INTRODUCTION

Last year a beginning was made in Rural Beautification in P. E. I. This year the program will be expanded as indicated in the following competitions open to Rural Homes, Schools and Community Halls of the province. The aim of this Society recently incorporated by an Act of the P. E. I. Legislature is to enhance the Beauty of our Rural surroundings and enrich the lives of our Rural population.

Every effort is being made to ensure the success of the scheme with generous prizes being offered—all that is necessary now is active cooperation of our people.

Please submit your entries early, and save this advt. for future guidance.

Jasper Park Booked For Summers Tourists

WINNIPEG, Man., April 20 — "From present reservations it would appear that the coming season at Jasper Park Lodge will be the heaviest in the history of the mountain resort, even greater than last year," stated John Stark, manager of Jasper Park Lodge, who is a visitor in Winnipeg. "Reservations have been very heavy all winter and a feature of these is the number of repeats or guests who have been at Jasper previously. A large percentage of our guests this year will have been with us for several seasons past."
 "We will be open on June 16th until September 15 and with a number of improvements made since last fall the lodge will be in excellent physical shape. The golf course,

which was entirely re-made during the war years when the lodge was closed, has come through the winter splendidly and will afford the guests one of the great courses on the continent to play on. The annual Totem Pole Gold Tournament will be played from August 31st to September 6th, as usual, we already have more applications to play than we can take care of. In recent years

it has been necessary to confine the list of competitors to 200, but we have early double that number applying to get in this year. There will be much new motor equipment to take care of those who desire to see the territory by motor and visit points of interest. Generally speaking it looks like a record all-round season," declared Mr. Stark.

HEALTH CHARTS

Statistics and reports from other lands are to public health departments what a compass is to a liner at sea. They help to indicate the tack which health conservation services must take to steer the country clear of plagues and epidemics raging abroad.

In Canada, the Dominion Bureau of Statistics works closely with health authorities to ensure the best health protection for the public, and to keep the advance to a higher standard on the right course.

HEALTH HABITS

Don't expect the children to grow up to like health-giving milk if you offer them tea or coffee in their tender years. This warning is issued by a national health authority, who reminds parents that habits formed in childhood will almost certainly be lasting.
