ERYSIPELAS.

This dangerous Blood Disease always cured by Burdock Blood Bitters.

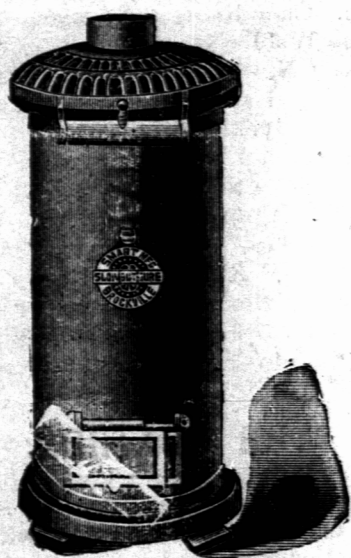

Most people are aware how serious a disease Erysipelas is. Can't rout it out of the system with ordinary remedies.

Like other dangerous blood diseases, though, B.B.B. can cure it every time.

Read what Rachel Patton, Cape Chin, Bruce Co., Ont., says:

"I wish to state that I used Burdock Blood Bitters for Erysipelas in my face and general run down state of my health. I tried many remedies but all failed to cure. I then tried B.B.B. Two bottles nearly cured me and four bottles completely cured me."

OFFERED ARBITRATION.

It has been said in behalf of the Boers that during the negotiations which preceded the war they offered to arbitrate upon the questions in difference. This is only true in a sense...

To submit to the decision of other nations a right clearly defined by a valid agreement, would be like arbitrating on a note of hand which the debtor was well able but reluctant to pay.

Let us suppose that Britain had consented to an arbitration. Would that have prevented the war? Certainly not, unless the award had been against Britain.

We know now, for they have themselves declared it, that the war was long since resolved upon by the Transvaal Government, and that their purpose and intention was not alone to get rid of remaining British control, but to drive the British out of South Africa and create a Dutch confederation there in which the same treatment would have been dealt out to the English residents of Cape Colony and Natal as British subjects in the Transvaal have so long suffered.

In the ultimatum Kruger spoke as Lord Paramount in South Africa. He claimed to dictate terms as to what should be done in Natal and Cape Colony and on the high seas beyond. Does anybody believe that this was a conclusion suddenly or re-

cently decided upon? On the contrary there is every evidence that it was the settled purpose of years past, for which, as we have said, millions had been spent in preparation.

Nor was this preparation made merely for defence. Britain had no desire or intention of entering upon aggressive warfare in South Africa. No other power could or would have menaced the Transvaal. The preparation was made for conquest, for the destruction by armed force of British control and the transfer of all power in South Africa to the Boer and Afriander population.
