Literary Tribute To Lady Nicotine

Poets and Prose Writers Express Mankind's Debt to Good Tobacco.

Since the day when Sir John Hawkins, Ralph Lane Governor of Virginia; Sir Francis Drake and Sir Walter Raleigh introduced and popularized smoking tobacco in England, tobacco has formed the inspiration of literary men and artists.

King James 1st, is said to have voiced early objection to smoking, refusing to permit his mouth to be "used as a chimney," but despite his royal prejudices, smoking became popular in England and, indeed, throughout Europe. Poets, prose writers and philosophers from the sixteenth century on have extolled its beneficence and acknowledged the comforting solace of the "blessed weed."

In modern days among those who have found a congenial theme in tobacco have been Sir James Barrie, the novelist and playwright, whose tender whimsicalities have made him a beloved figure in English letters wherever English is spoken and read. "My Lady Nicotine" will remain a classic of its kind.

Rudyard Kipling, the Poet of Empire, creator of "Kim" and "Soldiers Three" devoted several famous verses to the cigar:

"Open the old cigar box,
 Give me a Cuba stout,
 For ways are running crossways,
 And Maggie and I are out.
 A million surplus Maggies
 Are willing to bear the yoke;
 And a woman is only a woman,
 But a good cigar is a smoke."

One of the most enthusiastic of modern eulogies on cigars comes from the mouth of a character in Thomas Mann's novel "The Magic Mountain."

"With a good cigar in his mouth a man is perfectly safe, nothing can touch him—literally. It's just like lying on the beach. When you lie on the beach, why you lie on the beach, don't you. You don't require anything else in the line of work or amusement, either."

The Smith Murder Case

(Canadian Press)
 AMHERST, N. S., Feb. 9.—In their hunt for clues leading to a solution of the murder of Mrs. E. E. Smith, the police turned today to their own fingerprints, and Chief of Police Harry Weatherbee and deputy chief Earl England were the first to have their fingers rolled over the inked slabs.

The prints were taken to avoid any confusion with other finger marks found in the home of Mrs. Smith. The officers have been handling various articles in the house since the aged invalid, her

1726 MEMBERS NOW REPORTED IN FOX ASS'N.

National Organization Reports Good Progress During The Past Year

At the recent annual meeting of the C. N. S. F. B. Association, a communication was read from the Welcome Research Laboratories of London, England, in regard to the work in connection with the stamping out of the fox distemper. The question of further work on their part for the Association was discussed and left with the Incoming Board of Directors to deal with.

There were no resolutions or changes made in the Constitution of the Association.

The meeting consisted chiefly of routine business, election of officers.

All the speakers were optimistic in regard to the future of the Silver Fox Industry.

The director's report showed the present membership by Provinces is as follows:

Prince Edward Island, 324;	New Brunswick, 310;	Nova Scotia, 153;	Quebec, 234;	Ontario, 271;	Manitoba, 117;	Saskatchewan, 57;	Alberta, 115;	British Columbia, 111;	Other Countries, 34; Total, 1726.

The 1932 Field Inspection work was conducted under favourable weather conditions. Twenty-three Inspectors and two Interpreters were employed. The work commenced simultaneously all over Canada on October 15th and, was completed with the exception of a few isolated cases, by December 25th.

The following is a list of adult foxes and puppies inspected in the various Provinces of Canada during the 1932 inspection season.

Province	Adults	Pups
Prince Edward Island	7086	7994
New Brunswick	2795	3233
Nova Scotia	849	1041
Quebec	3060	3694
Ontario	3731	4121
Manitoba	1371	1810
Saskatchewan	912	1252
Alberta	2462	2364
British Columbia	1303	2081

The cost per pup by Provinces is as follows:

Province	1932 compared with 1931
P. E. I.	27c .42c
N. B.	51 .51
N. S.	66 .80
Que.	67 .80
Ont.	46 .64
Man.	41 .54
Sask.	54 .73
Alta.	58 .82
B. C.	50 1.00

This record compares favourably with that of other years.

The personnel of the Inspection for Registration Committee for the year 1932 being the same as 1931, the Chairman, Mr. Geo. A. Callbeck again set the standard for the Inspectors to follow. Mr. Callbeck's labors in this connection in the past years are already bearing fruit as a noticeable improvement is evident this season in the quality of pelts consigned for sale through our Marketing Department.

The report states that the disease epidemic, which caused members so much concern and some of them financial loss, has been completely eliminated.

The report also shows the finances of the Association to be in a healthy condition. While the balance shows a deficit of \$19,000 for the period under review, this was forecasted in the report of July 13th, owing to the change of the fiscal year from May 31st to December 31st. Revenue on account of seasonal operations received previous to May 31st was credited to statement of that date. To meet this deficit the Directors were obliged to dispose of \$15,000 of securities. The securities at May 31st, showed a market value of \$146,599.75. Since that time the directors sold \$15,000.00 of these securities. The present market value of the securities remaining amount to \$146,107.50 showing an appreciation in this period of approximately \$15,000.00.

A necessary change in the office of the Secretary was made, and Mr. G. H. MacCallum succeeded Mr. S. Wright temporarily on December 29, 1932.

To date the Marketing Department has received a consistent demand for the product at prices somewhat enhanced over last year.

head beat in with a club and her throat cut, was found dead last Friday night.

As yet, they have received no report from Ottawa regarding sets of bloody fingerprints, left behind by Mrs. Smith's slayer in his search of the house after the murder. Nor have they located the club with which she was struck. The \$128 stolen from her home is also missing.

The BEST way to stop CONSTIPATION

Nothing like Fruit-a-tives

"I was in a very bad way with constipation. My stomach was off-colour and I kept having headache after headache. Quite frequently I had severe pains in my joints and muscles. The general effect was very depressing. Indeed, I felt so wretched that I was about to give up work. Today my health is excellent and I certainly feel that 'Fruit-a-tives' played a large part in bringing this about. They toned up my entire system."

THE INDIRECT COSTS OF DRINK

The Drink Traffic involves a big cash outlay—certainly over \$200,000,000 annually in Canada. That is by way of comparison, four times our total fisheries production, four times our Coal Output. The cash cost is thus seen to be a tremendous item in our national enterprise. All this is to be reckoned an absolute loss. It is much worse than waste. It is spent to the positive injury of the country—for the crippling and hampering of our national effort.

But this is only the beginning of the costs, the direct charges on our national cash income. When we turn to the indirect costs, these are found to be much greater. They are subtle, insidious, and in large measure actually incalculable. They are the charges on the nation resulting from misery and want, vice and crime, ignorance and incompetence, corruption and bribery. A British writer in the Christian Science Monitor appraising the effects of the Drink Traffic in that country emphasizes the three following items.

1—It is a Cause of Poverty: An impartial and authoritative survey has been made by a committee of distinguished British economists and sociologists. These findings have recently been published in a volume entitled "The Social and Economic Aspects of the Drink Problem." Here are a few sentences from the report: "From 25 to 30 per cent of the whole of the poverty in a typical working class district is caused wholly or partly by drink. Drink is a predominant cause of 'secondary' poverty—that is poverty in families where the income would be adequate to provide for the necessities of life if part of it were not expended wastefully or extravagantly."

2—It is a Source of Crime: The survey of British conditions referred to above indicates that in addition to provoking 40 per cent of the more common offences, drink is a contributing factor—in many cases a controlling factor—in 25 per cent of cases of violent crime, and in nearly 50 per cent of cases of assault and wilful damage. It is associated with 25 per cent of all divorce cases, and 15 per cent of cases of cruelty to children.

3—It is an Agency of Corruption: The influence of the Drink "Trade" upon British politics, practically always contrary to the public interest, has been condemned by several Prime Ministers and one ex-Speaker of the House of Commons. The Brewing Interests are a corrupting influence at elections, and in parliamentary life.

Great is the cost of Booze to those who lack sobriety; But greater still the cost in want and crime to all society.

Tryon and Vicinity

His many friends are pleased to know that Dr. Genge, Pastor of the Presbyterian Church at North Tryon, has recovered, and is about again after being confined to his bed for a few days with the flu. Mrs. Genge, who has been away to Boston, has returned home.

Mrs. Ed. Leard, of North Tryon, is spending a few days the guest of Mrs. Hamilton Leard, of Tryon.

Mr. Philip Holland, of Tryon, had the misfortune to have a goodly portion of his cats stolen recently. The thief or thieves invaded his granary one night and helped themselves. Mr. Holland on noticing his loss the next morning, immediately took steps to save the balance by purchasing a lock for his door, but was surprised to find on the following morning that the lock was broken and more grain gone. Much petty stealing has gone on this year and it is to be hoped that the thieves will soon be brought to justice.

To Mr. and Mrs. Victor Ferguson, (nee Miss Annie Calbeck), of Tryon, a son, weighing 9½ lbs. Congratulations.

A miscellaneous shower was tendered Mr. and Mrs. Norman Wood at their home in North Tryon, on Monday evening of last week. Al-

though the roads were in poor condition about forty friends and neighbors gathered and enjoyed a pleasant social evening. The committee in charge had arranged games, which whiled away the hours too quickly. Mr. and Mrs. Wood were then placed in the seats of honor and presented with many useful gifts, showing the esteem in which they are held by their numerous friends. Miss Margaret Waller read the accompanying verses and Miss Ethel Leard presented them to the bride. Mr. and Mrs. Wood thanked the assembled guests very kindly for their thoughtfulness. Refreshments were served by the ladies, after which everyone left for home, after wishing Mr. and Mrs. Wood every happiness in their married life.

There passed peacefully away at Tryon on Saturday morning, February 4th, after only a week's illness, Mrs. Martha Gamble, widow of the late Thomas Gamble, of Tryon. Mrs. Gamble had reached the ripe old age of 88 years, but was unusually intelligent and active for her years. Her entire life had been lived in Tryon, so needless to say, she had many friends, and was well and favourably thought of by everyone. The funeral service was held on Sunday from the Baptist Church at Tryon, of which she was a faithful member, and conducted by her pastor, Rev. Mr. Crossman. Left to mourn her irreparable loss is one daughter, Mrs. Florence Clark.

BEDEQUE

Mrs. Harry Simmons of Wilmot Valley who underwent a very successful operation in the Prince County Hospital is recovering nicely.

The members, accompanied by their wives, of the Orange Lodge Branch of Kensington, gathered at the home of Mr. George Glover of Norboro, Thursday to spend the evening with Mr. Glover, who is the oldest member of that Lodge, and a faithful follower and member for some fifty years. When everyone had gathered Mr. John Sharp, was appointed chairman and in a brief address expressed the object of the members gathering. Rev. Mr. W. S. Loring, Mr. Heath Frizzell, Mr. Charles Sudbury, Mr. A. Ramsay and Mr. W. Sudbury, made very suitable speeches which were greatly appreciated by Mr. Glover, who in a few words expressed his pleasure, in having his friends to visit him. A suitable reading was contributed by Mr. Sharpe. The remainder of the evening was delightfully spent in musical selections, and social discourse. The entertaining hostesses served delicious refreshments, and before leaving the guests wished Mr. Glover many, many years with the Lodge, and a fond goodnight.

The many friends of Mr. Charles Wright of Centreville Bedeque, will be pleased to hear that he is steadily regaining health, from his recent illness.

The regular weekly meeting of the Young People's Society of the United Church at Centreville Bedeque was held Wednesday evening February 1st, and a very interesting meeting was carried out. The devotional period followed the opening, scripture passages were read by Miss Grace Deacon, and the explanation by Mr. Arnold Henderson. Rev. Mr. Archibald offered prayer. Miss Silvia Myers presided at the organ. Roll call was responded by a fair attendance. A reading was given by Miss Winnifred Wright and a very interesting talk by Rev. Mr. Archibald followed by the Misses Benediction.

A very successful entertainment was given in the Hall of Summer-

of Tryon, who lived with and tenderly nursed her mother during her illness. The sympathy of the entire community is extended her, for her loss is great indeed. Mrs. Gamble was laid to rest in Westmoreland Cemetery, beside her husband. The pall bearers were: Messrs. Arthur Halliwell, Webster Boulter, Brewer Auld and E. Schurman.

Miss Victoria MacLean, of Tryon, spent the week end in Summerside.

Mr. and Mrs. Wilfred Boulter, of Charlottetown, arrived in Tryon on Saturday and returned on Monday. They were guests of Mr. and Mrs. Spurgeon Clark.

Mrs. Elmer Dawson and son Kenneth, of Augustine Cove, were Sunday visitors to Tryon.

Mr. William Lea, of Summerside, is spending some time, the guest of his brother, Mr. Wendell Lea, of Tryon.

Mr. Max Thompson, of North River is spending a short visit in Tryon visiting relatives.—D.

The proceeds were very satisfactory and a jolly evening's entertainment given.—B

HOCKEY

Ramblers, 4; C. N. R. 2.
 The third game between the Ramblers of Southport and Bumbury and a team from the C. N. R. was played at the Arena Wednesday night, Feb. 8. The Ramblers won by the score of 4 to 2. This leaves the standing a tie, each team having won one tied one and lost one, which shows how evenly matched these two teams are.

The first period ended 1-1, Bob Nelson scoring for C. N. R. and Geo. Mason on a hard wing shot for Ramblers.

The second ended 2-2, Bob Nelson again nothing up the point, while Bill McCarron, rangy right winger, got the second for his team.

The third started with the Ramblers swarming all around Mills and in three minutes of play, Lorne Kelly, the midset left winger, poked the winning goal under Mills. The C. N. R. tried hard to even the score, but Kenny McInnis, one of the Kid Line, made it 4 to 2.

The linemen:
 Ramblers—Goal, Wood; Defence, Jiggs McDonald, W. McDonald, Sheldon Smallwood; Forwards, L. Kelly, K. McInnis, G. Mason, W. Kelly, Bill McCarron.
 C. N. R.—Goal, Gordon Mills; Defence, H. Douglas and E. MacDonald; Forwards, J. F. Gordon, J. R. Nelson, Arnett Howatt, Bill McDonald, George Hennessey.

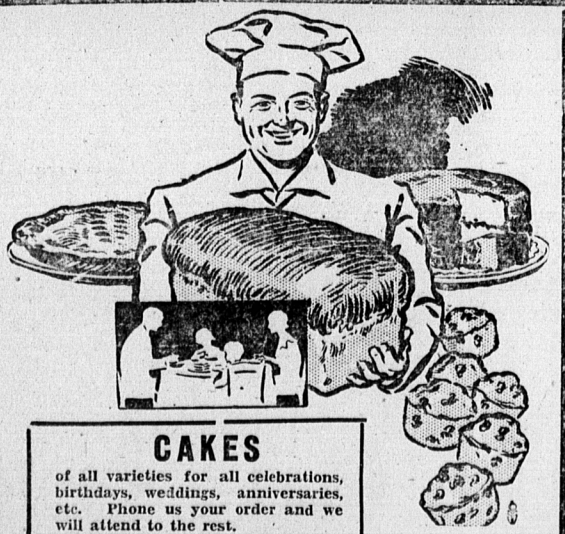

NORTH SHORE LEAGUE HOCKEY

On Friday night, Feb. 2nd, at Kensington rink, the New Annapolis Stars sprung a big surprise by winning over the hitherto unbeaten Indian River Rovers in a very close hard game. The lone tally by New Annapolis was a reward for persistent aggressiveness. The ice was soft, which militated to the disadvantage of the speedy Rovers. The five McKay brothers of the New Annapolis team certainly put some foot pounds of energy in the game—being "dead on" the disc almost continuously. By the way, those Columbia University "Technocrats," in nation wide energy survey, would require to use some hitherto unheard of calculus to figure the correct number of foot pounds of energy used in one of those games. The game was refereed by Orville Darrach.

New Annapolis—Goal, G. J. Driscoll; Defence, D. McKay and N. McKay; Forwards, Ed. McKay, G. McKay, B. McKay, F. Casley, D. Schurman, Art Wright, J. Marchbank, J. Tuplin, A. Kennedy.

Indian River—Goal, G. C. Tuplin; Defence, H. Easter, R. Craig; Forwards, K. Mann, R. Heckbert, r. Crozier, R. Easter, G. Murphy, E. Mann, S. Heckbert.
