

APPENDICITIS.

The Most Dreaded Disease of Civilization
 is the condition known as appendicitis. Once fully established, nothing will remedy but the cold knife. It has once been thought that this inflammation was caused by seeds or foreign bodies entering the appendix, but this theory is long exploded.
 The true cause of appendicitis is sluggishness of the bowels, constipation and the gases which are formed in consequence produce germs known to the scientific physician as the Bacilli Coli Comensis. Now to avoid this formation of gas germs, constipation and the resulting inflammation, take Smith's Pineapple and Butternut Pills, which have been tested in all the various diseases of the stomach, bowels and liver, and found to be the greatest and best preventative remedy known.
 You may be very sick at night; Smith's Pineapple and Butternut Pills make you well in the morning. They will quickly and permanently cure.

- Constipation in Every Form.
- Biliousness.

Good Drugs Kept Good

It is not enough that a druggist buys good drugs, he must take pains to keep them good while they are in stock. Our large trade insures rapid selling, few things have a chance to get old; but in spite of this certain drugs must be protected from the light, or other sources of deterioration.

The point is that we look after all these things. When we sell you drugs they are just what they should be. We solicit the trade of all careful drug buyers.

J. C. Jamieson
 DRUGGIST,
 The Medical Hall.

A GENEROUS DONATION.

NEW YORK, Jan 10.—The name of the donor of \$600,000 to the Cathedral of St. John the Divine became known today as that of Levi P. Morton of New York. The sum is to be used for building and furnishing the choir, including an altar and an organ.

NEW CHURCH FOR SYDNEY.

SYDNEY, January 11.—At a large and very enthusiastic meeting of Falmouth street church to-night it was decided to build a new church, to cost in the vicinity of twenty thousand dollars. It will be erected on the old site of the present building which will be removed to an adjoining lot where it will be used for Sunday school purposes.

THE GUARDIAN OF OUR BODY.

The foremost biologist of our day, M. Metchnikoff, has shown the world of science that there are leucocytes in our blood that act as scavengers or policemen. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. Various offending elements are picked out of the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell-policemen, the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles.
 "A new broom sweeps clean"—and in order to put our own house in order we must get rid of all the poisons in the blood with a new broom such as an alternative extract made from roots and herbs—without the use of alcohol, as Dr. Pierce's Golden Medical Discovery, a specific for making rich red blood—for eradicating the poisons from the blood. In some way the policemen in the blood are increased in number and strength—so that we are put in the best possible shape to resist disease—to cure neuralgia, colds, catarrh, and incipient consumption.
 "The more study and time is given to the subject the more we find that the blood is the center of life"—says Dr. R. V. Pierce, the noted specialist of Buffalo, "the health and comfort of the average person depends entirely on this blood supply—for the heart must have pure blood or it will not pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the cry of the starved nerves for food. Head-aches, cold in the head, catarrh—and many other things are due to stagnation of the blood."
 Dr. Pierce's Pleasant Pellets are a mild laxative. No other medicine equals them for gentleness and thoroughness.

SPECIAL NOTICES.
