These Calf Clubs have over twenty-five members.

A New Departure

The Central School Fair to be held in Charlottetown this fall is a new departure in this work. There are at present some fifty School Fairs operating throughout the Province. We arrange for the judging at these fairs where school children compete in school work, farm products, sewing, cooking and all lines of home activities. It is proposed this fall for the first time to bring the first and second prize winners of the different classes to Charlottetown for final competition in School Fair work. The Calf Clubs throughout the province will also assist so that we will be holding here really a Junior Exhibition where the School Fairs and Calf Clubs from all over the province will compete for final honors.

During the summer season we carry on Field Days and Farmers' Plenies in co-operation with creameries, at which demonstrations in judging, selecting and feeding of live stock are given. These events are proving a very great success.

The work of the Prince Edward Island Sheep Breeders' Association is conducted through this Department. This Association assembles all Wool offered by sheep breeders at a central point. This Wool is graded and sold on a graded basis through the Canadian Co-operative Wool Growers of Toronto. Closely connected with this work through the Sheep Breeders' Association is the checking up on losses which farmers have incurred from the killing of sheep and lambs by dogs. The Department pays a considerable proportion of this loss to the farmer.

Helping Swine Production

We also make a special contribution of \$100.00 towards a Swine Show and Sale. The swine industry is always an important phase of live stock production and our Department is encouraging the improvement of bacon hogs as rapidly as possible. We are pleased to state that within the last few years Prince Edward Island hogs graded the highest percentage of "Selects" of any province of Canada. We have established with the Federal Swine Division an Annual Swine Show and Sale at which the best breeding swine in the province are shown and sold. This show has proven a great influence in the distribution of improved types. It is expected that it will be extended this year to include a Lamb Show and Sale. In addition grants are made to Bacon Hog Fairs and Lamb Fairs—special features in addition to the ordinary exhibition—are held at various points in the province. These have gone far to promote the interest in improved sheep and swine breeding. As a result of these phases of encouragement the Swine industry is now confined to one bacon type of hog, namely, the Yorkshire, and it is hoped, in a short time, to establish within the Province the very highest types of sheep, the product of which will conform to the highest market standards.

We give a grant to the Poultry Show held annually in Charlottetown during the winter and under the Cockerel Distribution Policy we pay a certain amount of the purchase price on cockerels approved by the Federal Poultry Division. We are also assisting horse breeding by housing Stallions that

reach to a certain standard of excellence. These bonuses enable breeders to purchase only the best horses which in turn provide improvement for the industry. The Department of Agriculture at the present time owns one of the best Clydesdale stallions in Canada. This horse is at present travelling in a certain district of the province where he is available to breeders at very moderate rates.

Other Activities

I may add that the assistance to community activities carried on by the Women's Institutes comes under our Department but of these activities you will hear a great deal during the next few days as they are having their Annual Convention this week. It is true that this work is closely linked up with the work of Agriculture and we have about 245 Institutes in this Province covering practically the whole Island. \$4.00 per year is given to each Institute on the basis of twenty members. For each member above that number 25c additional is allowed. \$2.00 of the above amount in each case goes to the Central Women's Institute for general work. In addition we pay salaries and travelling expenses of a supervisor and assistant who are constantly in touch with the local organizations. Some of the objects of the Women's Institutes are improvements of schools, community halls and charitable institutions. The present Sanatorium is a direct product of their efforts.

It will be the policy of this Department to continue and extend if possible our activities both in assisting the farmer to make farming more profitable and also through the Women's Institutes to make community life more attractive to the farmers' sons and daughters.

Decrease In Number Of Accidental Deaths

(Canadian Press)

OTTAWA, July 13—A decrease in the number of deaths from "external violence in 1931, as compared with 1930, is shown in statistics issued today. Preliminary figures given out by the Dominion Bureau of Statistics show that the number of deaths of this character in 1931 was 7,146, as compared with 7,478 in 1930 and 7,151 in 1929. The rate per 100,000 of population was 69 in 1931 as against 73 in 1930 and 71 in 1929 and 1928.

Suicides showed a slight decline in 1931 as compared with the preceding year, the number being 1,004 as against 1,010 but both of these years showed a marked advance over 1929 when suicides numbered 835.

Homicides numbered 171 in 1931 giving a rate of 1.7 per 100,000. In 1930 the number of homicides was 214 and the rate 2.1, in 1929 the number was 182 and the rate 1.8. There were 5,971 accidental deaths in 1931 giving a rate of 58 per 100,000. Both the number of deaths and the rate were smaller than in any year since 1927.

Drownings in 1931 numbered 1,802 or 18 per cent of the total of fatal accidents, while 1,824 or 21 per cent of the total were traffic accidents. Amongst these automobile fatalities numbered 1,203 or 22 per cent of all accidental deaths. Excluding those cases where an automobile was involved there were

282 deaths from railroad accidents and 39 from street-car accidents. Thirty-five persons were killed during the year in aeroplanes and balloons accidents.

CENTRAL GUARDIAN

DR. JOHNSON'S office closed from July 12th to August 1st. 4385-7-12-31

HIGH TEA at St. Vincent's Orphanage Grounds, Tuesday, July 19th. Bingo and Band. 4403-7-14-21.

POLICE COURT.—There was but one case before Magistrate Martin at the Police Court yesterday morning that of a non-stop who confessed and paid a fine of \$2.00.

THE ANNUAL C. G. I. T. Camp is being held at Canoe Cove July 18th to 28th. All registrations must be sent to Mrs. A. Duvas, 120 Spring Park, by Thursday, July 14. 4313-7-11-Mon. Thur.-21

CORNWALL CHARGE, July 17. New Dominion at 11 A. M. Kingston at 3 P. M. Orange Association annual service. Sermon by Rev. Mr. Outhouse. Cornwall at 7.30. S. S. at Cornwall at 11 A. M. S. S. at New Dominion at 10.15 A. M. S. S. at Kingston at 1.30 P. M. Rev. D. K. Ross, Minister.

SADLY BEREAVED.—Mrs. Nell McDougall, Upper Prince Street, received a telegram yesterday morning containing the sad news of the death of her sister Maud, Mrs. J. C. Veno of Dedham, Mass., and will have the sympathy of relatives and friends in her bereavement.

KINGSTON.—A special service will be held Sunday, July 17th at 3 o'clock in Kingston United Church. Rev. Mr. Outhouse will conduct service. The members of King William and Queen Mary Lodges will parade in a body to the service. All sister Lodges are invited to attend.

MOTORS TO P. E. I.—Mr. and Mrs. A. B. Heckler of Roxborough, Mass., who spent a few days in Ottawa with Mr. and Mrs. J. Edward McKenna, Metcalfe street, have left by motor for Iona, P. E. I. to visit Mr. and Mrs. Edward McKenna, prior to returning home.—Ottawa Journal.

INSPECTING WORK.—Mr. W. Stewart, president of the Stewart Construction Company, Sherbrooke, Que., was in Moncton during the week-end en route from Charlottetown, where he was inspecting the construction work on the new Prince of Wales College which is being constructed by his company. He made the trip to the Island Capital by plane on Saturday.—Moncton Times.

NEW LONDON GROUP, Presbyterian Church in Canada services will be held this week as follows: On Thursday and Friday evenings at 8 P. M. Preparatory Services will be held in Clifton Church. On Sunday, July 17th, 11 A. M. Communion Service in Clifton Church, conducted by Rev. F. Williamson of Malpeque. 3 P. M. Granville. 7.30 P. M. Clifton. Dr. Geo. E. Ross, B. D., D. D., of Ottawa, will preach at Clifton on Friday evening at 8 P. M., and at the Geddie Memorial Church at 3 P. M. on Sunday, July 17th.

PERSONALS

Mrs. Harry Curran, Fristan Road, is reported better today.

Mr. Donald Beston, Boston, is spending the summer with R. S. and Mrs. West, Eidon.

Miss Margaret Essery, Brookline, Mass., is spending her holidays at her home at Union Road, Lot 33.

Miss Margaret Clarke, Amherst, N. S., is visiting at Augustine Cove the guest of her cousin Miss Doris Webster.

The Guardian regrets to learn of the serious illness of Mrs. Kenneth McDonald, formerly of Covehead Road.

Mr. W. C. West has returned to York after a pleasant visit with his nephew Robert Sinclair West, of Halladay's Wharf.

Mr. Fred Miller, Mr. J. L. Davidson and daughter Nettie, of Murray Harbour, P. E. I., are spending some time in town, the guest of their sisters, Mrs. Nettie McKearney and Mrs. Ben Sencabaugh.—New Glasgow News.

The many friends of Mrs. Gus Murphy will be glad to know she is making a good recovery after her serious operation, at her home 25 Upper Prince Street.

282 deaths from railroad accidents and 39 from street-car accidents. Thirty-five persons were killed during the year in aeroplanes and balloons accidents.

Mushy

"You used to like him. He's so nice and wholesome."

"Yes, he is nice indeed."

Recommendations Of Relief Ass'n.

SYDNEY, N. S., July 13—(By The Canadian Press)—City authorities are today considering the following recommendations from the Sydney Relief Association:

(A) "Deportation of some hundreds of unemployed foreigners and indigent persons from Empire countries.

(B) Imposition of a head tax or other levy upon outside seasonal labor coming in to displace city workers.

(C) Some action to prevent foreigners displaced in other towns coming to Sydney to displace native workers here.

The association which has disbursed \$117,179 in relief since last November has concluded its labors and resigned.

It recommends that if relief is necessary again this winter the city take direct charge of the office records and personnel it leaves behind and carry on under the Federal, Provincial, Municipal direct relief plan sanctioned last session at Ottawa.

DUNSTAFFNAGE SCHOOLS CLOSING

The annual examination of Dunstaffnage school was held on Thursday afternoon June 30, 1932 with forty five visitors present.

The pupils were questioned by their teacher Miss Olive Sanderson, assisted by Miss Mary Reid, R. N., Mrs. H. Thompson and others and showed by their ready answers the careful training that they had received during the past year.

Mr. Herbert Thompson acted as chairman. Following is the programme:

Welcome, Bernice Roberts. Reading, Grades X and IX. Recitation, Allison Stewart. Recitation, Ira Roberts. Dialogue, Flea Powder. History, Grade VIII. Recitation, Margaret Webster. History and Geography, Grades X and IX.

Dialogue, Advanced Geography. Recitation, Ralph Stewart. Reading, Grade IV. Recitation, Garth Stewart. Recitation, Norma Jenkins. Reading, Grade III. Geography, Grades VIII and VII. Dialogue, Two Kinds of Green-horns.

Reading, Grade II. Acordian Selection, Graham Boswall. History, Grade VII. Reading, Grade I. Recitation, Lorna Stewart. Acordian Selection, Graham Boswall.

Distribution of prizes etc. School leaving certificates, Rena Boswall, Lorna Stewart, Garth Stewart, Ralph Stewart.

Prizes donated by teacher: Attendance, Ruth Cairns. Deportment, Ralph Stewart. Spelling, Grade VII, Berth Henry. Arithmetic, Grade IV Sr., Allison Stewart.

Arithmetic, Grade IV Jr., Dorothy McCallum and Ira Roberts. Arithmetic, Grade II, Wilfred Thompson.

Prizes donated by Women's Institute for proficiency: Grade IX, Fred Thompson. Grade VIII, Rena Boswall. Grade VII, Lila Thompson. Grade IV Sr., George Boswall. Grade IV Jr., Margaret Webster. Grade III, Susanna Webster. Grade II, Isobel Jenkins. Grade I, Barton Boswall.

A pleasing number at this point was the reading of an address to the teacher by Rena Boswall while Lorna Stewart presented her with a beautiful gift.

Following is the address: Miss Olive Sanderson: Dear Teacher—As another year has rolled around and we are again at the end of a school term, we wish to express our appreciation in asking you to accept this little gift not for the value of it, but to try to show you that we value the work you have done for us.

We are more than pleased that you have decided to remain with us another year. We hope one and all will try their very best to study hard in the coming year.

Wishing you a pleasant vacation and looking forward to meeting you again in another school term.

Signed on behalf of the pupils of Dunstaffnage School.

Rena Boswall. Lorna Stewart. George Wakelin. Ray McCallum.

The pupils and visitors were then treated with ice cream and cake donated by the Women's Institute.

Mushy

"You used to like him. He's so nice and wholesome."

"Yes, he is nice indeed."

Farm Notes

WATCH FOR PESTS

Many a beautiful flower garden and a highly satisfactory stand of vegetables has been partially or totally destroyed by attacks of insect and fungus pests which might easily have been controlled. Roughly speaking, the insect enemies are divided into two groups, those that eat holes in the foliage and those that suck out the juices. For the first-named, poison is usually applied, while the suckers are attacked with a burning spray which penetrates their hides. Often when both are present, a combination of poison and something that burns, such as lime sulphur and arsenate, give the best results. The damage from the biting insects is usually quite apparent, but the presence of the other kind is only shown at first by a wilting or withering of the foliage. For sucking pests, chief of which are the aphids or plant lice, spray with whale oil soap, a quarter pound to soap to a gallon and a half of water; nicotine sulphate, or "Black Leaf 40", or any other repellent secured from a reliable seed-store. Cold water from a fine nozzle under high pressure, will sometimes wash off the pests. When fungus attacks the plants, the foliage usually turns yellow or brown, or white spots, like mildew, cover the leaves. Fungus is usually most common in warm, murky weather. Spraying with Bordeaux Mixture, or dusting with specially finely ground sulphur is advised. Sulphur dust will also protect hollyhocks and phlox from rust, if applied when the disease first shows itself. An ordinary tin can with the top perforated like a salt shaker makes a good duster. For flowers, it is well to add a dry poison such as arsenate of lead, or tobacco dust to the sulphur, so that insects will also be controlled. For eating insects, one may spray with Paris green, arsenate of lead, hellebore, or some of the many patent poisonous preparations.

Even annual flowers will benefit from a little judicious trimming or pruning now and then. Many plants like the dahlias and stinnia set a great quantity of buds and if all of these are allowed to develop the flowers will not be very large. Some people make a practice of removing nearly all of these buds so as to have giant blooms. For show purposes, of course, only three or four per plant are allowed to open. With the very tall growing dahlias, trim the foliage and stems a little in order to get the desired shape. Some people trim to a single or main stem, like tomatoes. With the smaller growing annuals such as zinnias, cosmos, and marigolds one wants just the opposite effect—bushiness—in order that the plant may be sturdy and resist heavy rains and winds. Removing the top of the main stem and the first buds will encourage side growth. Another thing to remember at this time is to remove all signs of fading bloom. Once the flower is passed its best, pick it, or if the stems are short and the bloom numerous like ayasum or phlox, shear it off. Otherwise seed pods will start to develop and when this stage is reached the plant will stop flowering altogether.

CONCENTRATED MILK PLANTS 1931 PRODUCTION IS LOWER

The current number of the Dairy News Letter issued by the Dominion Dairy and Cold Storage Branch provides some interesting information with respect to the general statistics of concentrated milk plants for 1931. While the total number of plants operating in Canada remains the same, at 26, the value of production in 1931 amounted to \$6,754,002 as compared with a value of \$13,804,743 in 1930. The report shows that 779 people were employed and paid salaries amounting to \$282,984, and that these plants paid to patrons \$2,899,646 for milk and \$134,743 for cream. The principal products of the industry are as follows: Condensed milk; condensed skim-milk; condensed buttermilk; evaporated milk; evaporated skim-milk; whole milk powder; skim-milk powder; cream powder; sugar of milk; buttermilk powder; casein; condensed coffee; butter; cheese and whey butter.

Film Quota Law Not Desirable Fatally Injured

HALIFAX, July 13—(By The Canadian Press)—Adoption of the so-called film quota law is neither desirable nor expedient in this country, in the opinion of the Halifax Board of Trade, which today passed a resolution urging the forthcoming Imperial Economic Conference to promote a plan for production of British pictures of a standard high enough to satisfy the requirements of British people.

The resolution stressed "the cultural possibilities of the cinema and the great influence it can exert in connecting the thoughts, activities and aspirations of the British countries," and submitted that the desired end could be attained by production within the Empire of films up to or in advance of the best productions in other countries.

Forgetful

"Do you always leave cards when you call?"

"No; sometimes I leave a pair of gloves on an upholsterer's chair."

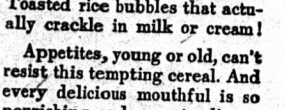

FATHER'S FAVORITE BREAKFAST

It ALWAYS begins with the crispiest, crunchiest cereal in the world. And of course, that's Kellogg's Rice Krispies. Toasted rice bubbles that actually crackle in milk or cream!

Appetites, young or old, can't resist this tempting cereal. And every delicious mouthful is so nourishing and easy to digest.

Serve Rice Krispies for lunch—for the children's supper. Great for a late snack.

Sold by all grocers. Always oven-fresh in the sealed wax-tins inside bag. Made by Kellogg in London, Ontario. Quality guaranteed.

COAL

One Quality

We deal in all grades and sizes but in one quality—that is, the very best. That is why so many of our customers leave their coal needs entirely to us. They know our methods.

Norwegians Go To Greenland

OTTAWA, July 13—(By The Canadian Press)—The decision of the Norwegian government to occupy a strip of territory in Greenland is regarded only with academic interest here. The matter does not affect Canada, nor has it any bearing on Canada's sovereignty over the Islands of the Eastern Arctic.

Greenland has always been regarded by the Canadian government as Danish territory, and annually courtesy calls are paid by officials of this country on the Danish governor of southern Greenland, Kjaqindrupna at Godhavn. In the course of its present cruise, the S. S. Ungava, which left Montreal last Saturday, will put in to Godhavn and the customary international courtesies will be observed between the Canadian government representative, Major D. L. Auckland, and the Danish Governor.
