DENOUNCES WAR.—Denouncing war as the greatest curse of mankind, Rev. J. Sidlow Bonnell, m. a. of St. Andrew's United Church, Saint John, delivered one of the most eloquent and forceful lectures given in Halifax in recent months before a large audience which filled the assembly hall at the Y. M. C. A. Sunday. Rev. Mr Bonnell's subject was "War". He described war as a great network of lies. War, he said, feeds upon lies and intrigues and is a waste. War never builds up but always destroys. He pointed to the enormous loss of life in the last war, and the millions of men who had been wounded as well as the great army of orphans left to struggle alone because of war's ravages. He predicted that in the next war the machinery for the destruction of human life and property would be intensified 100 times, and that it was within the bounds of possibility that it would be the destruction of our present high civilization. He was optimistic of the future, however, stating that there were signs that the people of the world were waking up to the fact that war should be abolished. The League of Nations, he said, was the one star of hope. While not perfect, it was doing a splendid work and already had accomplished much. It should be also the steadfast aim of the Christian Church to stand forth as the unashamed defender of peace.—Halifax Herald.

Three things to know when Buying "B" Batteries. Go to your radio dealer with confidence and ask for the exact Eveready "B" Battery you need for your set. Remember these three simple rules, and you will get the longest life and best service from "B" Battery power. On 1 to 3 tubes—Use Eveready No. 772. On 4 or more tubes—Use the Heavy Duty "B" battery No. 770. On all but single tube sets—Use a "C" battery. When these rules are followed, the No. 772 will last for almost a year, and the No. 770 for about eight months, when listening at the year round average of two hours a day. NOTE: In addition to the increased life which an Eveready "C" Battery gives to your "B" batteries, it will add a quality of reception unobtainable without it.

if you wish to be certain of securing for Christmas the delights of the world's newest and greatest musical discovery

THURSDAY DECEMBER 2nd marked the first anniversary of the Orthophonic Credenza. The reception which during the past year, has been accorded this remarkable invention exceeded even the most liberal calculations. The demand for this remarkable new musical instrument, created on the Victor principle of "matched impedance" or "smooth flow of sound", has increased so enormously, we have as yet been unable to supply it fully.

This,—despite the fact that we have been working our manufactory overtime. Those who read this announcement have a distinct advantage among music lovers. They will profit by the information it contains, to place their orders, now, for that Christmas Credenza. Any "His Master's Voice" Dealer will explain his plan of convenient payments, which applies to any of the Orthophonic Victrola models, . . . from \$115.00 to \$430.00. Note: We made the same announcement about a year ago. Yet, many people suffered temporary disappointment.
