

THE ILLUSION OF AUTONOMY FOR THE ARABS

TRIPOLI, October 11.—Hassouna Pacha, the last scion of the princely family of Caramanli, which ruled over this country before its conquest by the Turks, received, with profound emotion the decree appointing him in the name of the King of Italy, mayor of Tripoli. He kissed the document with touching respect. The Arabs, who seemed rather hesitating at first, fearing the withdrawal of the Italian warships, have become more confident and are coming forward in numbers to take the oath of allegiance. Their example will facilitate dealings with the inland population.

URGES \$50,000,000 WHITE PLAGUE FUND.

BOSTON, Oct. 11.—Declaring that the criterion of good government is the degree attained in the prevention of misery rather than in the promotion of prosperity, John Hays Hammond, recently America's Special Ambassador to the coronation of King George, and John Mitchell, vice president of the American Federation of Labor, pleaded tonight for greater liberality on the part of the nation and State for advancing the work of

combating tuberculosis. They were speakers at a mass meeting of three thousand on the lawn of the Free Home for Consumptives in Dorchester, under the auspices of the Central Labor Union of Boston. Mr. Hammond referred to the statistics of death which showed 200,000 lives sacrificed annually, and said an annual expenditure of \$50,000,000 for a few years would probably mark the extinction of the disease.

ENGLISH GIRLS ADOPT NEW HOSIERY FASHION.

LONDON, Oct. 11.—Lace inset stockings are to form part of the winter toilette of the English girl. Short skirts oblige her to garb her ankles attractively, and she is going to leave the wintry winds in the thinnest of footwear. The old plan of using fine lace only on black and white stockings is no longer in vogue, for black hosiery is not particularly fashionable at present and white is rather put into the back ground by the prevailing taste for color. Even expensive lace is dyed to match the shade of the silk used for the stockings. Stripes of lace are inset in some cases, while in others the pattern is in the form of butterflies or true lovers knots. The rainbow stockings are the very latest novelty. They are of shaded colors, paling to a watery blue and inset with lace dyed with the stocking and made motiled in tint. Some of the lace inset stockings are worn over another pair of thin black or white silk.

Yesterday about a noon a bull which was brought to the city from the country for George Wheatley, butcher, became unmanageable on Elm Avenue, near L. P. Tanton's residence. The animal seemed to want to turn down Pasmore Street instead of proceeding in Elm Avenue and when an attempt was made to turn it in the right direction it balked. Attracted by the animal's antics, a large crowd gathered and these seemed to excite the brute which, in his efforts to free himself, effected some damage to a tree box and the plank curbing. With the assistance of some others the driver was enabled to proceed with the animal to its destination.

WHY JAPS ARE SMALL.

Recently the editor of the Chouo-Koron, a journal published at Tokio, determined to find out why the Japanese, as a rule, are of lower stature than the natives of other countries, and after spending considerable time at the task he arrived at the conclusion that the reason is because from time immemorial they have been accustomed to squat on mats in Turkish fashion, instead of sitting down on chairs, as Americans and Europeans do. The Japanese method of sitting, he says, interferes with the free circulation of the blood and naturally prevents the limbs from becoming thoroughly developed. As a proof that he is right he draws attention to the fact that the boys in Japan at the present day are taller by five or six centimeters than their ancestors were at a similar age, and he maintains that the reason is because the former, when they attend school, are obliged to sit on benches, whereas the latter squatted while they learned their lessons. That the Japanese ought to be taller than they are is the editor's opinion, and he has appealed to the government to prohibit the use of mats, pointing out that until that is done the soldiers of Japan will neither be as tall nor as vigorous as the soldiers of other countries.

DUKE'S ESCORT.

The Canadian Military Gazette, Ottawa, says:—The escort of the Duke of Connaught will be the same as for another Governor-General. He will be accompanied by thirty-eight of all ranks under the command of a captain. It was thought that since the Duke was a member of the Royal Family, he would be entitled to a major's escort of eighty-seven of all ranks, but the British War Office has informed the Canadian Department that the position of Governor-General supersedes his position as member of the Royal

ABSOLUTELY CURES STOMACH TROUBLE AND INDIGESTION

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some Diapiesin.

If your stomach is lacking in digestive power, why not help the stomach to do its work not with drastic drugs, but its re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little Diapiesin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or belching of undigested food, Headaches, Dizziness or Sick Stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odor. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapiesin.

Go to your druggist and get a 50-cent case of Pape's Diapiesin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you! They freshen you and make you feel like life is worth living.

Family, and he is entitled to the captain's escort instead of the major's. It is a fortunate thing for the Dragoons. The escorts are all drawn from A Squadron, which would not have been large enough to supply the major's escort, nor would there have been enough ceremonial uniforms to go round.

S. S. ASSOCIATION

(Continued from page one) a missionary training.

Rev. E. S. Weeks gave an address on the Habit of Daily Bible Reading. The effect of habits upon life was touched upon. Habits become a second nature; secure permanence in good and evil. Daily Bible Reading is exceedingly important. The tendency is to allow some minor matters to interfere. Bible reading is good for every day in the week. The soul needs nourishment as well as the body. Scripture knowledge wonderfully fortifies the life.

Wm. McLeod, a veteran temperance worker, gave some of his experiences. He condemned the selling of liquor by the drugstores and the convention applauded vigorously.

Dr. McElfresh addressed the convention. "The Organized Bible Class. Every effort should be made to get every man and woman interested in the Sunday School. More than 500,000 members had been brought into the Class. The class spirit should be encouraged. The teaching of the bible is the central element of the class. Everything gathers around the Work of God."

Rev. Principal McKinnon gave the closing address of the morning session on Evangelism—Rescue the Perishing. Evangelism means good news. This good news is that God sent his Son Jesus Christ into the world to save men from sin. The problem is how to apply evangelism to the rescue of the lost. How are we to reach those who have dropped out of the Sunday School and are perishing? There should be: (1) Personal work for individuals. This was the Saviour's method. Suppose each Christian man should win one convert the whole world would be saved in thirty one years. (2) The gospel to the whole world. Give men the living Christ. The only permanent cure for intemperance is to bring men into living touch with the living Christ. The illustrations in this address were appropriate and telling. We must go after men for Jesus Christ. What makes a man a Christian is his committal of himself to God. We must lead the boys and girls to make a definite decision for Christ.

The Rev. R. O. Morse then presented a resolution of thanks to Principal McKinnon for his splendid services to the convention. This was unanimously and enthusiastically adopted.

The afternoon session opened with a devotional service by Rev. E. A. Westmoreland, Rev. R. G. Strathie gave the report on the Teacher Training Department, after which Dr. McElfresh conducted a helpful round table.

Rev. W. A. Ross gave a brief address on Our Teacher Training Standard and Text Books. Rev. Z. L. Fash gave an address on the New Graded Lessons.

J. F. Wear gave the report of a special committee on the financial condition which, after some discussion was adopted.

GIRLS MUST PLAY MARBLES WITH TOES.

CINCINNATI, Oct. 11.—The girls at the University of Cincinnati are going to learn to play marbles with their little pink toes this winter. Miss Marquerite Gray, their athletic instructor, will teach the fair students to pick up marbles with their toes.

This exercise is a fine preventive and cure for flat feet and is calculated to raise the arch of the instep to the height so much desired.

Another exercise for the young women will be standing on tiptoes. This, as any premiere danseuse will tell them, strengthens the muscles of the foot and the—ah, calf.

Miss Gray will also teach the pupils to walk gracefully, accomplishments which every bride finds she needs at the wedding. She has carefully measured the young women and is charting their weight, height and chest expansion, that is their bust measure, before and while sighing deeply.

"I expect great changes in these measurements when I make the second examination at the end of the course," said Miss Gray today. "The university girls have straight backbones, but I have found some had cases of flat feet, which I have to correct, as they have very injurious effects later in life."

MOTHER AND SON STUDY LAW TO BECOME PARTNERS

WASHINGTON, Oct. 11.—Mrs. Sarah T. Andrew, aged 40, has articulated at the Washington College of Law, and her son, Herbert B. Andrew, aged 20, has started a law course in the law department of the Catholic University.

Mrs. Andrew is the wife of a government clerk. Before she married she taught school in Missouri. Herbert has just completed an academic course at Gonzaga College.

Mrs. Andrew says today: "It is the intention of Herbert and myself to complete our courses and take the Washington bar examinations. If we are successful we will go back to Missouri and put out a joint ad."

"I have been after mother for years to get her to study law," Herbert said, "because I believe by nature and training she is especially suited for a legal career. I am delighted that she has started and look forward with pleasure to the day when the sign of 'Andrew & Andrew' will appear at our old home in Missouri."

Mr. Andrew, senior, has not been heard from.

RADCLIFFE TO TRY FOR PERFECT GIRLS.

BOSTON, Oct. 11.—To make Radcliffe College girls the most perfect representatives of womanhood is the plan of Miss Elizabeth Agnes Wright, physical director. The card system will account for her hours of sleep, her hours of exercise and other details of her daily life.

An effort will be made to regulate the amount of exercise taken by each girl daily. Walking will be especially encouraged. Freedom from coughs and colds will be sought. Each day on making out the card, the student will state whether she has caught cold.

"That sufficient sleep will be enjoyed by each girl is the hope of Miss Wright, and she believes a proper amount may be insured after the first month's records have been turned in."

Recommendations will then be made to the students. Miss Wright expects to treat each student individually.

"If a girl goes so many nights to the theatre that in my opinion it might impair her health I will advise her accordingly," she said. "It is purely a matter of personal hygiene so far as I am concerned."

"I believe a girl should get at least eight hours' sleep. Nine hours is better. It is a personal question."

"I don't think a girl ought to eat pickles or very much candy."

"Radcliffe has a reputation as a place filled with very studious girls. I hope and believe it will earn a reputation of turning out girls perfect physically, as well as perfect scholars."

THE POOR PLIGHT OF TURKISH ARMY

LONDON, October 11.—The Times Tripoli correspondent in a despatch dated, October 8, describes the Turkish army as being in an unenviable plight and Hunhir Pasha, as a "dear old gentleman incapable of independent action, without instruction from Stamboul."

He has been marching to and fro in the desert, says the correspondent, wanting to attack the Italians, but lacking backbone to carry through his splendid intentions. Finally he halted about a day's march outside the town while the baggage and camels were sent unattended into the interior. Realizing that the Turkish regime was ended, and that they were not likely to get their pay, the camel men decamped with the camels and loads.

Nearly all the local conscripts as well as the Arabs who were armed by the local authorities deserted, and Hunhir Pasha, in despair opened negotiations with the Italian commander. As the Turks left both artillery and wives in Tripoli, there can never be any intention of a serious resistance. The story is one that should whiten Shekaf Pasha's hairs with grief.

A Tripoli despatch dated October 10 says: Last night the naval outpost line around the town, was disturbed by a hostile movement along its front. The Italians fired many volleys and the warships joined, in withwith shrapnel and shell. No Italian casualties are reported.

The Constantinople correspondent of The Times says:—The Italian military authorities have seized the office of the Imperial Public dept administration in Tripoli and expelled all the officials who have been six days in which to quit the country. The council of the public debt will protest to Italy and the powers on behalf of the bondholders.
