Robust Health For Young People

What a common sight it is to see a young person whose bloodless face and feeble frame are evidence of poor circulation and weakness where bounding health and rosy cheeks should reign.

Young people in such a condition are generally of an anæmic nature and require a preparation containing iron to help improve the blood content.

Milburn's Health and Nerve Pills meet this requirement, as they contain three concentrated forms of iron of an easily assimilated nature together with other valuable ingredients indicated for building up the system, strengthening the nerves, and adding to your physical attraction.

PLEBISCITE JUNE 25— Prince Edward Island's plebiscite on an amendment to the Prohibition Act will be held June 25, it was announced officially yesterday. Basic question to be asked in the plebiscite will be the retaining of the act under which liquors may be sold for medicinal use only or the introduction of a system allowing the sale of beer and wine by permit for beverage purposes while retaining the clause making it necessary for medical prescriptions for the purchase of stronger alcoholic liquors.

There passed away in the Prince Edward Island Hospital yesterday, after a long and trying illness, borne with true Christian fortitude, the Reverend William McNeill Townsend, M.A., D.D., who came to reside in this city some two years ago.
Dr. Townsend although a modest and unassuming man, was one of the best-known and most highly esteemed ministers of the Maritime Synod of the Presbyterian Church in Canada. He was an Islander, born 76 years ago at Traveller's Rest, where he got his initial schooling. From there he entered Prince of Wales College, and after graduating there he taught school for some time at Freetown and Summerside.
Having decided to devote his life to the exercise of the Christian ministry he entered McGill University, taking the degree of Master of Arts after a distinguished course. His Divinity curriculum was taken in the Presbyterian College Montreal, from which he graduated with equal brilliancy. He was ordained to the office of the Holy Ministry at Bass River, New Brunswick, and removed from there to the pastorate of Saint Columba's Church, Fairville, a surburb of Saint John, where he remained, in a fruitful ministry of thirty years, until his retirement two years ago.
Dr. Townsend was a scholar of the first rank, and to the end of his life kept abreast of all that went on in student circles. His large library was the index of a mind always interested in literary, and especially theological, developments of thought. He had a friendly and winsome personality, and was so beloved of the citizens of Fairville, both within and outside of his own communion, that he was popularly known as "Father" Townsend. His services to the Church at large can never be forgotten. He travelled far and wide, and never spared himself in her interests.
In recognition of his high gifts of scholarship and his labors for the Church, the Presbyterian College of Montreal conferred upon him in 1929 the high distinction of the degree of Doctor of Divinity.
To all who knew him, and particularly to those who enjoyed the privilege of his personal friendship, his life and character will remain an impulse and example of lofty Christian service.
He leaves to mourn, two sisters, Miss Albenia E. and Miss Amy M. Pleasant Street and with whom he resided.
A younger brother, also a minister of the Presbyterian Church predeceased him some years ago.
Funeral from St. James Church, Friday 2 o'clock to People's Cemetery, Summerside. On arrival at Summerside a short service in the Presbyterian Church there at 4:15

—ORIGINAL LOG HOUSE BURNED— The old farm homestead of Mr. James Craig at Hamilton which was burned to the ground in the early hours of Saturday morning contained the original log house of the early settlers. This was not discovered until the house was burning. Those who watched the fire wondered why it took so long for the walls to fall. On closer inspection it was found the inner walls were made of logs. The house was one of the original log houses in the settlement. The logs had been sheathed inside and out and evidently the present generation had apparently forgotten the existance of the log house. The homestead had previously belonged to a John Ramsay, and was probably the original home of the Ramsays that migrated from Scotland in 1770.—

Glorious Health

Good health is the true basis of beauty, success and happiness. Many have won good health by the use of Dr. Chase's Nerve Food.

You may think of sleepless nights, of irritability and general failure of the digestive system to do its work and may say "Oh, that is too good to be true."

But it is true and many thousands of people will tell you that time and again they have been restored to health, vigor and happiness by using this restorative of the blood and the nerves.

At this season of the year nearly everybody needs tonic treatment to build up the quality of the blood and tone up the nervous system. It is a grand time to put Dr. Chase's Nerve Food to the test.
