

Five Displaced Persons Coming To This Province

Mrs. Emma Bruce, supervisor Women's Division of the Charlottetown National Employment Office, will leave Saturday for Halifax to meet the steamer "General Stuart" which is expected to dock in that city next Monday or Tuesday with 500 displaced persons—all of whom are women—aboard.

The women who are from practically every nation of continental Western Europe, are being brought to Canada under the supervision of the Department of Labour and will be placed in positions in cities and towns stretching from Halifax to Vancouver.

Mrs. Bruce is one of the three or four women chosen by the Department of Labour from the Maritime women on the train from Montreal to Toronto. The Maritime women will be relieved at Montreal by another group who will accompany the European women the rest of their journey across Canada.

Patron Of B.I.S. Passes Away

His many friends will regret to learn of the death of Mr. Edward Smith, 60, who passed away at his home at 19 Spring Park Road yesterday.

The late Mr. Smith, who was born in Clonias, Ireland, came to this Province about 1880, where he was employed with the Canadian National Railways for some time, but later started up in the Transport business which he carried on until his retirement some years ago.

He was a Patron of the Benevolent Irish Society, and a lifelong member of that organization.

He is survived by four sons, Fred, Charles, and Edward of this city, and Joseph at Moncton, and nearest sympathies are extended to them in their bereavement. He was predeceased by his wife some years ago.

The funeral will take place from his home on Friday morning to the Church of the Most Holy Redeemer.

Charges Rejected Against Clergyman

SYDNEY, N.S., March 3 — (CP) — Charges against Rev. Frank Tanson of Halifax, Moderator of the Halifax Lunenburg Presbytery of the Presbyterian Church, for alleged denial of the virgin birth were rejected for lack of evidence at a meeting here yesterday of the Cape Breton Presbytery but a supporter of the charges said today they will be repeated at the General Assembly of the Church in Toronto in June.

BIRTHS, MARRIAGES, DEATHS 50c Per Insertion

BIRTHS  
OBRIEN — At the P. E. Island Hospital on March 2nd, 1948, to Mr. and Mrs. Walter A. O'Brien, nee Rita MacDonald, a boy, a daughter, Mrs. Geraldine.

MARRIAGES  
MATHESON — BELL — At Belle River on February 25th, 1948, to Mr. T.A.A. Duke, Doris Jacqueline Bell of Belle River, to Donald William Matheson of Iris.

DEATHS  
CLEWORTH — At the home of Mr. and Mrs. Lorne MacFarlane, Beaver Street, Summerside, on March 3, John George Cleworth aged 3 months, son of Mr. and Mrs. Richard Cleworth, Charlottetown. Funeral notice later.

SMITH — At his home 19 Spring Park Road, on Wednesday, March 3, Edward Smith in his 90th year. His remains are resting at his late residence from where the funeral will take place on Friday morning at 8:45 to the Church of the Most Holy Redeemer. Interment in the Catholic cemetery.

CARD OF THANKS  
Mr. and Mrs. Hollis Cameron wish to thank their friends and neighbours for their kind consideration during his stay in the Prince County Hospital.

CONFEDERATION LIFE INSURANCE.

THERE'S FUN and frolic at the Y's Men's Variety Parade of 1948. See it at the Empire Theatre next Monday and Tuesday nights. General admission 50 cents.

HAZELBROOK Baptist Church, Services Sunday, March 7th, as follows: Sunday School 2 P. M. Preaching service 3 P. M. Licentiate Byron Howlett will be the speaker.

ENTERTAINS CLUB — Mrs. Harold Clarke entertained the Friendship Club at her home Wednesday evening, February 25th. The business period was opened by the president. A daily lunch was served by the hostess.

CITY POLICE COURT — At the Stipendiary Magistrate's Court yesterday, a man charged with vagrancy was sentenced to 30 days in jail. This was the only case to come up before the Stipendiary Magistrate yesterday in addition to the preliminary hearing of an attempted arson case.

IN OTTAWA ON BUSINESS — Mr. K. M. Martin, Stipendiary Magistrate for Charlottetown, left for Ottawa on business earlier in the week. He is expected to arrive back in the City over the weekend. Mr. J. A. Bentley is acting Stipendiary Magistrate during Mr. Martin's absence.

PLUMBING CLASS TO OPEN — A new plumbing class with Mr. Matthew Lee as instructor will open at the Vocational Training School on March 8. The course is of four months duration and is under the auspices of the Department of Education. The 40 veterans who took such a course at the school earlier are now working at their trade in various centres in the Province.

Mr. J. W. Boulter, manager of the Prince Edward Island Potato Growers' Association, accompanied by Mrs. Boulter and their daughter, George, arrived in the City yesterday afternoon from Boston where Mr. Boulter had been undergoing medical treatment since the latter part of last November. Mr. and Mrs. Boulter and daughter were met at Moncton by Mr. Ernest D. Reid in a chartered plane which flew the party to Charlottetown.

ART CENTRE TOPIC — "Church Architecture" will be the topic this evening when the Art Centre presents its second program in the Thursday evening series "The Church and the Arts." Mr. Cyril Arsenault, who studied Architecture at McGill University, will be the speaker, and following his talk a film "Architects of England" will be shown. It pictures examples of Saxon, Norman and Gothic churches and cathedrals. Mr. Arsenault's talk will be further illustrated by an exhibition of photographs loaned by the Prince Edward Island Libraries from their Carnegie collection of prints and photographs. All the programs in this series are being given in the Art Centre on the second floor of the Market Building and are open to anyone interested. Next week's program, which will conclude the series, will discuss the art of painting as it has been developed through the church.

PERSONALS  
Mrs. Edith Fisher who has been visiting her brother, Dr. Leo Frank and Mrs. Frank at Rosebank, left by plane yesterday on return to New York.

Egg Producers Have Been Under Severe Handicap  
Island egg producers have been under a severe handicap from last October until the recent raising of the spring price for eggs in the opinion of the P. E. Island Poultry Industry Committee.

The committee has reported that since October last, when the ceiling for coarse grains and proteins was removed and grain subsidies discontinued, the producers of eggs in this Province have been under a very severe handicap. While costs of production vary with the rate of production on individual farms, and one man may realize a profit while his neighbor remains in the red, it is nevertheless a fact that producer costs have been out of line with the price received for the product.

Now, however, the Spring price has been raised to 97 1/2 cents basis A Large in place of 31 cents last spring beginning February 1st. This increase compensates for the additional cost of feed. Reliable statistics show that for every three dollars per ton increase in feed, eggs need to be raised one cent a dozen.

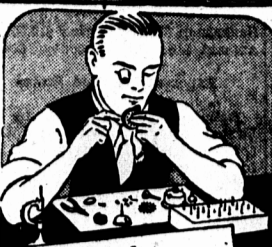

The season for early chicks is so well advanced at this date that there is no possibility of raising as many early chicks as was done last year. This will undoubtedly mean a reduction of early fall eggs which will make it difficult to fill the filling of export quotas next September. The reduction of early chick orders will probably mean also that too great a volume of chicks will be called for during April and May and breeders and hatcherymen are not likely to be able to meet all requests for chicks in these months. For those who are equipped to handle early chicks, the committee urges them to place their orders without delay and to take their chicks at the earliest possible date.

Commencing September 1st, producer prices cannot go lower than 40 cents a dozen basis A Large which in the case of a well managed method of feeding a flock of pullets will yield a fair profit at present feed prices.

As the matter stands now, Canada has a firm contract with Britain at set prices for 80,000,000 dozens of eggs in the next twelve months; 37 1/2 cents from February 1st through 31 cents; 43 1/2 cents beginning September 1st. Instead of 40 cents last year. These prices are for Grade A Large and based upon present packing and assembly costs.

To fill this contract will require very heavy hatchings starting immediately and continuing for the full season. As early chicks have proven the most profitable, showing greater vigor and less mortality, it is confidently expected the majority of poultry raisers will not let matters slide and then raise only late hatched stock.

FUNERAL NOTICE  
All members of the Benevolent Irish Society will meet at the Whelan Memorial Hall at 7:45 tonight to pay tribute to our late brother, Edward Smith, and on Friday morning at 8:30 to attend the funeral.

WINTER SERVICE  
Continued from page 1

In and lays its eggs, and then waits around until the other bird hatches out the young and rears them.

"I was just thinking that perhaps those are the tactics that have been adopted by the Tory member for Queens."

When Dr. Grant was telling the House a story about a farm inspector and a farmer's bull, a Progressive Conservative member interjected "more bull."

"The moral of that story is that you cannot reason with a bull," concluded Dr. Grant.

"There is no reason in your bull," shot back A. J. Brooks, Progressive Conservative member for Royal, N. B.

"The moral of that is that a little bull will go a long way," cut in G. K. Fraser, Progressive Conservative member for Peterborough, Ont.

"The member for King's took issue with Mr. McLure on the question of wartime spendings of the Dominion Government in Prince Edward Island. Actually when Col. Ralston was Minister of National Defence and represented an Island constituency, there was more money spent on airport construction in any other Province, he said.

It was due to the Liberal Government, Dr. Grant continued, that his County of King's had seven boat harbors. "I have just received notice that a new boat harbor will be constructed at Launching Place, the contract having been awarded to H. G. Phillips and Sons, the lowest tender at \$83,803, so that both the County and the Province will benefit from this new harbor."

He lauded the Liberal policy of aiding the fishermen through the Fishermen's Loan Board when their party came to power in 1935, and charged that from 1930 to 1933, fishermen of the Maritimes were starving and the Conservative Government of that period "did not do one thing for them."

On the matter of markets for Prince Edward Island fish, Dr. Grant predicted that there is going to be difficulty in selling the annual catch of fish and the output of canned fish.

"The canneries are about to start up operations, and an appeal is being made to the Department of Fisheries to buy canned fish to be sent overseas for relief purposes," he said.

At the close of Dr. Grant's remarks, Mr. McLure rose to a point of order but since he did not state the issue immediately, he was called to order by Mr. Speaker and failed to get a hearing.

On motion of Hon. Mr. Large the House went into committee with Mr. Ramsay in the chair on an Act to amend the Insurance Act. The promoter explained that the bill was to provide for uniform legislation throughout Canada and dealt chiefly with group life insurance. It was reported agreed to with amendment.

On motion of Hon. Mr. Hughes the House went into committee with Mr. Savelle in the chair on an Act to amend the Public Departments Act. The bill provides for the appointment of more than one Deputy Minister in the Department of Public Works and Highways, also by appointing or Deputies "in each department including those presided over by the Provincial Secretary and the Attorney-General," etc. Another section provides for payment to a Legislative Assembly member who is a member of the committee appointed for the control of bacterial ring rot and other plant diseases.

Hon. Dr. MacMillan called attention to the fact that the Department of Public Works after the retirement of Mr. L. B. MacMillan had functioned for several months without a Deputy, and now it has two Deputy Ministers. Why this was done just before the election was something which he could not understand.

Hon. Mr. Barbour said one of the Deputies is now in charge of accounting and the other of engineering. This system, he maintained, was more efficient than the old practice.

Dr. MacMillan: "If two Deputies are necessary, why the delay in appointing any Deputy Minister for months? The only reason for appointing two Deputies is that an election occurred."

Premier Jones said the dual appointments had been made when the necessity occurred.

Opposition Leader Scores Lack Of Information In Report Of Public Works

Provincial Legislature, March 3. The House met at 3:16 p.m. Hon. Dr. MacMillan asked the Minister of Public Works and Highways whether the report tabled in the House with respect to the activities of his department was to be supplemented by other information. "For several years we have had detailed information about the expenditures on roads, bridges, graveling, etc.," he said.

"This year we are only given a few totals without any details."

Hon. Mr. Barbour said the Public Works report this year was in line with the reports submitted in Ontario, Alberta, Saskatchewan and other provinces. "In this Province in the past we had every working for road tax," he said, "and every man's name was shown in the annual report. That is not done in other provinces and it is used here principally for people wanting to find out what their neighbors are getting. We have the information in the Department and if questions are asked we shall try to provide the House with information."

But in these times when it is not necessary to extend the annual report to 180 or 200 pages, and this printed in the journals of the House. We are doing away with the road tax and we will not have nearly the amount of people throughout the Province working on the roads."

Hon. Dr. MacMillan: "Does that refer also to the Falconwood Hospital report?"

Hon. Mr. Barbour: "That is under the Department of Health now."

Dr. MacMillan: "I understood from the Minister that if we want information we are to ask questions?"

Mr. Barbour: "If you want to know what everybody was paid all over the country for a day's work."

Dr. MacMillan: "My long friend must anticipate a long session if he is prepared to answer all the questions that will have to be asked on the Public Works report."

Mr. Barbour: "I will table the report I have of some of the other Provinces so that hon. members can have a look at them for themselves."

First Readings  
Hon. Mr. Stewart presented a petition from the Diocesan Church Society of Prince Edward Island for enabling legislation to sell and convey the title of church property in Souris. A bill in accordance with the petition was received and read.

Hon. Mr. Barbour introduced a bill to amend the Expropriation of Land Act.

Hon. Mr. Large introduced an Act to Amend the Elections Act.

Hon. Mr. Arsenault presented the annual report of the Legislative Library.

On motion of Hon. Mr. Large the House resumed committee, with Mr. Douglas MacKinnon in the chair, on second reading of an Act to make uniform the law respecting registration of corporation securities. The bill was reported agreed to with minor amendments.

On motion of Hon. Mr. Large the House went into committee with Mr. Ramsay in the chair on an Act to amend the Insurance Act. The promoter explained that the bill was to provide for uniform legislation throughout Canada and dealt chiefly with group life insurance. It was reported agreed to with amendment.

On motion of Hon. Mr. Hughes the House went into committee with Mr. Savelle in the chair on an Act to amend the Public Departments Act. The bill provides for the appointment of more than one Deputy Minister in the Department of Public Works and Highways, also by appointing or Deputies "in each department including those presided over by the Provincial Secretary and the Attorney-General," etc. Another section provides for payment to a Legislative Assembly member who is a member of the committee appointed for the control of bacterial ring rot and other plant diseases.

Hon. Dr. MacMillan called attention to the fact that the Department of Public Works after the retirement of Mr. L. B. MacMillan had functioned for several months without a Deputy, and now it has two Deputy Ministers. Why this was done just before the election was something which he could not understand.

Hon. Mr. Barbour said one of the Deputies is now in charge of accounting and the other of engineering. This system, he maintained, was more efficient than the old practice.

authority for such an appointment."

Mr. Bell asked if there had been any demand for a Deputy in this case, due to any increase in the Attorney-General's Department.

Mr. Hughes said that question need not be answered, as the bill provided only for a contingency.

Dr. MacMillan asked why provision is not being made for a Deputy Minister of Reconstruction.

Mr. Hughes: "What is the use of making provision for the appointment of a Deputy Minister of a Department which is on the way out?"

Dr. MacMillan called attention to the work done by the present secretary of the Department of Reconstruction who had been promised he would be appointed a Deputy and who was doing more work in the Reconstruction Department than any deputy.

After some further discussion the bill was reported agreed to.

HIGHWAY ACT  
On motion of Hon. Mr. Barbour the House went into committee with Mr. Keir Clark in the chair on an Act to amend the Road Act, 1936. The amendment repeals section 75 of the statute and provides that except in cities or incorporated towns no person shall, without a written permit, erect any building at a distance of less than 25 feet from the boundary of any road or highway, or at a distance of less than 50 feet from those of the next adjoining corner, or less than 200 feet from highway or railway intersections, or at or near a bend of road which may obstruct or interfere with a clear view of traffic, or which would result in a reduction of the actual sight distance of traffic on the highway to less than 1,000 feet.

Issuance of permits under the Act is left to the discretion of the Minister of Public Works and Highways, without appeal, the permit fee being \$2.00. Roads and highways affected by the regulations are defined as being those numbered on a road map in the office of the Minister as follows: Nos. 1, 2, 3A, 3, 4, 5, 6, 6A, 7, 8, 9, 10, 11, 12, 12A, 13, 14, 15 and 16. Penalty for violation of the law is fixed at \$50.

The bill also provides for discontinuance of the payment of personal road and horse taxes.

Voices Approval  
Hon. Dr. MacMillan approved of the purpose of the bill and regretted it did not cover buildings already erected. He twitted the Minister on not undertaking to move existing buildings, as he had reportedly moved quite a number of houses prior to the election.

Mr. Barbour's denial of having done so Dr. MacMillan replied: "The Premier intimated the other day that it was done in your department behind your back."

Mr. D. L. Mathieson referred to building lots on the outskirts of Charlottetown and Summerside and warned that the boundaries of the routes coming under the provision of the Act should be carefully limited. He instanced other smaller municipalities and pointed out that where no appeal has been provided an arbitrary minister could prevent the expansion of municipalities altogether.

Mr. Bell mentioned a number of building lots at Belvedere which had been purchased by war veterans, each with a frontage of 55 feet, which would require them to obtain written permits from the Minister under this provision.

Hon. Mr. Hughes agreed that this objection was serious and that the routes should be named in the Act and have the full sanction of the Legislature.

After some further discussion Hon. Dr. MacMillan said this measure was of first importance as a matter of public safety, and he would be prepared to leave the matter to the discretion of the Minister. The bill was reported agreed to without amendment.

On motion of Hon. Mr. Hughes the House went into committee with Mr. D. L. Mathieson in the chair on The Public Utilities Act. As explained by the promoter, the bill is a consolidation of three existing statutes dealing with the powers and duties of the Public Utilities Commission. It was reported agreed to.

At 6 p.m. the House adjourned to meet at 3 p.m. on Thursday.

IS OPTIMISTIC  
Continued from page 1  
tres as Souris, Montague, and Morell, Mr. Murley said, whom his office helps by means of unemployment insurance. Many of those men could possibly be placed at work on the mainland were it not that such placements would, perhaps, be unfair to the operators of lobster factories and canning plants where those men are employed at good wages for a greater part of each year. Should a considerable number of such men leave the Province for the mainland during the winter, there would always be the possibility that many of them might not return in the spring when their services are badly needed in all fishing and canning centres. Mr. Murley said the coming of

Rubbing Alcohol Cause Of Fatality Is Jury Finding

A coroner's jury last night found that William Stewart, 61, Prince Street, City, came to his death at 225 Water Street on Feb. 28 last, as the result of having drunk rubbing alcohol. The jury deplored the case "with which such dangerous forms of alcohol could be procured" and recommended, if there is no legislation governing the sale of such alcohol, that the Provincial Legislature immediately take action to restrict its sale.

Dr. I. V. Yeo presided at the inquest and G. R. Holmes, K. C., represented the Crown. The jury comprised Hawley Crockett, foreman, G. W. McLeod, W. M. Forsythe, William Hughes, Harry Hardy, Byron Brown, and Ray Steele.

Dr. Harold Shaw, Provincial pathologist, said he had performed an autopsy on the body of the deceased and found a lethal amount of alcohol in the deceased's stomach.

Dr. F. A. MacMillan said he had been called to 225 Water Street about 2:35 last Saturday afternoon. The deceased was lying on the floor of a room. He was dead.

Miss Mildred Walsh, employee of the Keeffe Drug Store, said a man, Stephen Duffy, came into the Keeffe Drug Store sometime between 11 and 12 o'clock, Saturday morning. He was sober.

He said he had a sore hip and wanted a bottle of rubbing alcohol to apply to it. Witness said she accepted his story in good faith and sold him the bottle. The firm, witness said, did not usually sell such articles to individuals. Some horsemen had procured rubbing alcohol there for rubbing their horses but the firm did not sell it indiscriminately.

Sgt. John Butler, City Police, said he was called to 225 Water Street last Saturday afternoon about 2 o'clock. Witness saw William Stewart on the floor. Witness was sure Stewart was dead. He called Police Station to send ambulance and doctor. Stephen Duffy was lying on a bed in the same room, moaning. Witness had Duffy removed to the Charlottetown Hospital.

Other witnesses heard were Irving Newson, Mrs. Benjamin Shepherd, Edmund Stevenson, J. W. Brennan, and Frank Axworthy, all of whom live at 225 Water Street.

Rural Contributions Are Coming In To Children's Appeal

Local headquarters of the Canadian Appeal For Children Campaign are now beginning to receive a large number of contribution collections from the rural districts where active local committees have been organized. Some difficulty has been experienced in many districts owing to the large amount of snow making it inconvenient to get around.

Yesterday Mrs. John Hogan of the Parkdale Women's Institute brought in a total of \$325.65. This included \$28.80 which came from a card party held at the beginning of the Parkdale campaign.

Numerous special events in different parts of the Province are being held to raise additional amounts. Tonight there will be a key game at Milton rink between the North Rustico Improbables and the Milton Improbables. Old timers at hockey will comprise the teams. The ladies of the Milton Women's Institute will sell sandwiches and hot drinks and the event is expected to draw a large crowd. It is understood another game between Hunter River and North Rustico is in process of arrangement also. All of the proceeds go towards the Canadian Appeal for Children Campaign.

The booth to receive subscriptions at Holman's Store on Grafton Street operated jointly by the I.O.G.E. and the Catholic Women's League will be open all this week. The same organizations at Summerside are holding a big Tag Day on Friday and Saturday of this week. The closing date of the campaign will be sometime during March.

spring weather is likely to see a building boom in the City and its outskirts much greater than any which has been experienced in recent years. Warmer weather will see a resumption of construction work at the Charlottetown Hospital which should employ between 50 and 60 men. The first of April will likely see the firm of P. W. Woolworth and Co. Ltd., begin the tearing down of the block on Queen Street now occupied by the Jamieson Drug Store, Wright Shoe Store, and Crockett and Storey. This tearing down of the present building and the building of Woolworth's new store should, Mr. Murley said, give employment to at least 50 or 60 more men.

The construction of the Evangeline Ginger Ale plant at Spring Park, the building by Mr. Reginald Jenkins of a modern showroom near the railway station, the extension of Matthews-Wells cucumber plant, and the proposed construction of between 50 and 75 houses in the Parkdale and Brackley Point Road area, will all contribute, Mr. Murley said, in alleviating considerably the present unemployment problem in the City.

In the meantime, he said, his staff of 14 is becoming progressively busier. The local office is continuously being more depended

Board Of Trade Council Meeting

At a meeting of the council of the Charlottetown Board of Trade last night, it was decided to wait on the Minister of Public Works, Hon. Mr. Barbour, with respect to certain transportation matters. A spokesman for the council said that it was possible a resolution on the same problem would be presented to a general meeting of the board.

Reports from chairmen of standing committees were presented. Of particular interest was the report from the Civic Affairs Committee which reported that joint meetings had been held with the Finance Committee of the Charlottetown City Council. Discussions were held on the general financial picture of the City.

The meeting was informed that plans were being made to have Mr. Rand Matheson, manager of the Transportation Commission of the Maritime Board of Trade, Moncton, speak at the March meeting of the Charlottetown Board of Trade. Members of the Provincial Government will be invited as guests.

Egg And Poultry Market Report

The weather and roads in P. E. I. have been such that egg receipts vary from week to week, volume being up one week and down the next, reports Mr. P. M. Nash, Senior Poultry Products Inspector. However, the overall picture shows some increase in receipts over corresponding period last year. Quality is excellent, the only undergrades being soiled and dirty eggs. Right here, producers could increase their returns considerably by checking their material, making sure it is dry and clean. Dirty eggs are graded into Grades B and C according to the amount of soil and dirt. With a spread in price between Grades B and C of seven to nineteen cents respectively, producers just cannot afford to ship dirty eggs.

Shipments of eggs continue to move to Maritime and Newfoundland points with all surplus eggs being packed for export to Britain. Prices remain unchanged and operators of producers for ungraded eggs delivered:

A large 37 1-2; A medium 35 1-2; B 30; C 18.  
Dealers and carlot assemblers are offering grading stations for the graded pack:

A large 42; A medium 40; B 34; C 22, and for the same pack sized and stamped for export: A large 43 1-2; A medium 41 1-2.

Charlottetown dealers are selling the graded pack to retailers, loose: A large 46; A medium 44; B 36; cartons: A large 48; A medium 46.

A-1 producers are receiving for graded cartoned pack: A large 51; A medium 46; A pullet 43, and retailing to consumers at A large 57; A medium 55; A pullet 49; Grade B (loose) 43.

Ice Sports Planned For Victoria Rink

It was announced last night by the Department of Physical Fitness that the annual southwestern Queen's ice sports will be held at Victoria rink on Friday evening, March 5. It is hoped that students from several schools will take part in the various skating races. The feature event of the program will be an exhibition hockey match between the old rivals, Bantam Abbies from Charlottetown and Victoria School.

upon by local business firms to secure them the personnel they need.

Last year the Charlottetown and Summerside offices supplied approximately 800 agricultural workers to the farmers of the Province. Without that service, Mr. Murley said, many farmers would have found it practically impossible to dig and store their potato crop.

Montague Girls' Team Beat W. K. S.

Last evening in an exciting hockey game at the Forum a heavier, more experienced Montague girls' team turned back a fighting band of West Kent girls by a score of 3-0. The struggle was packed with action throughout and it was anybody's game up until the half-way mark in the third canto.

The lone score of the first period came from the stick of Clements, hard-working Montague forward at the 2:02 mark. Play swung back and forth with both teams trying hard to score in the second period, but neither team was able to dent the twines in this session.

At the 5:40 mark in the third Clements banged in her second goal of the evening, and this was followed by MacDonald flashing the red light at the 7:20 mark to wind up the evening's scoring.

Midget Hockey Trophy Donated

The Emman Drug Co. Ltd., 14 Summerside has donated a beautiful trophy that will be emblematic of the midget hockey championship of Prince Edward Island and will be awarded annually to the winning team. It will be known as the Emman Trophy.

The Trophy is now on order and if it arrives in time it will be presented to the winning team in the series that ends with the game in Summerside on Friday night between the Summerside Kinmen midgets and the Midget Abbies. Whoever wins the present series will have the honor of being the first holders of the Emman Trophy. If it has not arrived by Friday night it will be presented at a later date.—S.

Boy Scout Hockey Playoffs Announced

Last evening officials of the Charlottetown Playground Commission and the Department of Physical Fitness announced City Boy Scout playoffs at the Forum as follows:

1st Troop vs. 9th, Saturday, March 6th at 8:00 A.M.  
2nd Troop vs. 3rd, Saturday, March 6th at 9:00 A.M.  
3 — Winners of (1) vs. winners of (2) Saturday, March 6th at 11:00 A.M.
