GRAIN

CHICAGO, Oct. 1.—(AP)—A rally of more than two cents a bushel in wheat prices Saturday halted the week's slump based partly on Europe's peace talk which had wiped out a good share of the September war boom advance.

Wheat shot up more than a cent at the opening and later extended the gains to as much as 2 1-2 cents, closing near the signs of 2 1-8 to 2 and 3-8 higher than yesterday, Dec. 84-2-3-0, May 85-8-7-8. Other gains followed this advance, corn closing 1-8 1-2 up, Dec 50 7-8, May 53 7-8-54, oats 3-4 1-3 higher, rye 1-4 3-4 up and lad 30 to 27 higher.

Winnipeg, Oct. 1.—(CP)—Wheat future prices scored good gains on the Winnipeg grain exchange Saturday as buyers responded freely to a strong display at Chicago and continued lack of moisture in the United States winter wheat belt. Quotations fluctuated actively through out the short session before closing 1-8 cents higher, Oct. at 71, Nov. 72 3-8, Dec. 73 and May 73 8-3-4 cents.

Buenos Aires lost 3-8-1-8 cent. Winnipeg, Oct. 1.—(CP)—Closing future quotations: wheat-Oct. 71B, Nov. 72 3-8B, Dec. 73B, May 77 5-8-3-4; oats-Oct. 33 1-4B, Nov. 32 5-8A, Dec. 31 5-8B, May 32; barley-Oct. 45 5-8A, Dec. 31 5-8B, May 45 1-8-1-4.

THE GOVERNMENT TESTS ALL GAS AND ELECTRICITY METERS...

for accuracy

BECAUSE the inspection and testing of meters is carried on continuously the meter that is found to have developed the slightest defect is promptly removed from service. All meters installed for the purpose of computing the amount of electricity or gas that has been used—and for which a charge is established—all such meters are required by acts of parliament to be inspected every six years. To control and inspect the approximately 2,658,317 meters in use in Canada, 20 offices have been established throughout the Dominion. These are in charge of the Electricity and Gas Inspection Branch of the Department of Trade and Commerce, Ottawa.

ALL METERS ARE INDEXED

Canada is divided into twenty districts; each with a senior officer of the Electricity and Gas Inspection Service in charge. About 100 inspectors operate from the combined 20 offices. Each office keeps a complete record of meters in the district and all records are kept up-to-date and instantly available. The meters inspected range in size from the smallest required for domestic use, to the very largest employed for industrial and commercial purposes. Every meter in use bears the government seal which signifies that the meter was inspected and found accurate. This seal also prevents the meter from being opened and tampered with. Government supervision of this kind forms a

protection for all Canadian Citizens who buy or sell electricity, manufactured gas or natural gas.

CANADA LED THE WORLD IN THIS SERVICE

For many years after gas came into use there was no periodic inspection of gas meters in any country in the world. But the Confederation of Canada had been established only 8 years when the Federal Government caused the Gas Inspection Act to come into force in 1875. Then in 1894 a similar Electricity Inspection Act was passed. In adopting these protective policies, Canada led all other countries. Known now as the Electricity and Gas Inspection Service, this branch of the Department of Trade and Commerce, is really the pioneer of this form of public service the world over.

NO METER CAN BE INSTALLED WITHOUT THE GOVERNMENT SEAL

The Electricity and Gas Inspection Acts render the Government responsible for the type of meters placed in general use. Before they can be used every type of meter must be approved. And every new meter of every type is inspected for accuracy before it can be installed for service. The seal of the Department of Trade and Commerce which is placed on all meters, is therefore of prime importance to the citizens who buy or sell electricity or gas.

This Government Seal is your guarantee that the meter has been officially approved, inspected and found accurate. The seal also prevents tampering with or manipulation of the meter's mechanism.

FINANCE

By Frederick Gardner Associated Press Financial Writer

NEW YORK, Oct. 1.—(AP)—The stock market wound up the week Saturday with a broad rally in the "war infant" shares which spread to other sections of the list, more than wiping out five preceding days of irregular or declining prices. Dealers were up fractions to around 5 points at the finish. 7-8 were St. Lawrence Corporation, Canadian Car, Doso and National Steel Car. Algoma Steel firm, one point and fraction. Nickel and Noranda gained 1-2 each while Hollinger held even. Total sales: 67,000 shares; Industrials, 53,000; mines, 14,000; bonds, \$500. Minard's kills main.

THE BAPTIST CHURCH

At the morning service yesterday the Rev. Harvey L. Denton, B. D. choe as the subject of his sermon "Counted Worthy." Basing his thought on the reference of Acts 1, the choice of a successor to the place vacated by the treacherous and treason of Judas the speaker mentioned the two considered for final choice. Not a great deal is known of them but it certainly is fair to infer that they were two men who were counted worthy to join the group. They were thought fitted to endure the test, maintain the witness. They were men who had proved themselves. They had accompanied Jesus; they had been faithful and blessed through favourable and discouraging conditions. We speak of the saints — perseverance makes saints.

Produce Prices

MONTREAL, Oct. 1.—(CP)—Buying vigor was present on the stock market Saturday and leaders pushed up fractions to two points. St. Lawrence paper preferred and Price Brothers advanced two points each. Bathurst and Howard Smith both gained 1-2 and point increases came out for C. P. R. and Dryden. Up 1-2 to 7-8 were St. Lawrence Corporation, Canadian Car, Doso and National Steel Car. Algoma Steel firm, one point and fraction. Nickel and Noranda gained 1-2 each while Hollinger held even. Total sales: 67,000 shares; Industrials, 53,000; mines, 14,000; bonds, \$500. Minard's kills main.

Daily War Survey

(By The Canadian Press) One of the ironies of the second great war is the changed position of Russia. That Communist-ruled nation, for a time regarded as an
