GUARDIAN SPORTING NEWS

DOWN - THE - BACK STRETCH

Lewiston, Maine, put on the wind up race meet of the season in the Pine Tree State the past week. Although the weather was cold crowds of two and three thousand attended and racing was good.

George MacDonald of Allston, Mass., writes us under recent date that Dr. F. W. Christopher was the busiest man in Boston on Columbus Day. He had the mount behind two of the Dibble stable horses at the Speedway and won with Calumet Dubuque in 2.08 1-4 and 2.09 3-4 and was second with Hollyrood Boris in 2.10 1-2. He also judged the trotting classes at the Boston Horse Show. The first prize went to Glendora Lee 2.08 1-4, owned by W. J. MacDonald, real estate magnate of Boston.

Lou Patch 2.09 1-4, that good pacing mare brought to the Maritimes some years ago by C. M. Alexander, St. John, is now owned by F. G. Kennedy, Southport, and will be bred to Calumet Budlong 2.02 3-4.

There will be a speed sale of standard bred horses at the Stratford, Ontario, fair grounds Wednesday, November 1st, commencing at one p. m. The catalogue has been issued and is obtainable from David M. Pinkney, Stratford, which lists consignments from Manchester Stock Farm, Spring Creek Stock Farm and private owners. They are mostly youngsters alth ugh there are some four-year-olds and almost every one of them is sired by a high class stallion such as Lee Harvester 2 16 1-4, Bennett Volo 2.04, Red Aubrey (3) 2.06 1-2, Todd Stout 2.06, Orcus Grattan 2.24 1-4, Burton Patch 2.16 1-4 and others.

Of the aged pacers consigned we note Early Dreams 2.14 1-4, full sister to Better Times 2.05 1-4. This mare will be remembered by habitues of the Charlottetown track when she was in the stable of Bill Cummings and owned by Hedley T. Fulton, Upper Stewiacke, N S. She raced fairly well in 1938 but took the flu in June of this year and was laid up.

H. S. Taylor, Springfield, N S. writes us that there are some good colts by Pax Volo 2.07 1-4 in his vicinity. Pax Volo is owned by Mr. Taylor and was raced over Maritime tracks prior to being placed in the stud. Perhaps his greatest success was when owned by Allen J. Wilson of Boston, formerly of Cardigan. That year he was cared for and received all his training and was driven in nearly all his races by Jim MacDonald of Edgarton 2.15 1-2 fame, now a resident of this city. Jim seemed to have the knack of handling Pax and shoeing him and repeatedly stepped him miles in better than 2.10.

A rather unusual performance was staged by Cleo Hanover last week. Cleo is a three-year-old daughter of Buntar and Helen Hanover 2.04 3-4 and has been trained and raced by that very successful young driven Delvin Miller. In a trial against time to lower her pacing mile record from 2.08 1-3 she stepped in 2.07, and later on in the afternoon equipped with a pair of toe weights, earned a trotting record of 2.09 1-2.

Dean Hanover 1 58 1-2 that was such a sensation as a three-year-old when he lowered the world's record for that age for a trotting stallion, driven by the eleven year old daughter of his owner, Lawrence Sheppard, accounted for another world's record when he recently trotted in 2.02 3-4 over the Reading, Pa. half-mile track. This is now the world's record for a trotting stallion on a half-mile track. His last warming up mile was in 2.06 3-4 and Miss Alma Shepard, now thirteen years of age, handled the ribbons.

Lee Stout 2.04 1-4 that we recently mentioned in this column as having lowered the three mile trotting record to 6 49 1-2, has a great ancestry tracing back on his sire's side to Nancy Hanks 2.04 and Alix 2.03 3-4, both of which at one time held the world's trotting record.

Frank G. Trot's Hoof Prints which are widely read in the Boston Globe, will no longer appear in Monday's issue. Instead they will be a feature of the Sunday edition commencing tomorrow, October 29th.

The Standard Bred Horse Sales Company will hold their first annual auction of trotters and pacers at the show arena, Harrisburg, Pa., November 1st to 4th inclusive. Consignments of colts from the Hanover Shoe Farms and the Village Farm as well as other smaller farms are featured, also some good ready to race material such as pacers Nola J. 2.01 3-4, Fanny C. 2.02 1-4, Roulette 2.03, Mr. Redmond 2.04 1-4, Lee Purdy 2.04-3-4, Inspector 2 06 1-4, Dr. Abbe 2.06 1-2, Duke of York (3) 2.07 and others. Also such trotters as Calumet Eneas 2.05, Hanover Metal (4) 2.05 3-4, Past Master 2.06 1-2, The Neophyte (3) 2.07-1-4, Lady Zombell 2.09 1-2, Carter Hanover (3) 2.10 and a dozen or more others.

Spentell 1.58 3-4, is the most talked of young trotter of the season and spoken of as a possible champion, perhaps displacing the marvelous Greyhound 1.55 1-4, present world's champion. Those who have seen him in action, including John Hervey the noted writer, believe he is one of the lightest-going horses that ever graced the turf, with the possible exception of Lou Dillon.

Writing of the three heats trotted by Spentell in winning the Transylvania at Lexington a few weeks ago, Hervey says:—"The ease with which these things were turned off by him was astounding. Once he was thoroughly thawed out he was a trotting machine so perfect and with such fabulous resources that what he did seemed just nothing at all to him. The three heats were trotted in 2.02-1-2, 2.00 3-4 and 2.00 3-4."

The sire of Spentell is Spencer (3) 1.59 3-4. He is by Lee Tide 2.05, out of Emily Ellen (3) 2 09-1-4 by Todd 2.14 3-4. Spencer has another grand trotter out this season in the three-year-old Averill, that trialed in 2.00 3-4 as a three-year-old at Lexington two weeks ago. Averill's dam is Harvest Tide 2.06 1-4 by The Harvester 2.01, out of Emily Ellen (3) 2.09 1-4. The youngester is therefore a grandson of Emily Ellen on both his sire's and dam's side of his pedigree.

George T. Penny, noted land auctioneer of Greensboro, N C., who paid $9,800 for Grace Direct 2.00 1-2, at the Old Glory in 1921 and raced her with great success for several years, has been out of the harness horse game since 1929 when the depression hit so hard. The last five years he has made a comeback financially and was one of those who paid particular attention to the colts offered for sale at Lexington. It is believed that he will be back in the game next season.

A year or two ago we published an article in this column giving the results which a scientist obtained for a thoroughbred horse breeder by treating the pasture of the farm where the mares and colts were with certain chemicals, that added to its fertility and were the means of producing stronger offspring from the mares and giving the colts and fillies better bone and muscle. When they were raced results were astounding as compared with the years under the old regime.

Now we note that Lawrence Shepperd, head of the Hanover Shoe Farms, whose colts and fillies have raced so well the past few years believes that he can further improve them by more scientific treatment of the pastures. Mr. Sheppard had the farm soil analyzed with a view to producing healthy, sound, well grown yearlings. The expert recommended certain chemicals for soil improvement. His advice was taken and has been carried out. The pastures were treated, became the grazing ground of the yearlings this Spring and the result is that they are splendidly grown. Mr. Shepperd says that this modern method may not prove the principal factor in winning the rich stakes but one thing is certain, the buyers of the colts will have something to work on.

Quite a number of horses are ill with sleeping sickness through the mid-Western United States. Another name for the disease is encephalitis. The stallion Volo Mc 2.04 1-4 recently died of it at Oklahoma City and the California trotter Flagstaff 2.07 1-4 also succumbed. Two seasons ago it was rampant in Western Canada but must have died off as we have heard nothing about it this year. The disease also reached the eastern United States but did not get as far as Maine and has never been known in the Maritimes. It can be contracted by humans from horses and is also one of the dread diseases of silver fox.

There was some record breaking racing at Strathroy, Ontario, October 9th. Bob Lee by Corporal Lee, set up a new three-year-old pacing record in the second heat of the Three Year Old Futurity. His time was 2.07 and he paced the third heat in 2.07 1-4. The Three Year Old Futurity was won by Miss Lee Harvester in straight heats, best time 2.15. The 2 20 Pace was won by Imperial Grattan by Orcus Grattan in straight heats. His miles were 2.06, 2.05 1-2, 2.07 1-2. The 2.15 Pace was won by Leah Guy, by Lee Harvester, although she lost the first heat to Tony Grattan. The time was 2.08, 2.06, 2.05 1-2. Leah Guy is a five-year-old mare that took a record better than 2.10 as a three-year-old. All the winners were bred in the vicinity of Strathroy.

Horse sales are the order of the day. Now it is the Ohio Speed Sale that is advertising dates for November 9th and 10th at the State fair grounds, Columbus. Among those offered for sale is Senator V. 2.01-3-4, one of the most consistent trotters out this season and the winner of ten races including the Walnut Hall cup at Lexington, Ky. The outstanding pacer in the list is Grattan Axworthy 2.03 3-4 over a half-mile track and the winner of his last six races. He is a real star for the twice arounds. Other good ones are Tom Manning (3) 2.06 1-2, Action (3) 2.04 1-2, Prince Adam (3) 2.05 1-2, Joan Wilson 2.06 3-4, Steve Grattan 2.07 1-4, Guy Volo 2.07 1-4, all records made over half-mile tracks.

The Indianapolis Horse Sale which is a great stamping ground for Quebec and Maine horsemen, will be held at Indianapolis, Indiana, November 14th to the 17th. There are some real stars over there at both gaits. Among them Sir Walter (3) 2.02, the second largest money winning three-year-old this season, Gauntlet (3) 2.04-1-2, Jessedale Tiger 2.03, winner of eight firsts and three seconds this season, Crystal Bars 2.06 3-4 over a half-mile track, Saint Abbe (4) 2.09, the trotter that won eight races and three seconds this season, Guy Scotland 2.02, June Worthy 2.03 1-2, Edgar Cash (3) 2.04 1-2, eligible to the 2.17 pace, and dozens of others that any horseman would like to own. Not in recent years—and we doubt if ever—has there been offered such an array of fast young and worth while aged trotters and pacers as we see out this season.

Pontiacs Will Have Additions From Montreal

SAINT JOHN, N. B., Oct. 27—(CP)—Officials of Saint John Pontiacs, New Brunswick junior hockey champions for the past two years, announced tonight the team would be strengthened by at least four, and possibly six, players from Montreal.

The expected newcomers are Polly Poliquin; defencemen Lesserd and Mulclair, and goalie Fernand Brault, all from Montreal junior Concordias. The local club also is angling for Frankie Eddols and Harry Fleet, with Verdun juniors last year.

Death Calls Father Of Hockey Team

MONCTON, N. B., Oct. 27—(CP)—Frederick E. Carroll, 74, whose sons formed a well known maritime hockey team years ago, died today after a long illness. The team composed entirely of Carroll brothers, became prominent in eastern Canada. Survivors of Frederick Carroll include Mrs. Howard Lowerie, Toronto, a daughter.

HEAVY WINNERS

PAWTUCKET, R. I., Oct. 27—(AP)—A daily double of $1,474, third largest in New England racing this season, today rewarded seven holders of tickets on James N. in the first and Air Play in the second at Narragansett Park. James N. was only an $8.75 to $1 shot, but Air Play, winning for the first time was a $134.30 to $1 gamble.

Over two-thirds of the land on which Navajo Indians pasture their sheep is eroded, but a conservation program is in progress.

Saints Ready For U. N. B. Ruggers This Afternoon

Game At University Field This Afternoon Expected To Be A Thriller.

Seeking revenge for a setback received at Fredericton just about two weeks ago coach Father Walter McGuigan's red and white clad warriors from St. Dunstan's University this afternoon tackle the U. N. B. squad on the local University campus in the Saints third game of this year's Intercollegiate series.

If determination means a thing Saints are "in" Ever since returning from invasion of New Brunswick gridirons the local ruggers have been practising in rain or shine ironing out the flaws that were noticeable in their previous games. Results have been gratifying to their coach. Today Saints will put on the field a team that is performing far better than in their first appearances. Forwards are following the ball faster; the backfield is clicking smoothly and Joe Chisholm fullback star will be back at his old post after being on the shelf for two weeks with a severe hip injury suffered in the Army-Saints exhibition clash three weeks ago.

But Chisholm's appearance will not be the only shuffle made in the Saints lineup. Jack Coyle will be in at centre three-quarters in place of J. Trainor; Connors had been shifted over to right wing three-quarters from left with Pius Murnaghan coming over from right to take the left side of the field; in the halves J. Trainor has been moved up from the 3-4 line in Grant's place and Grant the boy who scored both Saint's tries on their road trip goes back to tailing up on the scrum after playing two games on the half line. And the changes have made the Saints a better balanced team. It has been plenty discernable in their recent workouts and U N B. can expect lots of fight from the local squad once referee Jim McCallum sends the teams into action today.

U. N. B. a bunch of sportsmen from the word go arrived in the City by Bus yesterday evening. There are twenty-three in the party 19 of them players and are accompanied by their coach Mr. E. D. Cass who is rounding out his second season with the Fredericton team. Big heavy and fast the U. N. B. team average in weight 168 pounds and in this respect will have around 8 pounds advantage on the Saints who tip the beam at 160. In a brief conversation with the coach last evening he stated that this year's team is much better than last year's squad. They are bigger and faster and playing much better football .Quizzed as to the game in U. N. B. the coach said it had been a hard game and he was expecting another tough encounter this afternoon.

This years U. N B depends on backfield work. They have been drilled to perfection in passing plays and most of their scores this year have come from wide sweeping end runs, with Atyeo and McLenahan carrying the mail in both games the team has played this season in the series. Both are wing three-quarter men and very fast but they will receive plenty of watching this afternoon.

Today's game should be the tidbit of the season. Saints have forgotten about the 16-3 beating they absorbed in Fredericton. Not exactly have they forgotten it but it isn't bothering them any and they will be out in full force this afternoon attempting to get their revenge for it. It promises to be a gruelling struggle all the way and fans don't miss it. Saints are always the most dangerous when they are the underdogs and today won't be any exception.

The game will start at 3:15 sharp at the S. D. U. gridiron so be on time. James McCallum will handle the game in his usual capable manner.

The complete lineups of both squads will be found on another part of this page.

Black Hawks Improved Club This Season

(By Tom Siler, Associated Press Sports Writer)

CHICAGO, Oct. 27—Chicago Black Hawks will be an improved hockey club this season, says manager Paul Thompson, but how much improved he can't say until he has had time to see his rebuilt line-up of veterans and rookies against National League competition.

Thompson, beginning his first full season as Black Hawk manager, has discarded five of the veterans with which the club fell from the Stanley Cup heights in 1938 to seventh and last place last season. The Hawks' hopes are built mainly on what can be done by the youngsters brought in to fill the veterans' places.

"There's no use trying to kid ourselves, we've got to develop kids and be patient with their mistakes until they come around," Thompson said. "We're going to play the kind of hockey to which youth is adapted, the kind which goes out after scores. People want to see action and we're going to give it to them." Building on that theory Thompson disposed of Baldy Northcott, Russ Blinco, Earl Robinson and Bob Gracie, all former members of the defunct Montreal Maroons and pudgy Jack Shill, the Toronto boy who never quite lived up to the promise he showed as an amateur.

Thompson retained the majority of the workmen who toiled so futilely last season. Left to patrol the wings are Johnny Gottselig, the fancy stick-handler, veteran Mush March, Joffre (Dizzy) Desilets and young Ab Demarce. To aid them the Hawks bought George Allen, who came up in the New York Ranger chain, and Phil Hergesheimer, a high-scoring forward with Cleveland in the International-American League.

The Hawks have youth and experience for the centre-ice patrols. Cully Dahlstrom and Bill Thoms, expected to recover the form that made him a stand-out for seasons with Toronto Maple Leafs, are holdovers. Les Cunningham has been recruited from the minors and probably will share a centre spot with Doug Bentley, young Saskatoon star making his start in professional ranks.

That is a brigade of forwards seemingly capable of carrying out Thompson's promise of wide-open hockey—just the reverse of what the Hawks have been used to playing. And if they should falter they have a manager still capable of looking after left wing fairly competently. Thompson isn't so old he couldn't take a regular turn himself.

The rearguard is headed once more by the dependable Kitchener veteran, Earl Seibert, who will pair with Art Wiebe as the first line of defence in front of Mike Karakas in goal. Dependable relief for Seibert and Weibe should come from Des Smith, former Montreal Canadien, Joe Cooper and Bill MacKenzie.

Remember When

(By The Canadian Press)

Margaret McBurney, for 10 years captain of the famous Edmonton Grads, unconquerable girls' basketball team, retired four years ago today, after playing 158 games and scoring 2,064 points. Celebrating their 25th anniversary this month, the Grads had only five players on their roster.

Play Or Else, Chicago Black Hawk Policy

CHICAGO, Oct. 27—(CP)—Members of Chicago Black Hawks must play all out or else in the coming National Hockey League season.

Club president Bill Tobin disclosed today that all player contracts issued this year contain a clause which automatically sends a player to the minor leagues, at minor league pay, if he fails to make the grade in the eyes of manager Paul Thompson.

"We have determined to rehabilitate the club from all angles," said Tobin. "There will be no exceptions—they either play

STUDY FERTILIZER SUPPLY

OTTAWA, Oct. 26—(CP)—The Agriculture Department, in a statement today announced the setting-up of a fertilizer supply committee to supervise conservation and maintenance of fertilizer supplies in Canada.

CHECKER PROTECTION

LONDON—(CP)—In keeping with checker-board markings in steps of public buildings to prevent blackout accidents, citizens here are painting suitcases and other belongings in strips of contrasting color to prevent loss.

Lineups For Today's Rugby Game

Here is how St. Dunstans and University of New Brunswick will lineup at the Saints gridiron this afternoon for the Saints third game of this years Intercollegiate series:

SAINTS	U. N. B.
Fullback	
Chisholm	M. Rogers
Three-Quarters	
Murnaghan	Atyeo
Smith	Andrews
Coyle	Rouse
Connors	McLenahan
Halves:	
J. Trainor	Colby
S. Trainor	Lockhart
B. Steele	Dyer
Forwards:	
Hennessey	Brebner
Connolly	Good
F. MacDonald	Murray
Mooney	Coombs
McGrath	Wolstenhome
Grant	Loggie
Gallant	Snodgrass
Subs:	
McInnis	Watson
O'Shea	Conacher
	A. Rogers
	Egee

The SNAPSHOT GUILD
THE RIGHT FILM

Film of the "ortho" type is well adapted to outdoor snapshooting—especially with subjects of strong contrast, as in this picture.

"AM I using the right film?" That is a question which many snapshooters ask—and, fortunately, it is a question easily answered.

There are three general types of film most suited for use by amateur photographers. These are orthochromatic or "ortho" type film, fine-grained panchromatic film, and high speed panchromatic film.

The "ortho" type film is ideally suited to most outdoor picture-taking. It has ample speed for outdoor shots, even with inexpensive cameras. And, moreover, it has unusual latitude in exposure—which simply means that even if you make fairly large errors in exposure, the film tends to compensate for them, and yields good pictures.

Exposure latitude is obtained in the "ortho" type film by an interesting process of double coating—a fast film emulsion plus a slow film emulsion. This double coating extends the capacity of the film. As a result, your pictures retain detail in the shadows, even when somewhat underexposed — and detail is also preserved in the bright parts, even with considerable overexposure.

Since most outdoor scenes have strong contrast—deep shadows plus brilliantly-lighted areas—the double-coated type film is a logical choice for all general outdoor shooting.

The second film mentioned—the fine-grained panchromatic type — is especially suited for taking pictures that are to be enlarged. It has excellent speed, although not the extreme sensitivity of the high speed panchromatic films. But its main virtue is the fine, even grain, which permits big enlargements with outstanding detail and quality.

The third film—the high speed panchromatic type—is the one to select for snapshots-at-night, and for daytime shots under extremely adverse light conditions. Such film is so fast that it makes box-camera snapshots easy at night, with only two amateur flood bulbs to illuminate the subject. Because of its extreme speed, it must not be used for box-camera snapshots of sunlighted subjects; but it is fine for snapshots on extremely dull, cloudy, or rainy days.

So, there you are. For general outdoor shooting, "ortho" type film; for snapshots at night and on very dull days, high speed panchromatic film; and for pictures that are to be enlarged, fine-grained panchromatic film. Memorize those suggestions—and you need never be in doubt about what film to choose.
