CANADIAN SHOES FOR CANADIAN PEOPLE

The Price of Shoes vs. The Price of Other Things

It has been said that "comparisons are odious." And so they are—as a rule.

But it has been so repeatedly stated that shoe prices are "excessive" or "ridiculous," that we feel justified in making a comparison between the present price of shoes and the price of some other things that we buy.

The following prices are from Government statistics and cover the period from January, 1914, to January, 1920.

Table with 2 columns: Commodity, Price Change. Includes Iron and Steel (128%), Average wholesale advance in all commodities (145.4%), Advance in price of Fruit and Vegetables (153.2%), Advance in price of Textiles (206.2%), Advance in price of Western Grains (257.6%), Advance in price of boots and shoes (118.2%).

Shoe prices had to increase—naturally. The price of everything that enters into a pair of shoes has gone up tremendously in late years. For instance, hides have advanced 154.6 per cent. in six years. One of the principal materials used in making fine shoes has advanced 500% in the same period. In fact, there is no single commodity used in the manufacture of shoes that has not advanced by leaps and bounds during late years.

But in spite of this a close margin of profits, efficient manufacturing methods, and keen domestic competition, has resulted in lower prices than the above advances would seem to make inevitable.

These comparisons will show why shoe prices are higher—they have simply followed in the wake of general advancing prices.

But, in Canada, they are neither "excessive" nor "ridiculous," but proportionately lower than most other things.

The Shoe Industry in Canada is an efficient and competent one—making shoes for the Canadian people which, grade for grade, are as low, or lower in price, as shoes obtainable in any Country.

Canada produces footwear of every desirable type, and of standard quality in all grades. When you buy Made in Canada Footwear you are assured, at fair prices always, of the utmost that modern skill can produce in Comfort, Service, and Style.

Was Miserable Says Mrs. Begin

INDIGESTION MADE LIFE HARDLY WORTH LIVING BEFORE TANLAC RESTORED HER.

"I feel like an entirely different person since taking Tanlac, and I just can't praise it enough," declared Mrs. E. Begin, of 135 Des Posses, Quebec.

"For two years before I tried Tanlac I had indigestion so bad that life seemed hardly worth living. I had no appetite to speak of and even the smell of food cooking would nauseate me. I could eat nothing without suffering terribly on account of gas which bloated me up till I could scarcely breathe and I had such pains in my stomach after every meal I could hardly stand it.

"At times I became so dizzy I had to hold on to something to keep myself from falling and my nerves were so unstrung the least little unusual noise would make me jump. My sleep at night was very restless and I always rose in the morning feeling tired out. I got so run-down at last the housework was too much for me and I became very depressed about my condition.

"But the way Tanlac has built me up is nothing less than wonderful. I now have a splendid appetite and can eat anything I want without suffering any distress afterwards. My nerves are just as steady as can be and I am not bothered with dizzy spells any more. I sleep like a child all night and get up in the mornings feeling so rested and refreshed, my housework is no trouble to me at all. I just think there's nothing in the world like Tanlac, and tell others about it every chance I get.

Tanlac is sold in Charlottetown by Reddin Bros., in Montague by H. J. Mahon, J. P. White, Murray River, H. M. Chisholm, North Tryon, R. H. Cameron & Co., Crapaud, and H. P. Cochon, Murray Harbor.
