MARSHFIELD—Large quantities of beef and pork are being fed in this district for the spring market. Fruit growing is receiving good attention here. Some large orchards are coming into bearing. One of the largest is that owned by F. W. C. McDonald which comprises several acres of standard varieties. Our roads have been seriously damaged by the late frosts. Allan Stewart, our leading merchant who has been very ill, during the last few weeks, was pleased to learn that he is now in health. David Ferguson who has opened a store here is now supplying the wants of the people in this community who find it a great convenience at this season of the year. Our school is making substantial progress. The senior department is under the able management of Miss Irene McBeth who is a member of one of the oldest and most highly respected families in this community. The Junior department is ably conducted by Miss Ethel L. Line of Charlottetown, a young lady of splendid ability who is much respected by her pupils. Both our lady teachers hold first class licenses and are considered first in their profession. The choir in the Presbytery church is rapidly improving under the faithful leadership of J. T. Ferguson. The newly appointed organist, Mrs. Belle Thompson, giving every satisfaction.

J. C. F. PARKER, one of the prosperous business men of Charlottetown, N.B. and formerly of Charlottetown, P. E. I., writing to The Guardian in answer to his subscription says: "We had the honor of having the President of the United States in our town for a few minutes as he passed through on his way to the National Park. I have seldom ever seen anyone so glad to meet old friends as he was, a king for boys that worked with him on the range 17 years ago. 'Is Joannie Goodall here?' 'Is Charley Rowe here?' and as the boys came forward and received a hearty shake and war-mreeting, thoughts of bygone days would come to their minds or he would recall some little incident that happened while on a round-up that would bring forth a hearty laugh from the crowd and they would forget for the time being that they were talking to him in the presence of the President of the United States. One thing does stand out in my mind as he passed through. It did not swell his head to make him think that he was just the same Teddy he was when he was twenty years ago. J. H. Armstrong of Lower Montserrat, reached here on the evening of March 21st, just four days from Georgetown. He made good time. He drove out to his ranch next day and was delighted to find his stable and sheep had wintered so well. Out of a flock of one thousand sheep he only lost three and in his 70 odd head of cattle there was no loss."
