A minor amendment was made in the clause granting the company an exclusive franchise.

MR. ALLEN (the promoter) thought that everything should be done to encourage small companies in the province. He moved that the clause as amended be agreed to.

Hon. J. D. Stewart said the amendment did not help the clause in any way. In any case, the matter was one between the company and the incorporated town; not one for the Legislature.

MR. STEWART did not think that, in order to have the country go ahead, it was necessary to encourage monopolies by legislation. What is wanted here is competition. If the company give a good service they will make money, he said.

Mr. Stewart said that all progressive companies looking for a franchise asked for concessions. It could not reasonably be expected that a company would go to any great outlay, unless it received such concessions.

MR. ALLEN (the promoter) thought that everything should be done to encourage small companies in the province. He moved that the clause as amended be agreed to.
