One of the most disastrous fires for some time in this city occurred yesterday morning when the printing and bookbinding plant of the Irwin Printing Co. was totally destroyed. The alarm was sent in at 7 o'clock and it was 9:20 before the "bell out" was rung in.

How the fire started is not known but Mr. Irwin thinks it was caused by a pipe from one of the four stoves, with which the building was heated. Shortly before seven o'clock the fires were started and after Mr. Irwin had finished breakfast he opened the door of the plant, which catches his dwelling but was forced back by volumes of smoke. The alarm was quickly sent in but when the firemen arrived the building was a mass of flames—as one of the firemen stated "when we turned the Bank corner to come down Richmond St. we knew the building was gone."

Streams were quickly laid, however, and by hard work the firemen, hampered by icy clothing, subdued the flames and saved the adjoining buildings.

The press room, where the fire evidently started, is destroyed roof and sides being completely burned. The roof of the bindery and stock room is almost completely burned off and the fine machinery totally destroyed.

Liver Pains

Pains under the shoulder blades tell of liver derangements. Other indications are sallow complexion, indigestion, constipation, biliousness and bilious headaches. The quickest way to arouse the liver to healthful action is by use of Dr. Chase's Kidney-Liver Pills. Continued use will in rare lasting relief, correct the whole digestive system and purify the blood.

Mrs. Wm. Barten, Hanover, Ont., writes:

"For some time I suffered from liver trouble. There was a hard, bearing-down feeling in my back which I could not get rid of. Some one advised me to try Dr. Chase's Kidney-Liver Pills. I did so, and found them excellent. The dragging feeling in my back disappeared and I felt much benefited generally. I have great confidence in Dr. Chase's Kidney-Liver Pills, and always keep them on hand for general use."

Aches And Pains Of Rheumatism

Sometimes They are Unbearable

There are weather conditions that make rheumatism worse. They are not the same in the cases of all persons. Some rheumatism sufferers more in dry warm weather than in moist, cold weather, but all suffer more or less all the time. The cause of rheumatism is an excess of uric acid in the blood, affecting the muscles and joints, causing aches and pains. Hence the blood must have attention for permanent results in the treatment of this disease.

Hood's Sarsaparilla has given entire satisfaction in thousands of cases. Do not fail to try it.

For a laxative take Hood's pills.

The printing office contained a complete Monotype machine, which included a key board and caster. There was about two tons of type in "standing" jobs besides a large quantity of type in cases. The press room contained four job presses and a large paper cutter. In the bindery there was a ruling machine, small paper cutter, perforating and stapling machines, job sticking machine, a standing book press and the stamping machine. All machines which required driving power were fitted with hand or electric motors, this included the four-job presses.

The loss is estimated at \$22,000 and the total insurance is \$14,000. The fire coming at this time of the year is a severe blow to the Irwin Printing Co., as the office is filled with work. The Journals of the House of Assembly were in the bindery, and about completed; these are destroyed, as well as Moore & McLeod's Paper Catalogue, the last pages of which were just off the press, also Carter's seed catalogue. Luckily Monday afternoon the city accounts were copied from the plant.

The Irwin Printing Company employed about twenty hands, who will be thrown out of employment. Mr. Irwin began business about 20 years ago, enlarging his plant from time to time. About 2 years ago the Irwin Printing Company, of which he is the head, was incorporated.

Before the firemen left the scene they were kindly treated to hot coffee by Mrs. A. Irwin and Mrs. M. Leon.

Major Geo. J. Crosby, successor to Mr. Livingstone, as American Consul, arrived in the city on Thursday night, accompanied by Mrs. Crosby. He was yesterday

Lady of the Lake"—not only interesting very ably his subject, pointing out the world's affairs, but offering into wide analysis of Scott's life and genius. The chair was occupied by ex-Chief James Paton who presided in his usual genial manner.

Rev. Mr. Martin, in introducing his subject pointed out that in dealing with the life and times of men in the world's affairs, we must first of all direct ourselves of our own times and conditions and enter as much as possible into the life and times of the character we are studying.

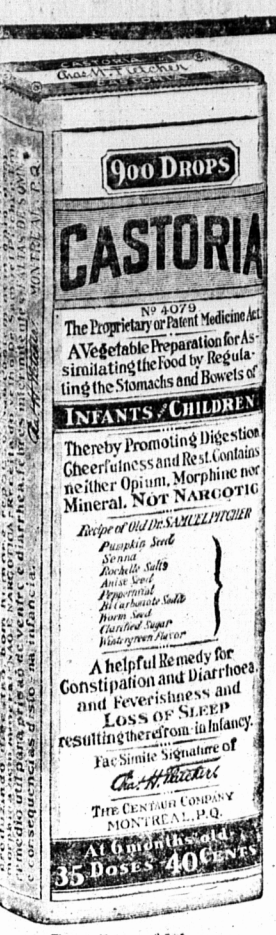

Sir Walter Scott was born only a quarter of a century after the political existence of Scotland had been absorbed in that of Great Britain. It was the dawn of new ideas. Glencoe and Colloiden were forgotten after the victories of the British arms in other lands in which the regiments of Scotland proved their prowess. The only cause of these forces in a common cause had the magical effect of substituting loyalty of patriotism. A period of prosperity followed the cessation of hostilities and the last half of the 18th century was marked by increased commerce and manufactures, and improved agricultural methods and Scotland became rich. It also advanced in its intellectual as well as material respects more than in any other period of its history. The Scottish mind was not lost; its individuality was stimulated by contact and free rivalry with the English neighbor in the arts of peace.

Into such a period matching forward in every department that made for greatness, Scott was born. And to him, more so than to any other son, does Scotland owe her subsequent history—her political destiny, her march along with that of the greatest kingdom, but there remained the history of her traditions, her laws and her literature; and these Scott has described, both in verse and prose, colored with the picturesque of the scenes in which they were enacted.

After referring to Scott's victory over struggle over physical death and the intense study by which he acquired mastery of French and German as well as the tradition and romantic history of his native country, the speaker entered upon the subject of his address and interpreted the many beautiful passages in the grand epic of "The Lady of the Lake" which have today become familiar to even schoolboys.

At the close a vote of thanks to the lecturer was proposed by Professor Bell, seconded by Mr. James Melrose, and supported by Hon. J. J. Neale, Hon. C. Gavin Duncanson, Mr. W. L. Cotton, Mr. J. R. Burnett, and the chairman. The proceedings terminated with the National Anthem.

Major Geo. J. Crosby, successor to Mr. Livingstone, as American Consul, arrived in the city on Thursday night, accompanied by Mrs. Crosby. He was yesterday

occasionally welcomed by Mayor Jenkins and the City Officers of Charlottetown in the Mayor's office, which was appropriately decorated for the occasion with the American flag and the Union Jack. Mr. Crosby was a guest at the Rotary Luncheon yesterday afternoon being introduced by Mr. Tomes, the past President of the Board of Trade.

Mr. Crosby is a native of New Jersey, and since joining the Consular Service on June 2nd, 1921 has been situated at Vancouver and Prince Rupert, and for the past four months in Halifax, as assistant to Mr. Consul-General for the Maritime Provinces, Major Crosby spent 20 years in the American army and has had quite a war record, having been Adjutant of the American Tank Corps in the General Pershing's Staff. He was decorated by President Poincaré of France, with the Order of the Black Star for special meritorious services in the war. He saw active

service with the American Commander's Headquarters at Chateau Mont in the Department of the Upper Marne. After serving in that capacity for two years he was obliged owing to injuries to return to the United States and spent a year and four months in the hospital. On recovering he was appointed Consul at Washington, and later assigned to Vancouver and Prince Rupert. He is an army veteran and like his predecessor Mr. Livingstone, quite a sports enthusiast.
