Are You Sure Your Children's Eyes Are Right?

A responsibility rests upon every parent to give his child every possible advantage in life; to give the child the best of weapons with which to meet the struggle of the years ahead. Surely good eyesight is "the priceless gift" that your child should have. Remember that poor eyesight means poor concentration and will retard the youngster's progress. Many a child considered dull or lazy in school or music studies has simply been suffering from defective vision. And often correct glasses have changed entirely the record of performance. Perhaps your youngster's report-card is reflecting the presence of eye-strain. Perhaps you are not doing your own child full justice. Have an examination made and know. Consult

DR. E. C. HARRIS, for prompt and efficient service at the Clinic Building. Hours daily from 9.30 to 12.30—2 to 5.
