Economy in medicine must be measured by two things—cost and effect. It cannot be measured by either alone. It is greatest in that medicine that does the most for the money—that radically and permanently cures at the least expense. That medicine is

Hood's Sarsaparilla

It purifies and enriches the blood, cures pimples, eczema and all eruptions, tired, languid feelings, loss of appetite and general debility.

Our Millinery Is Elegant

Ever since the fall millinery opening we have been exceedingly busy making and selling hats, in fact our milliners have worked every night till ten o'clock and are still doing so.

We have not done much advertising in millinery either, the millinery advertised itself and that is the best possible kind of advertising.

Every day some new millinery goods come to us by express so that we have every new thing that is thought of, just as soon as it's made.

Now if you haven't bought your new winter hat yet, we would like you to see our millinery at once; and if you need your hat at the end of the week, kindly get your order in as early as possible and you'll get the hat when you want it, how you want it, and cheaper than you'd expect.

You can't buy our kind of millinery elsewhere—not by a long shot. Come early in the week please.

OLD AGE.

It is too late! Ah! nothing is too late Till the tired heart shall cease to palpitate.

Cato learned Greek at eighty; Sophocles wrote his grand Oedipus, and Simonides bore off the prize of verse from his competitors.

When each had numbered more than four score years;

And Theophrastus at four-score and ten Had begun his "Characters of Men." Chaucer, at Woodstock, with the nightingales,

At sixty wrote the "Canterbury Tales" Goethe, at Weimar, toiling to the last, Completed "Faust" when eighty years were past.

What, then? Shall we sit idly down and say The night hath come; it is no longer day? The night hath not yet come; we are not quite

Cut off from labor by the failing light; Something remains for us to do or dare, Even the oldest trees some fruit may bear.

For age is opportunity no less Than youth itself, though in another dress;

And as the evening twilight fades away, The sky is filled with stars, invisible by day.

JUST HOW WE STAND.

The following is an extract from a speech delivered by B. Hal Brown, Manager of the London & Lancashire Life Insurance Co. for Canada:

We regret the shameless conditions which have been revealed through the investigations now being carried on by the committee of the legislature in the State of New York. The great New York companies appear to have become unwieldy. Resignations have been forced in one company and high officials must go in others. Their deeds are bare-faced scandals and all high principled honest insurance men blush to know that such conditions could have been allowed to grow and continue. Methinks there will be a turning toward British institutions and I note that the principles upon which they do business are favorably commented upon by the press, and some leading American Officials, who are now in trouble. Who can say what the results are to be? One thing is certain, and that is John Bull will still continue to do business (life insurance particularly) at the same old stand, and in the same sterling way. A golden opportunity is ours, and it will be our own fault if we do not avail ourselves of it. Now just a word about the position attained by the company. Our new business in Canada for the first nine months of the current year shows an increase of 20% compared with that of 1904. The income has increased \$90,000 for the same period and amounts to \$351,630, while the assets have increased by \$216,720, and stand at \$3,430,940,20 of solid first-class securities, upon which not one dollar of interest was overdue and unpaid at the close of the year. The income of the Company, from all sources, amounted during the year 1904 to \$1,846,442. The amount added to the funds as the result of the year's operations amounted to \$638,407, raising the funds in hand to \$10,002,386. The Company occupies an enviable position among sterling life offices and carries upon its books upwards of forty million dollars sums assured. The ratio of expense in Canada to total income is 15.9%, indicating the conservatism exercised by those who direct the affairs of the Company. The policies of the Company are world-wide, free from restrictions as to residence, travel or occupation, and are incontestable and non-forfeitable. The business affairs of the Company respecting Canadian business are administered wholly in Canada. The funds earned in Canada are invested and retained in the country, affording Canadians all the advantages of a Home Company with the further protection and safe-guard of English connection.

Lewis H. Beer is the Manager of this sterling company for this Province and invites all intending insurers to call on him before placing their risks elsewhere. 11-11ts twf tf.

PRINCE GETS A BIRD'S-EYE VIEW

New York, Nov. 15.—After the dinner at Mayor McEllan's last night Prince Louis drove to the Times Building, from the roof of which at midnight he saw the city and its suburbs sparkling with electric lights. Afterward he examined the various processes that are employed in making the newspaper. From the telegraph room of The Times he sent this message:

The Editor The Times, Printing House Square, London:

Am allowed by your colleague here to tell you that we find twenty-four hours in the day a wholly insufficient allowance for the daily fare of American hospitality offered to the King's sailors.

LOUIS BATTENBURG.

From London this acknowledgment was sent by the Commercial Cable Company:

Prince Louis of Battenburg, New York:

Message to the editor of the Times received.

The two messages were handled with great celerity by the Postal Telegraph and Cable Companies. Prince Louis's message was started at 12:22 A. M., and the acknowledgement from London was received at 12:35.

Skin Troubles of Children

ITCHING ECZEMA, SCALD HEAD, CHAFING AND ALL SKIN IRRITATIONS AND RUPTIONS CURED BY

Dr. Chase's Ointment.

Dr. Chase's Ointment is so clean and pure, so fine and creamy, so delightfully soothing and healing, that it is especially useful in the nursery for the skin troubles of childhood.

For sunburn, prickly heat and chafing it brings quick relief, and by affording a cure for the simpler irritations of the skin it positively prevents eczema and scald head, the itching of which means keen torture for the unfortunate victim.

Every mother should know about Dr. Chase's Ointment, for by its use she can save her children much suffering and discomfort.

Mosquito bites, hives and insect bites, ivy poison and every form of skin irritation and eruption yield readily to the healing, soothing influence of this great ointment, and you can use it with positive assurance that it will not injure the most delicate skin or hurt the growth of the hair.

Unlike the pore-clogging and unsanitary powders, Dr. Chase's Ointment beautifies and benefits the skin by making it soft and velvety.

Mrs. Lois McKay, Tiverton, Digby Co., N. S. writes:—"My children were taken with an itching, burning skin disease and tore their flesh until it was sore and their shirts would sometimes be wet with blood. The doctor did not seem to know what ailed them and could give no relief so I began using Dr. Chase's Ointment.

"Wherever it was applied it did its work well and has entirely cured them of this horrible disease. They suffered so they could not sleep nights and I think if it had lasted much longer I would have gone crazy from the anxiety and loss of sleep. I cannot find words to praise Dr. Chase's Ointment enough for the good it has done my children and hope other sufferers will try it."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmondson, Bates & Company, Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box of his remedies.
