ABEGWEITS FALL BEFORE SAINTS

In a Magnificently Contested Game Yesterday.

At Times the Game Seemed in Doubt - A Very Large Number of Spectators were in Attendance.

Before the largest number of spectators that ever witnessed a football match at the C. A. A. grounds the Abegweits yesterday afternoon fell before the Saint Dunstan's team by a score of three to nothing in a magnificently fought, out and out, full of exciting incidents and abounding in spectacular plays so interesting to the onlookers. From start to finish the interest and excitement never for a moment lagged and never for an instant did the swiftness of the game abate, except when an injured contestant sometimes gave a brief breathing spell or a free kick caused a moment's lull.

At half past three the teams lined up and all were thankful for the promptness. By comparison the Saints, especially in the back division, appeared heavier. The forwards, as the game progressed, showed about equal strength but St. Dunstons were far superior in heeling out the ball. This feature of the game the Abegweits have yet to learn. The game opened with a rush by the Abegweits and in five minutes the Saints were compelled to rouse. Another five minutes and the tables were turned. The Saints gradually worked up and in spite of the Abbies' defence A. Doyle got over the line and scored a touch down. The kick for goal failed.

St. Dunstons 3, Abegweits 0. For the remainder of the half the Abegweits were on the defensive. The ball shortly went over the line and Moran roused. Toby McMillan by brilliant dashes and Bethune by dribbling relieved on several dangerous occasions. At one time a dribble took the pigskin to the Saint's 25 yards line. Here the Abegweits had a grand opportunity to score. They were awarded a free kick. McLean tried a place kick and failed to make a goal by a few inches. The Saints roused. A goal here would have scored three.

The ball gradually returns to centre and up to Abbie territory. Bethune again dribbles but F. McDonald saves by a run and the whistle blows for half at centre field. The second half was more evenly contested and greater excitement prevailed. The Abbies adopted dribbling tactics and did good work in that line. The ball went to the Abbies twenty-five at the kick of Jones dribbled to centre and Eric McLean took it to the 25 yard line. A moment later St. Dunstons were compelled to rouse and in a few minutes more Bethune caused the Saints again to rouse. McLean and F. McDonald make excellent runs for the Abbies and Saints. At the Saints' twenty-five C. J. and Toby McMillan made dashes for the line but could not get over. The Saints work down to the 25 yards and to centre. Here Eric McLean had the tendon of his knee ruptured and was compelled to retire. McInnis the Saints, full retired to even and Doyle took his place at full back.

The game reopened after the delay with a scrim at centre. The Saints are aggressive and get to the Abbies 25 yards. Lightizer and Trelnor dribble back to centre. Donahoe returns and the Abbies with a free kick made a gain. For the remaining ten minutes the Saints make desperate efforts to score and at several times were almost successful, once causing the Abegweits to rouse. The defence work was excellent and neither side could make a gain. When the whistle blew the ball was about the Abbies twenty five yards.

FROM THE GRAND STAND.

The St. Dunstons were superior in "heeling out" as the Abegweits were in dribbling.

McLean was examined by Dr. Murphy, Tignish, who was a spectator. The injury was pronounced a ruptured knee tendon and will necessitate Eric's retirement from the football field this season.

B. McQuillan made a good referee.

BETWEEN THE SCRIMS.

L.....: "Mr. Referee, Dan. Mc..... bit my thumb. What is the penalty?" Referee - Hydrophobia!

Something should certainly be done to keep from the track the spectators who thus obstruct the view of those on the grand stand. L. B. McMillan, in the absence of a police officer did good service in keeping back the crowd yesterday.

If the Abegweits desire to win they must train, TRAIN, TRAIN.

The St. Dunstan's claim they have the

STICK TO THE GOVERNMENT

Fiscal Question May Change Liberal-Unionist Attitude

But in the Meanwhile Stand by Administration His Majesty the King Expresses No Opinion.

LONDON, October 20 - The Duke of Devonshire, until recently lord president of the council, in a public letter, while acknowledging that the fiscal question may require a reconsideration of the liberal-unionist attitude towards the government advises the liberal-unionists at present to remain loyal to the government, especially as precautions against home rule proposals in parliament are still necessary.

An attempt to draw an expression of opinion from King Edward on the fiscal controversy has elicited a reply from Buckingham palace, saying: "The private secretary is commanded to say that the King never expresses an opinion on political matters except on the advice of his responsible ministers, and therefore the statement must be inaccurate that he had declared himself on the fiscal policy."

SPEECH BY CHAMBERLAIN.

Joseph Chamberlain addressed an enthusiastic meeting of 4,000 persons at Newcastle tonight. It was his first public appearance since his recent illness. The former colonial secretary devoted considerable time and attention to ridiculing Lord Rosebery, Sir Henry Campbell Bannerman and Earl Spencer. Mr. Chamberlain said he had not raised a party, but rather a national question. He was willing to answer seriously the points raised by men like Lord Goschen and H. Asquith. He had no pretence, he continued, that his system could be isolated without costing anything at the start, but he did urge that taxation be transferred from points where it benefited nobody to points where the empire would profit. If the country has done well in the past it was not because of free trade. Replying to the charge that he had based his whole system on the boom year of 1872, Mr Chamberlain said his opponents would find, if they took the five year periods working back from 1875, that these would show better still for his case, and he went at length into statistics with the view of proving this contention.

best forward line in lower Canada - and thus far, by hard practice and persistent training they have proved their claim. Cyrus McMillan, made the best run for the Abbies during the game.

The Lightizer Bros., though injured, refused to cease play.

Members of the College team state that yesterday's match was much superior to their recent game in Halifax.

SUMMARY OF THE GAMES.

Table with 4 columns: Won, Lost, To Play. Rows: St. Dunstons (1, 0, 3), Abegweits (1, 1, 2), Victorias (0, 1, 3)

The next game is Monday afternoon, Victorias vs St. Dunstan's. The Vics team is much improved.

For St. Dunstan's Sam Doyle and Andy Doyle did admirable work though every man was up to the standard. Jones and Nicholson were foremost among the Abbies' forwards.

VITAL FORCE

Is Crushed by Chronic Troubles.

One of the most weakening, undermining troubles, which mankind is heir to is hemorrhoids or piles. The victim is careless and neglectful of the disease at first because the pain is slight and the bleeding may only occur occasionally, or he may be reassured by the occasional disappearance of the symptoms. And yet if at the very start he had found a rational remedy to soothe the inflammation, he would probably never have had a return of this irritating malady.

Piles may develop at any season of the year, and at almost any age of the victim; the abuse of cathartics often causes the trouble, and a period arrives when the dread of pain at stool becomes so great that the sufferer begins to neglect the calls of nature, and the bowels are either forced to retain the feces or are only partially cleared, on account of the suffering attendant upon a thorough movement.

Before you reach this stage use a remedy which removes the cause, thereby eradicating the disease, and that is the Pyramid Pile Cure which is sold by all druggists at fifty cents a package; it is in the form of a suppository, is applied directly to the parts affected and bring about a complete cure, quickly and painlessly. A valuable little book on the cause and cure of piles is published by the Pyramid Drug Co., Marshall, Mich., and we advise every sufferer to send for a copy of it.

People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detection from business or interference with daily occupation.

I feel it my duty to recommend the Pyramid Pile Cure, for after suffering ten years with a most distressing form of Piles, I am entirely cured, thanks to this remedy. Anyone doubting this can write to Margaret Brady, 156 Whitman St., Cleveland Ohio.

QUESTIONS AND THEIR ANSWERS

Seven Points Decided by Alaska Tribunal

All but One Were Dead Against the Canadian Contention and Were in Favor of the United States.

LONDON, Oct. 20 - Following is an official digest of the Alaska decision:

The decision of the tribunal is made up of answers to the seven questions contained in the treaty of 1903, constituting the tribunal.

(1) Referring to articles 2, 4 and 5 of the treaty of 1825, the tribunal shall answer and decide the following questions: What is intended as the point of commencement of the line?

Answer - The line commences at Cape Muzon.

(2) What channel is the Portland Channel?

Answer - The Portland Channel passes north of Pearce and Wales Islands, and enters the ocean through Tongas Passage, between Wales and Sitklan Islands.

(3) What course should the line take from the point of commencement to the entrance to Portland Channel?

Answer - A straight line to the middle of the entrance of Tongas Passage.

(4) To what point on the 56th parallel is the line to be drawn from the head of the Portland Channel, and what course should it follow between these points?

Answer - A straight line between Salmon and Bear rivers direct to the 56th parallel of latitude.

(5) In extending the line of demarcation northward from said point on the parallel of the 56th degree of north latitude, following the crest of the mountains situated parallel to the coast until its intersection with the 141st degree of longitude west of Greenwich, subject to the condition that if such line should anywhere exceed the distance of ten marine leagues from the coast, then the boundary between the British and the Russian territory should be formed by a line parallel to the sinuities of the coast, and distant therefrom not more than ten marine leagues. Was it the intention and meaning of said convention of 1825 that there should remain in the exclusive possession of Russia a continuous fringe or strip of coast on the mainland, not exceeding ten marine leagues in width, separating the British possessions from the bays, ports, inlets, havens and waters of the ocean and extending from the said point on the 56th degree of latitude north to a point where such a line of demarcation should intersect the 141st degree of longitude west of the meridian of Greenwich?

Answered in the affirmative.

(6) If the foregoing questions should be answered in the negative, and in the event of the summit of such mountains proving to be in places more than ten marine leagues from the coast, should the width of the lisiere which was to belong to Russia be measured (1) from the mainland coast of the ocean, strictly so called, along a line perpendicular thereto, or (2) was it the intention and meaning of the said convention that where the mainland coast is indented by deep inlets, forming part of the territorial waters of Russia, the width of the lisiere was to be measured (a) from the line of the general direction of the mainland coast, or (b) from the line separating the waters of the ocean from the territorial waters of Russia, or (c) from the heads of the aforesaid inlets?

Required no answer after the fifth question had been answered in the affirmative.

(7) What, if any exist, are the mountains referred to as situated parallel to the coast, which mountains, when within ten marine leagues from the coast, are declared to form the eastern boundary?

Answer - The majority of the tribunal have selected the line of peaks starting at the head of Portland Canal and running along the high mountains, on the outer edge of the mountains, shown on the maps of survey made in 1893, extending to Mount Whipple and thence along what is known as the Hunter line, of 1873, crossing the Stikine River, about 24 miles from its mouth, thence northerly along the high peaks to Kate's Needle, from Kate's Needle to the Devil's Thumb. The tribunal stated that there was sufficient evidence owing to the absence of a complete survey to identify the mountains which correspond to those intended by the treaty. This contemplates a further survey of that portion by the two governments. From the vicinity of Devil's Thumb the line runs to the continental watershed, thence through White and Tais, or Chilkoot passes, westerly to a mountain, indicated on the map attached to the treaty as 4,357 feet, thence to another mountain 5,800 feet, and from that point in a somewhat curved line across the head of the glaciers to

POSTMASTERS BEING INTIMIDATED.

Mr. Tarte charged that postmasters are being allowed, in fact forced to give out names of newspaper subscribers, to agents working for the Government papers.

MULOCK GETS MORE MAILBAGS.

Other members made similar statements and Sir William Mulock demanded the names, promising to deal with the cases.

Mr. Mulock said two thousand extra mail bags had to be got to carry Conservative campaign literature.

WITH A SUMMER'S OUTING

It's impossible to avoid mosquito bites, rheumatic pains, perhaps sick headache or summer complaint. A bottle of Eol's Nerville in camp is indispensable because it is a speedy cure for all these ills. Nerville is good to rub on as a liniment, and can't be beaten for internal use in stopping pains and set. Nerville is a household necessity and saves big doctor bills by curing the little ills before they get serious. Better try a 25c bottle of Nerville. Many say it's worth its weight in gold. Every pain flees before Nerville.

Mount Fairweather. This places the Canadian outpost on the upper water of Chilkoot River in British territory and the mining camps of Porcupine and Glacier Creek in American territory. From Mount Fairweather the line passes north on high peaks along the mountains indicated on the map by Mounts Plata, Bahala and Vancouver to Mount St. Elias.
