RUSH SUPPLIES TO MOUNTIES IN FAR NORTH

Overland Shipment Will Replace Goods on Ice - Bound Steamer

(Canadian Press)
EDMONTON, Aug. 21.—Within 12 hours of word being received in the city that the Lady Kindersley had been held up by ice on the Behring Sea, the mounted police had assembled supplies for their posts in the Arctic region and on Tuesday morning they were forwarded by rail for shipment by river boats and pack trains to the members of the force gathered at long intervals along the northern coast in the barren lands.

The Lady Kindersley was carrying a year's supply of provisions and clothing for the police. The vast quantity of material was secured from local wholesalers during Monday night.

North Carolina Visitor To League Of Nations

(Canadian Press)
GENEVA, Aug. 21.—Philip S. Henry, bearing a signed and sealed document from Governor Cameron Morrison of North Carolina appointing Mr. Henry a special commissioner for North Carolina arrived here today. The League of Nations officials are somewhat puzzled over how to receive him. Mr. Henry has not yet presented his credentials, but it was said today that the league officials were going to welcome him as a representative American, anxious to learn about the league and particularly as the Governor's concluding words: "I do hereby confer on him all rights, privileges and power useful and necessary to the just and proper discharge of the duties of his appointment."

4 Killed in Train Crash

(Canadian Press)
CRANFORD N. J., Aug. 21.—Four men were killed, and at least twenty persons are believed to have been injured when the Philadelphia and Reading passenger train, No. 604 travelling at a high rate of speed on the tracks of the Central Railroad of New Jersey struck a truck owned by the Newark Paving Company loaded with crushed stone, at Lincoln Avenue crossing.

KING GOVERNMENT POLICY IS DISASTROUS TO INDUSTRY

Rt. Hon. Arthur Meighen Declares That Government Cannot Meet the Unemployment Situation Unless it Reverses Every Step it Has Taken.

(Canadian Press)
STRATFORD, Ont., Aug. 21.—The picnic in Queens' Park this afternoon which was arranged by Western Ontario Conservatives and was featured by an address from the leader of the Opposition, Right Hon. Arthur Meighen was an enjoyable gathering of old and young, with suitable sport features excellent music and not too many speeches. Rain fell at noon in some districts, and no doubt discouraged attendance of a few but the throng assembled in front of the speaker's stand was representative of every county in the western district, from the Georgian Bay and Lake Huron down to Lake Erie.

In his address Mr. Meighen quoted from government returns to show, he said, the "disastrous effects upon industry and employment in Canada of the partial carrying out of the 1920 Income tax, which has caused the loss of 100,000 jobs in the House. He laughed at the suggestion that Mr. King had reduced cost of living by cutting off part of the sales tax which his own government had first increased.

"This Government", he declared, "is utterly helpless to meet the unemployment situation. This Government cannot meet the situation unless it reverses every step it has taken; unless it reverses every promise given the people of this country. This government turned this dominion on the wrong track when it came into power."

ATTACKS PACT WITH RUSSIA

Snowden Also Disagrees on Ruhr Matter

(Canadian Press)
LONDON, Aug. 21.—The cleavage in the Labor Cabinet which has been noticeable for some weeks past is rapidly becoming more apparent. The latest political development within the party arises out of Philip Snowden's strong attack against the Russia agreement and also in opposition to the decisions reached at the inter-allied conference in London. The Chancellor of the Exchequer leans to the view taken by the leading bankers with regard to the Russian loan, believing that any attempt to raise it will have a serious effect on British finance.

It is generally understood that the strong opposition which the British Treasury raised against such a loan was overruled by the influence brought to bear by the trade union supporters of the Government.

The Chancellor declares he is firmly convinced that the decisions reached in London not to evacuate the Ruhr immediately nullifies many good aspects of the London agreement. He was most anxious to be generous in the matter of taxation reductions in the next British budget and he fears now that these reductions will not be possible owing to the drain made by the foreign loans.

Boiling Water Causes Death

(Canadian Press)
YARMOUTH, N. S., Aug. 21.—A sad fatality occurred at the home of Liah Sainier, Salmon River, Digby county, when his grandson, George, youngest child of Mr. and Mrs. Norman Mallett, received burns on the head and face from boiling water which proved fatal and death took place after intense suffering. Much sympathy is expressed for the bereaved parents. Mrs. Mallett is also very ill but is improving. One little sister, Hazel survives.

Ask Investigation Into Kidnapping

(Canadian Press)
WASHINGTON, Aug. 21.—The U. S. embassy at Mexico City reported yesterday that it had applied to the Mexican Foreign Office to secure the release of R. T. Borroneau, a U. S. citizen and general manager of a lumber and turpentine company, who was kidnapped by bandits on Saturday at Tepic.

The embassy asked that urgent measures be taken to apprehend and punish the kidnappers. David Myers, U. S. consul at Tlaxcala, has gone to Tepic to investigate.

England's Death Rate Lowest in History

(Canadian Press)
LONDON, Aug. 21.—England's death rate for 1923 is given as 11.6 per thousand, the lowest in recorded history, in a report by the Minister of Health just issued. The total deaths were 454,768 which figure is 42,000 less than in 1922 but represents 40 per cent. under the age of fifty.

The infant mortality rate is also the lowest recorded, dropping to 69 per thousand births in 1923 and representing a saving to the nation of 45,000 babies. The birth rate, however, does not give the same satisfaction. The number of births was 753,137, or about 22,000 fewer than in 1922.

Sir George Newman, who is responsible for the report, claims the favorable showing is due to improved public health measures. Cases of infectious disease during epidemics numbered 344,000, a decrease of 78,000 and constituting another record in England's health annals.

Forty-One Killed In Soviet Turkestan

(Canadian Press)
LONDON, Aug. 21.—Forty-one persons were killed and 8,000 made homeless in the province of Semirechensk, Soviet Turkestan, according to the Allahabad correspondent of the Evening News. It is reported that over 4,000 homes were destroyed by the tremors.

Says Mars is a Habitable Planet

(Canadian Press)
SAN FRANCISCO, Aug. 21.—Captain See, professor of Mathematics, United States navy, and government astronomer at Mare Island in a statement made today said astronomical research has proved beyond a doubt that Mars is a habitable planet and therefore said to have vegetable and animal life of some kind. Of that opinion he is certain.

All other details are speculative according to his statement.

STILL AIMS TO BE THE FIRST AROUND GLOBE

Major MacLaren Arrives at Vancouver With Remains of Plane.

(Canadian Press)
VANCOUVER, B. C., Aug. 21.—To be first around the world by air—that ambition which launched Major Stuart MacLaren and his party on the globe encircling flight five months ago—is still the goal at which the daring aviator aims.

"Of course, it all depends on the Americans," he commented as H. M. E. Theilp dropped anchor off the Jericho air station today. "If they get around it is all up. The thing has to be done."

When the little trawler let her anchor drop today she ended a cruise which began on March 1. Within a few minutes under the direction of pilot W. H. Plenderleith, the crew of the vessel, assisted by men from Jericho, were at work lowering the hull of the ill-fated flying boat from its perch on the water. The engine which never missed a beat in the 14,000 miles of flying was deposited in a dory and the remains of the tiny craft which met its doom in the stormy waters of the Northern Pacific were taken ashore to await shipment to England.

A Great Test.
It was a great test for the plane, declared Major MacLaren, flying nearly everyday for months on end and without the opportunity of having the craft gone over thoroughly.

Bank Manager Puts Town in Quandary

(Canadian Press)
COLOGNE, Aug. 21.—The municipality of a small German manufacturing town has been placed in a most unpleasant quandary by the irresponsible action of the manager of the local municipal bank.

It appears that he speculated with the bank's funds during the market fluctuation period, with the result of a million sterling. A prosecution is pending, but meanwhile the town is responsible to the depositors, and while a declaration of bankruptcy seems impossible, there appear equal difficulties in the way of levying a universal rate for the benefit of a few.

Watchdogs Share Meal With Burglars

(Canadian Press)
LONDON, Aug. 21.—The dogs kept at a house on the London Finsbury road at Windesham failed to bark when raiders entered during the night. Instead, they shared a meal which the burglars obtained by clearing the pantry of every tasty morsel.

Scraps on the floor show that the dogs were first tempted with biscuits, and afterwards partook of dainties fare.

THREE MEN WERE DROWNED WHEN ROWBOAT CAPSIZED

Party of Four Including Woman Were Attempting to Escape From Burning Motor Boat.—Heroic Action of Woman Rescuer.

(Canadian Press)
SEVERN FALLS, Ont., Aug. 21.—While attempting to escape in a row boat from a burning motor boat near here last night, three young men, Percy Beatty, of Severn Bridge, Gerald Carthy and Arthur Heals, Toronto, all between 20 and 30 years of age, were drowned when the rowboat capsized.

Miss Ethel Fontaine, of Toronto was also a passenger in the motor boat but was saved by the heroism of Mrs. Charles Wilkinson of Severn Falls who had put out to the rescue.

The cries of the motor boat passengers for help when their craft took fire were heard by Mrs. Wilkinson at her home. She immediately secured a rowboat and put off to the rescue. By that time the flames had practically enveloped the motor boat and the four occupants were compelled to jump and swim for the approaching rowboat. The struggling quartette as they tried to get into the craft upset it and Mrs. Wilkinson herself was thrown into the water. She is a strong swimmer, however, and managed to grasp Miss Fontaine and got her to shore alive.

The three men sank and their bodies were found this morning. It is believed that Beatty who is a strong swimmer, might have reached shore had he not stopped to help Miss Fontaine and Mrs. Wilkinson.

Advance Party Here From Hebrides

(Canadian Press)

Newfoundland Paper Mills Help Workers

(Canadian Press)
ST. JOHN'S, Nfld., Aug. 21.—Newfoundland sees in its paper mill industry a chance to solve the unemployment problem, according to the speech of the Governor General, Sir Wm. Allard, at the opening of the Legislature. Among the bills passed at the session was one providing for the establishment of a third paper mill in the Grand Valley in the northern portion of the island, with a capacity of 300 tons of newsprint daily.

Harvesters Arrive Too Early

(Canadian Press)
WINNIPEG, Aug. 21.—Some thousands of harvesters from East and West Canada are arriving in Winnipeg at least a week before there is work for them on Manitoba farms, and for lack of orders employment officials are unable to allocate them to farmers who will need them in a few days. Cool, cloudy weather has delayed ripening of grain. Appeals to farmers to place orders for men at once are said to have proved unavailing, and employment officials express the belief that incoming harvesters will go through to Saskatchewan and that labor in Manitoba may be scarce when it is needed.

PRINCE LEAVES FOR AMERICA AUGUST 23

Trip to be Stripped of as Much Formality as Possible.

(Canadian Press)
LONDON, Aug. 21.—The Prince of Wales has no public engagements of any kind during the brief period which remains before his departure for the United States and Canada on the Berengia on Saturday August 23.

Although it has been made known that the trip is unofficial and in the nature of a recreative holiday the Prince has had numerous invitations from different parts of Canada to attend functions of various kinds. Some of those it would be impossible to accept in point of date. Apart from other engagements some of the larger eastern cities will be visited on the way from the West but the dates are still too uncertain to make acceptance of invitations to definitely fixed functions practicable.

The meeting of the Prince of Wales and the President of the United States is a definite fixture but it will be stripped as far as possible of all formality.

Lord Beaverbrook Visits House Of Birth

(Canadian Press)
TORONTO, Aug. 21.—Sentiment or a look at the house in which he was born and in which he lived for the first three months of his life, drew Lord Beaverbrook to the village of Maple, twenty miles north of Toronto, today. Driving up to the house, which is now untenanted, he stepped out of his car and for several minutes gazed at the now dilapidated structure. Then he stepped back into the car and was driven away before any of the villagers had an opportunity of seeing him.

Lord Beaverbrook was born on May 24, 1879, the son of the late Rev. William A. Aitken, a Presbyterian minister there. Three months after his birth Lord Beaverbrook was taken by his parents to Newcastle, N. B.

Russian Prince Is Clerk in N. Y. Bank

(Canadian Press)
NEW YORK, N. Y., Aug. 21.—"Good morning Mr. Dimitri" is the greeting a quiet, unassuming young man receives each morning as he where he is employed as a clerk in the foreign exchange department.

But a few short years ago this same young man was addressed as "Your Royal Highness" and was surrounded by a small army of servants who waited at his beck and call.

Then he was the Prince Dimitri, son of Grand Duke Alexander, nephew of the Czar and grandson of the Prince of Wales, whom he has often visited at Buckingham Palace.

The war came and the upheaval of Russia, which resulted in the termination of the rule of the Romanoffs and scattered the Royal Family throughout Europe.

Prince Dimitri escaped to France with his father and mother, where he made his home with them in Paris until seven months ago, when he came to America.

He is the only member of his family in the United States, where he refuses to take any advantage his birth might bring him.
