

THE BLESSING OF MOTHERHOOD

Healthy Mothers and Children Make Happy Homes

Motherhood is woman's highest sphere in life. It is the fruition of her dearest hopes and greatest desires; yet thousands of noble women through some derangement have been denied this blessing.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong. This is evidenced by the following letters which are genuine and truthful:

London, Ont.—"I wish to thank you for the benefit I received by taking your famous medicine, Lydia E. Pinkham's Vegetable Compound. Before my baby was born I was so ill I could not stand long or walk any distance. I had to lie down nearly all the time. After I took your medicine I felt like a new woman. I could work from morning till night and was happy and well. I certainly think it relieves pain at childbirth and recommends it to every woman who is pregnant. You may use this testimonial if you like. It may help some other woman."—Mrs. FRANK CORRIN, 132 Adelaide St., London, Ont.

Brooklyn, N.Y.—"I was ailing all the time and did not know what the matter was. I wanted a baby but my health would not permit it. I was nervous, my side ached and I was all run down. I heard that Lydia E. Pinkham's Vegetable Compound was good and took the medicine. I have now a beautiful baby and your Compound has helped me in every way."—Mrs. J. J. STEWART, 269 Humboldt St., Brooklyn, N.Y.

PRINCE EDWARD THEATRE

"Bingle's Melodrama" a three part farce comedy was the headliner of an interesting and varied program presented at this popular Theatre last night. Produced by the Vitagraph Company with their star cast of merry makers, this farce is a pleasing relief from the slap-stick variety. The story briefly is as follows—Bingle wishes to become an actor, he buys a play from a poor author. Bingle fancies he is a star hires his own company. The author begs him to withdraw and the audience forces him to by the aid of an assortment provided fifteen minutes of laughter and some interesting scenes at Coney Island.

Mr. Duguid sang in splendid style a rousing song of the sea, "A Thousand Miles from Shore" his powerful voice carrying his audience with him to the swinging system of the melody. The same programme will be repeated today at all three shows.

Of vegetables, eggs, etc.

The balance of the programme was made up of interesting dramatic stories. "The Phantom Warning" a story dealing with the modern sweat shops. "A Bay of Gold" and "The Divided Locket" were followed with close attention. "The Butchers Bride"

GERMAN LOSSES WERE ENORMOUS

PARIS, Sept. 28.—"Infantry attacks began at noon Saturday," said a soldier wounded in the Champagne fighting, in describing the operations which resulted in an important gain for the French:—

"My regiment was acting as a support. For three days our artillery had been making an appalling din by day and night. Big guns hurled shells without respite.

"We infantrymen, waiting for the end of it, began to get impatient. Saturday, we ate heartily at 11 o'clock, and then looked over our arms. Finally at noon, our chiefs shouted "Forward."

E.V. GILLETT COMPANY LIMITED
WNNIPEGO TORONTO, ONT. MONTREAL

We began to yell like men possessed. With a single bound we were from the trenches. It was pretty hot in front of us.

"The boys, who had gone ahead, were doing good work and were already beyond the German trenches. We reached them in our turn at the double. The trenches were filled up to the brim with German bodies. Further on, we saw enormous craters in which many Germans had been buried by falling earth. Here and there a boot protruded and we tugged at them to see if any were living, but they were not. We did not stop long, but pushed on.

"To our right we saw a strong enemy contingent sheltered in a pit with machine guns. They did not last long, for we fell on them with the bayonet. It was a pretty stiff bit of fencing. Seeing themselves done for, the survivors held up their hands. Some, however, although prisoners, still fired at us. My left hand was pierced by a revolver bullet fired point blank by an artilleryman. My captain knocked him down and sat on his chest."

All of the wounded, who have arrived here, were covered from head to foot with chalky mud. Most of them were wearing the new light steel helmet, which they declared had saved thousands of lives. One, who had no helmet and whose head was cut by a glancing machine gun bullet, said:—

"In the thickest of the infantry attack, I arrived with my company at the German artillery positions. Gun-
