recently by Dr. Gustav Stresemann, National Liberal member of the Reichstag, advocating among other things, a resumption of the submarine warfare.

Ambassador Gerard is quoted as saying that he did not understand how the representatives, for which export was a vital question, could advocate ruthless submarine warfare.

The National Liberal Press Agency in a communication to the newspapers, takes the Ambassador to task for what is termed "unwarranted intervention in a purely German question," and says that the Ambassador's remark is characterized by "that naive presumptuousness which believes that the decision affecting Germany's political future will be dictated by Germany's American export interests."
