CUT DOWN ON TAKING LAXATIVES THIS WAY

See How Regular You Can Be Every Morning

Try taking Carter's Pills this way: Start with 3 and set a definite time every morning. When you get regular every morning cut down to 2. After a few days, try 1.

Then try taking Carter's every other day. You may even find you can keep regular without any laxative.

You see, Carter's are so tiny you can cut down the dose—from 3 to 2—to fit the needs of your individual system. Without disappointment.

Carter's help clean out your intestinal tract no halfway, but thoroughly. They are doubly effective because made with two vegetable herbs compounded properly for thorough, easy action.

Thousands can cut down on laxative doing this Carter way. Ask for Carter's Pills by name to get the genuine at any drugstore—35¢, 70¢, \$1.00. Start the Carter graduated dose method tonight, and jump out of bed tomorrow rarin' to go.

POLIOMYELITIS (INFANTILE PARALYSIS)

The following advice to parents is issued by the Department of Health and Welfare in an attempt to prevent the development of new cases and spread of Infantile Paralysis in this Province.

SYMPTOMS

If any individual (especially a child or young adult) has one or more of the following symptoms:

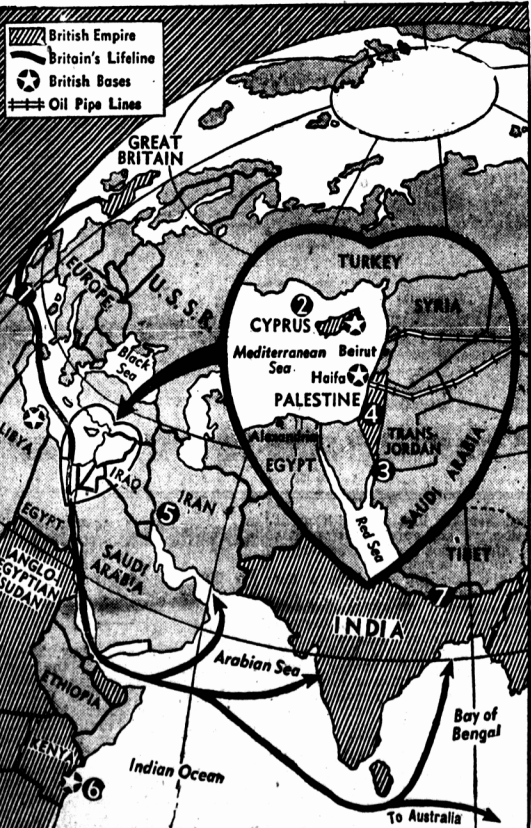

1. Headache
2. Temperature
3. Pain in the back
4. Stiffness of the neck
5. Vomiting and gastro-intestinal troubles
6. Sudden undue tiredness or actual muscle weakness

The individual should be put to bed with complete rest in a room by himself. The family physician should be called immediately, so that an early diagnosis may be made, treatment instituted and the case reported to the Department of Health.

GENERAL FAMILY AND COMMUNITY PRECAUTIONS

1. Personal cleanliness which includes the thorough washing of the hands with soap and water before each meal.
2. Feed or scrub all raw fruit or vegetables with clean water before serving.
3. Eliminate all flies and other insects from the house and burn or deposit refuse in metal-covered receptacles.
4. Avoid crowds and public places.
5. Prevent children from suffering sudden chills and over-fatigue due to physical strain.
6. Live out of doors as much as possible but avoid crowded beaches and swimming in dirty water.
7. Avoid unnecessary travel and visiting.

Palestine's Role in Empire Defense

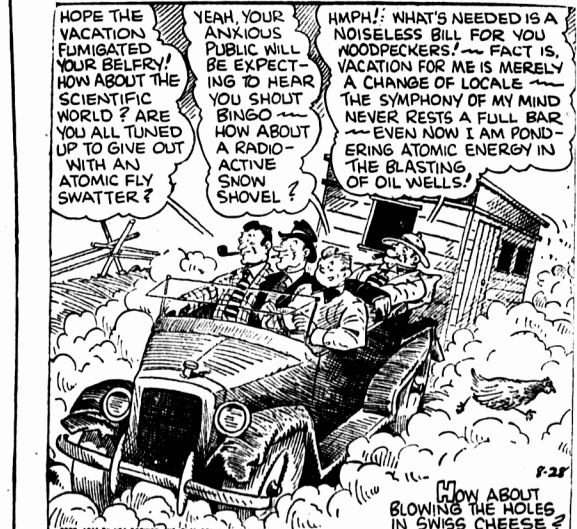

1. Gibraltar is still vital "gate" for Mediterranean lifeline.
2. Plans and warships based at Cyprus can guard approaches to Suez and exit from Aegean.
3. Plains of south Palestine and Trans-Jordan offer military and air bases near Suez and short flight from vital oil fields in Iraq. Haifa may replace Alexandria as chief naval base.
4. Palestine shapes up as key area in new Mediterranean strategy. Hence, Britain unlikely to relinquish its mandate in favor of UN trusteeship, as proposed.
5. British Middle East oil interests, with chief fuel source for Royal Navy, center in southern Iran.
6. Kenya, South Africa, may have huge base to guard alternate lifeline route around Cape of Good Hope and Red Sea exit.
7. Much of Britain's future empire strategy will depend on friendly governments and peoples. Anti-British sentiment in India causes great concern. If Britain withdraws from an independent India, she may seek new bases in Tibet.

Britain is busy revamping her strategy in relation to modern global war, but the Middle East still remains the heart of empire defense, as shown on map above. Palestine assumes critical importance, as withdrawal of British forces from Egypt poses problem of establishing new military and air bases and a substitute for the great naval base at Alexandria.
