

SENATIONAL REPORT FROM IRELAND.

NEW YORK, Sept. 18.—A cable to the Tribune from London says: "A remarkable story comes from Belfast that before embarking on the present campaign against home rule, the leaders had received the assurance that in the event of home rule being pressed to its final stage, a certain number of army officers representing every branch of the service, would throw in their lot with the Ulster men. The list is said to include many officers of public rank with 26 colonels and lieutenant colonels, 43 majors, 69 captains, 31 lieutenants and 282 men holding the rank of sergeant major or sergeant. Ulster's campaign against home rule will open with a big meeting to-day at Enniskillen. This is the first of a series of demonstrations which will culminate on Ulster Day when the members of the Ulsterist community will bind themselves by a solemn league and covenant to refuse submission to a Nationalist parliament. One of the most distinguishing features of the present agitation is the increase in the number of persons who own fire arms. In the Nationalist district of West Belfast, one dealer is disposing of revolvers at the rate of one hundred a week and expects that this rate of sale will continue for some time, a large number of the weapons being disposed of through the mail system. There is reason to believe that what is happening in West Belfast is also taking place in other districts, and notably in the city of Dublin. The authorities are perfectly well aware that the traffic is being carried on and sometimes ago the government actually discussed what steps could be taken to deal with the importation of these arms. It was however decided to take no action at the moment and these matters have been allowed to drift.

BABY KICKED.

ST. JOHN, Sept. 17.—The four-year-old daughter of Wm. O'Creary, of 41 Douglas Avenue was the victim of a sad accident which occurred about a quarter to eight last evening, when she was run over by a delivery wagon sustaining a concussion of the brain. She is not expected to live. At the time of the accident the little girl, accompanied by one of her playmates, had strayed out of the yard in which they were playing and were amusing themselves by swinging to and fro on a hitching chain attached to a telephone post in front of the building. It is thought by those who live in the vicinity that the O'Creary child forgot in her excitement to keep a lookout for an approaching wagon, and that when she stepped onto the curb she was struck by the horse's head, one of which struck her on the head producing concussion of the brain. Seeing that the child was badly hurt, the driver of the wagon at once wheeled his horse and started at a rapid rate to secure the services of Dr. Roberts, who, after examining the wound, found that the child had been kicked on the head and seriously injured. At a late hour last evening the child was not expected to live.

SIR WILFRID LOOKS WELL.

STURBORN FALLS, Ont., Sept. 17.—Sir Wilfrid Laurier looked remarkably like himself, which is to say he was in good form; in good health and in good spirits, when he met the people here this afternoon, opening his Ontario campaign. After a shower of flowers from little girls standing in a line under which the procession passed, he arrived at the square, where the open air platform had been erected, and where temporary benches had been crowded. Here several thousand people assembled under a sky constantly threatening rain. Sir Wilfrid was greeted with a sincere welcome. Dr. Adams was awakened at daylight this morning by a bullet that entered his bedroom window. Another struck the plaster in another room within two feet of one of the children. Other cottagers were similarly disturbed. Apparently the duck-hunters were using a small calibre rifle, which is a dangerous practice in hunting birds; any place, particularly in so thickly settled a district as the Island. Another cottager, a Mr. Adams, intends to issue a complaint to stop the nuisance.

WATERS MAY STRIKE.

NEW YORK, Sept. 17.—A general strike of waiters and cooks that will paralyze first-class restaurants and hotels in this city at the opening of the winter season is the latest plan of the International Workers. A statement by one of the local unions says: Election night had been practically decided upon as the psychological moment that will help to bring home to the employers more forcibly than ever the justice of the men's demands. Unless the individual proprietors reach an understanding with the organization of the Hotel Workers within the next few weeks, the men will walk out on election night.

25-Cent "Danderine" For Falling Hair And Dandruff Grows Hair

Don't pay 50 cents for worthless hair tonics—Use old, reliable, harmless "Danderine"—Get results

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a leanness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—anytime—will surely save your hair. Get a 25-cent bottle of Knowlton's

DUCK-SHOOTING DANGEROUS.

TORONTO, Sept. 16.—The duck-shooting season opened this morning and bullets rained about the summer cottage of Dr. J. Frank Adams, of 59 Bincarth avenue, who summers on Fisherman's Island. Dr. Adams was awakened at daylight this morning by a bullet that entered his bedroom window. Another struck the plaster in another room within two feet of one of the children. Other cottagers were similarly disturbed. Apparently the duck-hunters were using a small calibre rifle, which is a dangerous practice in hunting birds; any place, particularly in so thickly settled a district as the Island. NEW YORK, Sept. 17.—Through the testimony of Frank Menschik, a Vienna postal clerk, who arrived from Europe today, the Austro-Hungarian consulate today expects to clear up the mystery surrounding the family of the Countess Rosa Menschik Szabo, for whose murder Buntain, Bell & Co. held in jail at Goshen, N. Y. Frank Menschik is a brother of the Countess, according to the contention of the consulate. He has not seen his sister for eighteen years. Menschik was called as a witness before Surrogate Fowler when the local Austro-Hungarian officials found that it would be essential to have a relative testify before an attempt could be made to remove Gibson as executor of the Countess' will.

BRYAN OUT FOR WILSON.

DENVER, Colo., Sept. 16.—One term for president and the necessity of selecting Governor Woodrow Wilson for that office in November, was the central thought of campaign addresses delivered today by William J. Bryan in his tour of Northern Colorado. At Fort Collins he emphasized this point and scored Col. Roosevelt for wanting a third term. Col. Roosevelt in an 11th hour convert to Bryan and should not be trusted until he has proven his sincerity. He said that Col. Roosevelt never had fought the people's battles, but had opposed the progressives both as a republican and a democrat in Congress. He charged that the Roosevelt campaign is being financed by the trusts. Mr. Taft distrusted the people and is dead practically, was Mr. Bryan's characteristic remark of the president, whom he charged with having failed to reduce the tariff in keeping with campaign pledges.

COLONIES ARE READY TO FIGHT

LONDON, Sept. 16.—The Hon. Sam Hughes, made a characteristic utterance at the launching of H. M. S. "Audacious" on Saturday. He said, you in this Christian and wholly civilized country have to guard against those who would violate law and order why should we expect to find a similar spirit displayed amongst those nations of the earth who don't look for peace in this world unless we are prepared to hold our own against that world, therefore, as a Canadian holding a position in the Cabinet, I say that when the Motherland is in trouble the colonies will all be at her back (Cheers). There is one great regret I have today. This splendid ship has been launched, but the British taxpayer alone foots the bill. My regret is that Canadians, Australians, New Zealanders and South Africans are not all joining hands with the Motherland in footing the bills.

Doctor Recommends Postum from Personal Test

No one is better able to realize the injurious action of caffeine—the drug in coffee—on the heart, than the doctor. Tea is just as harmful as coffee because it, too, contains the drug caffeine.

When the doctor himself has been relieved by simply leaving off coffee and using Postum, he can refer with full conviction to his own case.

A M.D. physician prescribes Postum for many of his patients because he has been benefited by it. He says: "I wish to add my testimony in regard to that excellent preparation—Postum: I have had functional or nervous heart trouble for over 15 years, and a part of the time was unable to attend to my business.

"I was a moderate drinker of coffee and did not think drinking it hurt me. But on stopping it and using Postum instead, my heart has got all right, and I ascribe it to the change from coffee to Postum.

"I am prescribing it now in cases of sickness, especially when coffee does not agree, or affects the heart, nerves or stomach.

"When made right it has a much better flavour than coffee, and is a vital sustainer of the system. I shall continue to recommend it to our people, and I have my own case to refer to." NEARLY EVERYBODY VOTED.

OTTAWA, September, 17.—A blue book giving final details of votes cast in the general election of September 21 last, shows that out of a total 1,855,000 voters on the lists of the nine provinces, 1,307,528 exercised the franchise.

In Ontario, the actual vote cast was 480,572 out of a total qualified list of 693,485. In Quebec 324,039, out of 455,288; Nova Scotia, 113,000 out of 136,994; New Brunswick 78,073, out of 101,112; Manitoba 77,686, out of 88,588; British Columbia 43,559, out of 53,081; Saskatchewan 89,043, out of 142,414; Alberta 69,775, out of 77,238. In British Columbia a much greater proportion of voters stayed away from the polls than in other provinces. The figures show that in all five eastern provinces, the vote was more largely recorded than in the four western provinces.

HARDLUCK FOR HORSEMAN

HALIFAX, Sept. 17.—James Adams, the Halifax horse owner, is certainly experiencing a run of tough luck. As the death of Allie W., on the first day of the exhibition meeting, was not sufficient, he has now Frank Patch, that most consistent of free-for-allers on the circuit, laid up on his hands with a bad case of strangles.

USED BEER TO FIGHT FLAMES.

LONDON, Sept. 17.—An effort was made during a fierce brewery fire at Cookebridge, Sussex, to extinguish the flames by turning on the taps of the beer vats. Thousands of gallons of beer were let loose to flood the premises.

The fire, attributed to the overheating of an engine, secured a firm hold in the engine room, and as the nearest fire brigade was three miles away at Lewes, Mr. Telling, the proprietor of the brewery, promptly resorted to original measures. Sacks were got soaked in beer, and thrown on the flames, which were thus partly extinguished. But this category was not completely successful, and the taps were then turned on and the premises flooded with beer.

The fire brigade arrived they had to lay nearly 3,000 feet of hose before they could secure effective play, the water supply being some distance away. Five tons of sugar fed the flames, and some of the firemen fainted owing to the intense heat. The main premises were completely burnt out.

LORD MILNER COMING.

ST. JOHN, Sept. 17.—A. J. Glazebrook, of Toronto, who is making arrangements for the visit of Lord Milner to Canada, was in the city yesterday. He was in consultation with the officers of the Canadian Club, and arrangements were made to have Lord Milner deliver an address to the members of the club here.

Lord Milner is expected to arrive in Canada next week, but it is not known just when he will come to St. John, though it will probably be soon after he lands in this country, as it is his intention to visit Sydney, and then start for the west, addressing the Canadian clubs in various cities on his way to the Pacific coast.

Lord Milner, who has held many important public positions, is known as one of the greatest exponents of imperialism, and his visit here will no doubt be awaited with interest. He has written a number of books dealing with the problems of the Empire, and has a reputation as a speaker as well as an administrator.

CHILD FELL UNDER CAR.

GLACE BAY, Sept. 17.—Pedestrians on McKeen street yesterday evening about six o'clock were horrified to see a young child fall across the S. & G. B. track in front of an approaching S. & G. B. Ry. car. They fully expected to see the child ground to pieces beneath the wheels, but fortunately such a result did not take place.

The child, which is about 4 years old, and the daughter of Albert and Mrs. Sampson, was coming along McKeen street with a brother a couple of years older. Near the town hall a horse became frightened at the steam roller and the child in attempt to get clear of the horse started to run across the track. Her toe caught in the rail, throwing her right in front of the approaching car which was being driven by Motorman Dan W. Ferguson. The brakes were quickly applied, but the distance was too short to bring the car to a stop before it reached the child. The pilot struck the little girl on the head and rolled her underneath the car where she became wedged between the wheel guards. The child was picked up and carried to the surgery of Drs. McCuish, McLean and Calder, where an examination was made. Beyond a slight bruise on the forehead, and another on the leg, the youngster is apparently none the worse of its experience.

VIENNA CONGRESS BRILLIANT AFFAIR.

VIENNA, Sept. 15.—The brilliancy of the great procession concluding the twenty-third Eucharistic congress today was greatly marred by a continuous downpour of rain and chilly temperature. From seven o'clock in the morning until one in the afternoon when the Emperor followed the Papal Delegate, Cardinal Van Rossum with the Host through the Durgtor, rain fell unremittently, drenching many thousands walking in the procession as well as the thousands of spectators along the route, under such conditions that it was impossible to hold the celebration of Mass in the open air on the top of the Durgtor Court as was intended. The procession simply passed through the Helldon Platz from the Ring Strasse into the inner court of the Pofburg where the papal legate, the cardinals, the Emperor and Archduke Franz Ferdinand entered the Pofburg chapel and deposited the host.

URGE RETURN TO THE FARM.

TORONTO, Sept. 16.—Physicians and medical health officers from the Atlantic to the Pacific are in attendance at the Canadian Public Health Association Convention which opened at the Physic Building of the Toronto University this morning. Dr. Charles H. Hodgetts, the federal health officer, Ottawa, is the presiding officer and Dr. Peter H. Bryce, Supt. of Sanitation, was one of the chief speakers at this morning's session. The association was formed last year in Montreal.

Dr. Bryce, delivering the first address before the second annual congress of the Canadian Public Health Association to-day, asked these questions: "How shall Canada save her people from physical and mental degeneration due to industrialism as seen in the great cities of older civilization?" "How long can a country, essentially a producer of raw material, by virtue of geographical location and extent of territory still largely undeveloped, continue to develop normally and prosper, when it has shown a displacement of rural population during the last ten years to an extent never witnessed before in the history of any people, and an increase of urban population rapid beyond the palmist days of United States immigration?"

Answering these queries, Dr. Bryce said the existing conditions demanded a lessened cost of agricultural production, careful preparation and conservation of farm products and the cheapening of transportation between consumer and producer. More varied and extensive farming would provide constant and profitable employment for farm laborers.

Dr. Bryce commended the big packers for eliminating competition in buying by dividing up the territory amongst themselves, by freezing out the small drovers and butchers, and by getting control of civic or rival cattle markets.

Dr. J. H. Elliott, of Toronto, dealing with "Tuberculosis" said very large municipalities should have a sanatorium. The death rate could be lessened if improved social hygiene and housing conditions could be secured.
