The usual signs of spring are apparent about the wharves and at the different landings on the river front. Schooners are being made ready for their season's work and are being hauled into their docks. The ice is becoming unsafe for horses at the landings. On Saturday and yesterday several broke through. The ice is reported as beginning to go in places all over the harbor.

In a letter from Stanley Adams of the Madame Langley Concert Co. he states that in the trip they are now taking they have already given 75 concerts and that in every case Madame Langley has been received with the highest enthusiasm and in fact each company has scored a pronounced hit. Madame Langley has made two concert tours through Canada with Madame Albani, once seven years ago, and again three years ago.

FRANK R. HEARTZ returned yesterday from St. John, N. B. His visit there was for the purpose of securing some Clydesdales, of which he has purchased eight naves and a stallion, splendidly selected animals, chosen with the assistance of W. S. McKie a veteran horseman who accompanied Mr. Hertz on his trip. Mr. Hertz's Clydesdales will be stabled on his farm in the County, and this importation will place Prince Edward Island well in line as regards possession of good specimens of this now popular and favorite breed of heavy horses. The animals were the first choice of a lot of fifty which came from Scotland, and regarding the purchase of which Mr. Hertz has been in communication for some time past.

The Guardian Employment Bureau is the general topic of conversation in this city and throughout many parts of the Province. This is not to be wondered at, for so many persons are through it getting just what they want. To those who do not desire to advertise the fee is 25 cents, but no charge is made unless they get what they are looking for. However, by advertising many persons get just what they desire for much less than the above amount.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

British Opinion on Canadian Insurance

The endorsement of a home company and its methods by so staid and conservative people as those of Great Britain, must be regarded with pride by Canadians, who are sometimes apt to think of British Institutions as possessing the highest merits. It is a fact that the results being paid by at least one Canadian Company are considered on a par with those paid by the very best Companies either on this Continent or abroad. While comparisons are not desirable, it cannot be out of place to publish the opinions of two British Policy-holders of the North American Life. These letters, given voluntarily, express the views of men eminently capable of judging the results of their matured policies by the results of the best British Companies. At the present time they should be of special interest.

To Grove Lane, Stamford Hill, London, N., 8th October, 1905. I, Goldman, Esq., North American Life Assurance Co., Toronto, Policy 3120.

Dear Sir, Yours of the 21st Sept. 1905, awaiting my return here. You will find enclosed the official receipt for the \$188.11.10 (\$172.00) being the accumulated surplus which I have elected to receive, the \$16.00 for which I am assured still remaining as a paid-up policy.

I may here say how thoroughly satisfied I have been during the past twenty years that your methods of business have been sound, and your dealings with the assured have always been that of the keenest intelligence and greatest courtesy. My confidence in your company has been a growing quantity, as for the matter of that, you could have seen by the way I have recommended your company to my personal friends, and that as one entirely outside your paid or recognized staff. I now it may be your privilege to maintain your present enviable position in this severe testing time for Insurance Societies.

I am, dear sir, yours sincerely, FRED. SMITH.
