Dazzling Smiles

Are dull smiles polished bright

YOUR teeth are covered with a dingy film that ordinary methods do not combat successfully. Under it are the prettier, whiter teeth that you envy. Film is the great enemy of tooth beauty. And a chief cause, according to world's dental authorities, of most tooth troubles. It clings to teeth, gets into crevices and stays. Germs by the millions breed in it. They, with tartar, are the chief cause of pyorrhea. Just use the special film-removing dentifrice called Peppodent.

Mail the coupon. Or ask your druggist for Peppodent. Don't expect the same results from old-time dentifrices. Start beautifying your teeth today.

Imperial all the way. The Peruvian Oil Fields in South America produce a petroleum that meets, in an unequalled degree, all the requirements of a fine motor oil. These fields were developed by IMPERIAL OIL LIMITED and their entire output is controlled by this Company. In its own tankers, IMPERIAL transports the Peruvian crude to Canada, and in its own modern plants in Canada refines it for the use of Canadian motorists. Out of the fine lubricating qualities which Peruvian crude alone possesses, IMPERIAL evolves Marvelube, a distinctly better motor oil. Through every step in production and manufacture, Marvelube's inherently superior qualities are preserved by the unmatched facilities of Canada's largest refiners of petroleum products.
