

IF YOU CATCH COLD.

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly poisons this. Then the very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way results in lung troubles that are called by serious names. It is in this irritated bronchial tube that the germ of consumption finds lodgment and breeds. Great numbers disregard a cough at first and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well known remedy and it is the surest and quickest cough cure known to-day. It does not deceive by drugging the throat. It soothes the irritated parts and heals them, then the cough stops of its own accord. The action of this medicine is so simple that it seems like nature's own provision for curing a cough. Every druggist has it, 25 cents. Be sure to get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

TRYING TO PROVOKE A WAR.

The people of Germany, especially the lower and ignorant classes, are doing their best to provoke a warlike feeling against Great Britain. Germany is suffering from business depression, and in such circumstances it is easy to foment trouble, therefore the agitation is the more dangerous.

TOOTHACHE CURED IN ONE MINUTE.

Not only toothache, but any nerve pain is cured instantly by Polson's Nerviline. Thousands have testified that its powerful, penetrating, pain-subduing properties make it an absolute cure for neuralgia, rheumatism, toothache, cramps, colic and all other pains and aches that beset mankind. The world is challenged to equal Nerviline as a household liniment. Large bottle 25 cents.

THE YUKON TROUBLE.

The Yukon trouble appears to have been and perhaps may still be one of considerable menace. A large portion of the population of the district is made up of foreigners who have little sympathy with British or Canadian rule. They are mostly adventurous spirits gathered from mining camps in the United States and elsewhere, who are accustomed to carry arms and to settle their own disputes in summary fashion. Moreover the Yukon gold region lies just on the margin of Canadian territory, and the natural filibustering instincts of this class of persons has suggested the possibility of first proclaiming an independent republic after the manner of the Texas episode of a generation past, to be followed by incorporation into the possessions of the United States.

The foundation grievance has been that the Dominion has heretofore exacted a 10 per cent royalty on the gold mined in the Yukon district. The miners object, partly because the tax is too high, but mainly because they do not want to pay any royalty at all. This is unreasonable as it is necessary that the very considerable cost of maintaining order and government should be paid by the products of the mines. We note, however, that Hon. Mr. Sifton in a speech delivered a few days ago announced that the royalty will be reduced to half the present rate. What effect this will have upon the revenue remains to be seen. There is no doubt that the 10 per cent royalty led to much concealment and fraud and it may be that at five per cent more than half as much revenue will be realised. The promise of a reduction may also have a conciliatory effect upon the miners.

It now appears, however that nothing but the presence of a strong body of mounted police, and the timely discovery of the plot prevented very serious trouble. As it turns out the chief plotters are beyond the Canadian border and cannot be arrested. The chief danger arose from the comparative inaccessibility of the Canadian gold region and the fact that is shut in by the United States territory of Alaska. With a revolt once broken out in the Yukon, arms and ammunition as well as men from outside points would no doubt be furnished. The chance of plunder would be considerable. The greatest difficulty would be experienced especially during the winter season in getting Canadian or British troops into the country. In any case an armed expedition to the Klondyke region would be a matter probably of millions in cost. It is well therefore that a force of mounted police were on the ground at the first symptoms of serious trouble, and it would seem prudent that this force be promptly strengthened and made ready for a possible emergency.

It is stated that municipal taxes in Paris run up some years as high as \$100 per head of the population. If Charlottetown were taxed at this rate the city taxes for a year would be over \$1,200,000. And then what a "kick" there would be!

The London, Ont. Daily News thinks it probable that Premier Ross will not at once propose a prohibitory law for Ontario, although he is pledged to do so when the Privy Council has declared provincial prohibition to be constitutional. The News suggests that a bill be prepared and submitted to the people for approval. And this after two plebiscites have been already taken on the subject! The crooked wriggling ways of party men in regard to liquor regulation are past finding out.

No woman has yet been admitted to the practice of law in the British Isles and the Colonies generally have followed the same line of confining the legal profession to the male sex. In the United States however, the male monopoly has been broken down in twenty-four out of the forty-five States. Women are now daily practicing in the courts of the great States of New York, Pennsylvania, Ohio, Illinois, Missouri and Indiana, and in all the New England States save Vermont and Rhode Island. It was not till 1900 that women lawyers first figured in the U. S. census, when the profession numbered 89,422 males and 208 females. The latter multiplied at least fourfold during the ten years down to the close of last century.

According to the esteemed Examiner we have much to be thankful for—"but there are drawbacks". There are too many Liberal Governments in power, placed there by the people, no doubt, "but all must suffer for their folly." Still, after the manner of extracting sunbeams from cucumbers, the Examiner finds possible compensations. If we were better

governed "we might become proud and self-important, perhaps insolent, and so incur the displeasure or hatred of our neighbors, or we might excite their cupidity and greed,—and in this way bring about the national downfall of our country." The reader is left to infer from the Examiner's reasoning that corrupt and extravagant Government may be necessary to prevent Canada's downfall. Those who accept this conclusion may follow the example of the colored man who was offered a choice between destruction and perdition and decided to "take to the woods."

According to the Winnipeg Free Press the liquor men admit a depreciation of 25 to 60 per cent in the value of their properties as the result of the Privy Council decision sustaining prohibition. One of the largest bottle dealers in the Northwest has sent out instructions to his twenty-eight pedlars to collect no more bottles. Twelve city clergymen were interviewed in regard to the decision by the Free Press, and of these ten responded with varying degrees of favor, the majority being jubilant. Two clergymen declined to say anything. These were Archdeacon Fortin and Rev. Principal Patrick.

Rheumatism-warped Limbs, Pain and Suffering.

Not a Trace of Rheumatism Left After Using Dr. Chase's Kidney-Liver Pills.
If you are a sufferer from rheumatism it is possible that you have tried many remedies without reaping much benefit. Judging from the number of cures that have been reported, Dr. Chase's Kidney-Liver Pills must be about the best medicine obtainable for rheumatism. It cures thoroughly, by ridding the blood of uric acid poisons, the cause of rheumatism and severe body pains.
Mr. S. Mann, Stittsville, Carleton Co., Ont., writes: "I was afflicted with rheumatism, had severe pains in the knees, hip joints and across the back. Rheumatism remedies did not help me and I began using Dr. Chase's Kidney-Liver Pills, which have since completely cured me. There is not the least trace of rheumatism left, and I am no longer subject to biliousness, headache and stomach sickness, which formerly attacked me frequently."
Dr. Chase's Kidney-Liver Pills have a larger sale by far than any similar remedy. They cure when others disappoint. One pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

THAT Hot Water Bottle
of ours at 75c—is good value (examine it). Our guaranteed Hot Water Bottle at \$1.00 is a dandy.
A still better one at \$1.50—pure gum rubber can be pulled a yard long.
A one piece one we show at \$1.75 is exceptionally fine for the money.
In fact we show a very fine line all through and the prices asked should sell them.
One should be in every home in case of sickness.

EXCELLENT LECTURE

Here And There In Europe

BY REV J.W. McCONNELL

Delivered Last Night In Grace Church to a Large Audience.

A large and attentive audience was present in Grace church last night to hear Rev. J. W. McConnell lecture on Here and There in Europe. The lecturer was introduced by Mr. J. D. Seaman who discharged the duties of chairman. In passing from Liverpool to the Continent Mr. McConnell referred to only two of his experiences, one in Liverpool at Wellington's Monument where an Anarchist of the rankest type was exciting a large gathering to the pulling down of British institutions and the overthrow of all persons standing high in the national life. It was a great surprise to a Canadian spending his first hours on English soil that such a rascal could come there day after day and engage in such work. His other experience was in the British House of Commons where he was permitted to spend an agreeable afternoon through the kindness of Hon. Edward Blake. On that day the bill of fare was particularly attractive. He heard Balfour, Chamberlain, Campbell-Bannerman, John Redmond and others, and was an eye witness to the disgraceful scenes attending the suspension of O'Shea a prominent Irish representative. This session proved to be one of the liveliest of the past summer. After crossing over the North Sea and making a delightful trip up the River Scheldt he reached Antwerp, one of the largest shipping ports of the world. Here was another language, another currency, another architecture and in many respects another life. Brussels was next visited with its handsome well kept streets and its beautiful public buildings. In many ways Brussels is not unlike Paris. From Brussels Mr. McConnell took his audience to Waterloo, where under the Duke of Wellington, "the man of Destiny" received his death blow. From that famous battlefield Napoleon began his mournful march to St. Helena. Upwards of 50,000 brave men went down on that memorable day in June of 1815 and over the remains of many thousands of them the Lion mount is set up. At Cologne there is what is regarded by all architects as the most magnificent Gothic edifice in the world. Its stupendous size, the beautiful harmony of all its vast members, the endless variety of individual design so wonderfully blended, make it an object that justly excites the admiration of every beholder. Cologne was the place where some of the Roman Emperors lived—the city at one time was a Roman Colony. Here also is the church of St. Ursula around whose sides are placed the bones of 11,000 virgins said to have been martyred. The trip up the Rhine to Mayence was one of the most enjoyable parts of the entire tour. Reference was made to the miles of vineyards, the flourishing towns, the old castles, the great variety of craft one sees on the river, and also to some of the historic memories that cluster about the Rhine. Heidelberg with its university and old castle, and Lucerne with its beautiful situation and many attractions came in for consideration. The trip over the St. Gothard Railway from Fluelen to Milan was described. The great tunnels, the ravines wilder than painter ever put upon canvass, the snow capped mountains, the beautiful lakes with their waters of crystalline clearness, the lovely villages peacefully sleeping in the shadows of these Alpine heights, all make up a picture never to be effaced from the memory. At Milan is the eighth wonder of the world in the way of its great Cathedral. There is about this temple a richness and beauty and glory that lift it, in many respects, above all the other Cathedrals of Europe. An interesting account was given of Venice, the Queen of the Adriatic. The canals, gondolas and gondoliers, the majestic beauty of St. Mark's Cathedral, the Palace of the Doges, the Bridge of Sighs, the old prison, the Rialto made famous by Shakespeare and many other places and sights were dwelt upon. Florence, the home of Dante and Savonarola, and Michael Angelo and Galileo and the Medici family was visited and from here the lecturer went to Rome. His spoke of many of its old ruins, some of its great Cathedrals such as St. Peter's, St. Paul, St. John Lateran and others, the Vatican, Appian Way Catacombs, etc. From Rome he journeyed to Naples, the noisiest and dirtiest city in Europe. It is probably the most beautifully situated city in the old world, resting as it does against a semi circle of mountains that run along a splendid bay. From here an excursion was made to Mount Vesuvius and also to the buried city of Pompeii. At the close a vote of thanks was moved by Mr. C. C. Gardiner, seconded by Premier Farquharson and duly presented.

DON'T GO HOME, if you have not got at least one bottle of Kendrick's Liniment in the house. Don't go home without it. There is nothing better (if equal) to Kendrick's as a household remedy.

A Special Sale This Morning
A great array of fetching styles, from the plain little hem stitched affair to elaborate creations, trimmed and embellished in gorgeous fashion.
