THE CHARLOTTETOWN GUARDIAN

THURSDAY, JANUARY 27, 1910.

LET THE PORT BE TESTED AS A WINTER PORT.

It is now well on toward mid-winter and it is satisfactory to note that the service by the winter steamers has been this season the most satisfactory for many years. It is true that the winter has been so far one of exceptional mildness, with little very heavy ice in the Straits. And the new and more powerful steamer affords the means of rendering better service than heretofore.

It is a great boon to shippers and to the travelling public, not only of Charlottetown, but of the central and western portion of the Province, to have the direct service from this port to Pictou maintained so long as it has been with some prospects for the future. Our representatives have taken an active and effective interest in this matter. They have had the steamer brought back to this route, with the understanding that tests will be made at intervals during the remainder of the season to prove the practicability of this port as a winter port.

We regard this as a distinct gain and an earnest that our winter disabilities may never again be quite so bad as they were sometimes in the past. It is surely reasonable that the principal port of the Island shall be kept open throughout as much of the winter as it is practicable to do so, and our representatives will have the hearty support of the entire community in the most strenuous efforts that may be put forth in that behalf.

Our people have complained loudly in past years that all was not done that might have been done and the Guardian has freely voiced the general complaint. But the people do not complain without cause. It is much more pleasant to be able to speak in words of commendation for good service rendered than to complain of unsatisfactory service. If further lights or marine signals are necessary to navigating the direct route, they should be supplied. In the meantime it is pleasing to find this year's service so far the best we have had and to know that this port is now, for the first time to be tested with a view to its being made the regular winter port of the Province.

MATTERS AFFECTING THE CIVIC ELECTIONS.

We are of those who think that Charlottetown has been well governed for some years past, a matter of credit to successive Mayors and Councillors. All humane institutions are necessarily imperfect, but as civic governments go, it would appear that ours would not suffer by comparison with others in Canada. It is most desirable that this record should be continued and improved upon.

As the civic election is drawing near, attention is naturally drawn to some amendments needed in the civic charter in order to secure a more free and independent expression of the citizens at the polls. In the first place, the ballot is needed, and with it penalties should be provided for the offence of bribery. As the law now stands, the individual voter may be compelled to take the bribery oath, but no punishment seems to be provided for those who bribe or intimidate voters or who attempt to do so.

In the latest federal and provincial elections there was a commendable absence of the corrupt use of money and whiskey. This happy condition was brought about largely by the Moral and Social Reform League, which aroused public sentiment on the question and secured the cordial co-operation of candidates and election workers. It might be, and we think it would be well, if the Reform League were to become active in the civic elections now near at hand.

Regrettably there has been in the past some evidence of improper influences at work in our civic contests. The law being defective, as above pointed out, has been in part a contributory cause of this. Still, much may be done by active interest and moral suasion if the Reform League will take the matter in hand. We believe that all the reputable candidates for the Mayoralty or the Council would pledge themselves to conduct a pure election and would co-operate to that end if respectfully solicited to do so by the League on behalf of the community. At least it seems well worth while to make the trial.

TO CURE A COLD IN ONE DAY.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

MARITIME REPRESENTATION.

The Maritime Province members of the Senate and House of Commons held an important caucus on Saturday last, when without distinction of party they united in unanimously demanding that the representation of the three Provinces ought to be maintained at the same number that had on entering the union. It is a good move, whatever may be the immediate outcome of it. It is highly satisfactory for once to find the three Provinces acting solidly together and making common cause without party difference.

Of course there is an obstacle in the way of conceding their request. The British North America Act would have to be modified. But what is asked for is simply an act of justice. Millions of money to which these Provinces have contributed without stint, has been expended not only to develop the west and fill it with people, but to lure the maritime people away to the west. It is by the act of the Dominion, well-intended no doubt that the east has been deprived both of population and representation. The restoration of our original quota of members could not possibly harm or menace the big central Provinces or the growing west. The united request of the Maritime representatives ought therefore to be and we hope may be generously received and acted upon by the majority in Parliament.

In reply to Mr Foster it was stated the other day by Hon F. Oliver that scrip had been issued to 6,678 South African Veterans, covering 2,136,960 acres. On these there have been located 2,748 land certificates covering 879,360 acres. This leaves in the hands of the Veterans or their substitutes 3,930 certificates covering 1,257,000 acres.

A NEW BOOK.

Preachers, teachers and Bible students should own a copy of "Bible Lessons." It contains twenty-one chapters. Size 4½x6¾ inches. Well printed and durably bound in cloth. It sets forth in a simple, forceful style the first principles of doctrine, and tells all about the second work of grace or entire sanctification, giving most helpful lessons from Old Testament types. It contains clear and conclusive arguments against the polar errors and heresies that Satan has foisted upon the world to deceive and ruin souls.

Price per copy, prepaid, $0.50.

CARD

To the Electors of the City of Charlottetown.

Ladies and Gentlemen:—Yielding to a large and influential requisition presented to me this day I have consented to nominate as a candidate for the position of Commissioner of sewer and water supply for this City.

Having served nine years at the Council Board I feel that I am fairly conversant with civic matters. I have always taken a deep interest in our water and sewerage system and if elected will use my best endeavors to extend and improve the same in the most economical manner so as to give the best possible service to all citizens.

As the time is very short it will be impossible for me to make a personal canvass, therefore I respectfully take this opportunity of soliciting your support and influence in the coming election.

Yours respectfully,
D. STEWART.
Ch'Town, Jan'y 26, 1910. 1—27dtf.
