FIRST GERMAN CONSUL ARRIVES IN CANADA

Questioned as to Opinion in Germany About Reparations He Preferred to Remain Silent.

Special to The Guardian
ST. JOHN'S, March 6.—L. E. Kempff, the first German consul general for Canada, since the war, arrived here yesterday on the Empress of Britain. He was accompanied by his family and two secretaries. The party left for Montreal where the office of the consul general is located. When asked regarding conditions in Germany and the indemnity situation, he said that he would prefer not to discuss them now. The consul general was stationed at New York from 1902 to 1905 and visited Canada in 1903.

SCHOONER CRUSHED IN ICE FLOE OFF THE NEWFOUNDLAND COAST

ST. JOHN'S, Nfld., March 5.—North Atlantic ice-floes caught two vessels off the Newfoundland coast today. The schooner Tipperary bound here from Lisbon with a cargo of salt was crushed in a floe off Cape Race. Her crew reached land by walking over the ice, crossing the patches of open water in a small boat brought from the vessel. Grinding ice so injured the steamer Rauld Jari on Philadelphia for this port with coal, that she will be tied up here for two weeks before repairs can be completed.

Bars U. S. From Any Rights In Hun Colonies

NEW YORK, March 5.—Nations which are members of the League of Nations are given the exclusive rights to the "open door" privileges in the former German territories of East Africa, Togoland and the Cameroons, under the terms of the mandates for these territories now under consideration by the Supreme Council of the League in Paris. The text of the mandates, which are to be taken by Great Britain, France and Belgium were received here today by the League of Nations news bureau. In a statement, the bureau says that these texts reveal features which may cause a serious controversy when the assembly meets again, provided the council accepts these mandates as submitted. The texts reveal that the French mandate on the part of Togoland and the Cameroons provides that native troops may be raised at any time for use in Europe or elsewhere. The right is denied the British and Belgians in the territories which they will control. The "open door" restrictions are considered by the news bureau as having a direct bearing upon the United States as a non-member of the league. The article regarding the open door says: "The mandatory will ensure to all nationals of states, members of the league of Nations, on the same footing as his own nationals, freedom of transit and navigation, and complete economic, commercial and industrial equality; provided that the mandatory shall be free to organize essential public works and services on such terms and conditions as he thinks just. "Concessions for the development of the natural resources of the territory shall be granted by the mandatory without distinction of grounds of nationality between the nationals of any states, members of the League of Nations, but on such conditions as will maintain intact the authority of the local government."

Hungarian Minister Expelled from Italy

(Special to The Guardian)
LONDON, March 6.—Michael Karolyi, former president of the Hungarian National Council, who was in Florence recently, has been expelled from Italy, says a Rome despatch to the Times. It is reported he was closely associated with persons connected with the riots in Florence.

Brazilian Minister Continues Presidency Of League Council

(Special to The Guardian)
PARIS, March 6.—Dr. Gastao Da Cunha, Brazilian ambassador to France who has been acting as president of the council of the League of Nations during its present meeting in this city, will continue as president, according to a decision of the council.

Newfoundland Surrounded With Ice Barrier

SYDNEY, March 5.—A wireless message from Cape Race, Nfld., says that an impenetrable ice field stretching from the Arctic circle to the Grand Banks presents a barrier along the east and south coast of the Colony through which no ship can pass. The floes are the heaviest in ten years, due mariners hold to the fact that last summer being extremely mild great sheets of ice were separated from the northern glaciers by the action of the hot sun, and the floes are now finding their way south on the Arctic current. The sealing fleet will find considerable difficulty in making their way north in search of the herds, providing they can get away at all. The great white field stretching away north, south and east is dotted with smaller bergs, many of which are more than two hundred feet high and of fantastic shape. Ice conditions in the Gulf of St. Lawrence are reported similar to those prevailing in the east. It is expected that with the opening up of the fields next month the harbors and ports on the Cape Breton coast will be severely locked, and that it will be very late this season before the last of the ice is seen.

W. N. McDonald, Ship Broker of this City Told a Reporter Today that he and Associates Intend to Place Two Steamers This Summer on the Picton-Charlottetown Route Despite the Fact that Arrangements are Being Made by Halifax Parties to Operate the Steamers Speedy as well on this Line. Mr. McDonald's Two Steamers, one an American mine drifter, and the other the Constance, of Halifax, are now being fitted out for this service and it is his intention to place them in operation just as soon as navigation opens up. The Constance recently purchased by him at Halifax being modelled to give additional passenger accommodation. Similar changes are being made to the American steamer now at St. Peter's, C. B. The latter boat is slightly larger than the C. D. S. which was purchased by him from the Admiralty some time ago, and which was moored at Halifax after the war.

Present Case to Senate It is expected that this protest in legal form will be presented to the senate for a preliminary reference to the committee on privileges during the early part of next week. If all the evidence in the case can be put in shape by that time, the contention of those opposing the appointment is that it creates a precedent contrary to the letter and the spirit of the N. A. Act and that such a departure from established practice should be left to the senate itself for adjudication. It is altogether probable that a number of dissenting members of this province will go to Ottawa as soon as the date for the hearing has been fixed.

Americans Get Less Fresh Fish

BOSTON, March 5.—Recent withdrawal from service of the fifty steam trawlers of the Boston and Gloucester fishing fleets because of alleged excessive cost of operation at present fish prices probably will decrease by half a million pounds, the weekly ground fish haul delivered at this port. This was the statement today of leading Boston fish buyers, who stated that the trawlers in normal times brought in forty per cent. of the total catch. Fishing methods temporarily will revert to where they were fifteen years ago, before the steam trawlers became a potent factor on the fishing grounds, it was added.

Sir Thos. Lipton May Not Enter Big Yacht Race

LONDON, March 4.—Sir Thomas Lipton, up to the present, has declined to say whether he expects to enter a yacht for the cup offered by King Albert of Belgium, for a yacht race to begin July 4, next off Sandy Hook, and to end off Ostend, Belgium. It is considered, likely, however, that if Sir Thomas decides to enter the contest his yacht will be the twenty-three metre Shamrock, which was used as the "trial horse" for the Shamrock IV, in last year's races off New York, for the America's Cup. A decision by Sir Thomas on the question of competing for the cup is expected shortly.

Listless Day In Parliament

OTTAWA, March 5.—The House spent a listless day after the division. Mr. McMaster, of Brome, brought in a bill to bar Cabinet Ministers from directorships on boards of incorporated companies. The estimates will come up next week. Mr. McMaster says he will apply his bill to the leader of the opposition as well as the ministers.

ANTI-SOVIET MOVEMENT IN RUSSIA PROGRESSES

Moscow and Petrograd Said to be in the Hands of the Revolutionists and Soviet Soldiers Unwilling to Take Action.

(Special to The Guardian)
LONDON, March 6.—News reaching London of the internal situation in Russia, continues to be gloomy. The reports of uprising were reiterated today and enlarged. This evening's papers print a despatch from Helsinki which declares the anti-soviet outbreak has not been suppressed but the contrary is spreading. The message asserts that both Moscow and Petrograd are in the hands of the revolutionists. These reports follow denials in official Moscow wireless messages recently that there were any disturbances in either of the cities named. Other reports from Scandinavian sources received Friday, declared conditions in both Moscow and Petrograd were serious some of the reports stating that there was a pronounced movement among the troops against using force in dealing with the revolutionists.

KRONSTADT IN HANDS OF REVOLUTIONARIES

WASHINGTON, March 6.—Official information that the Soviet fortress at Kronstadt had fallen into the hands of revolutionary troops was received today by the Finnish legation.

Census Commissioners Have Been Appointed

OTTAWA, March 5.—The Census Commissioners who will have charge of the 1921 census have been practically all appointed in the Provinces of Nova Scotia and Prince Edward Island, and some western Provinces. The list for these Provinces was issued by the Dominion Bureau of Statistics this morning. The list for Commissioners for Prince Edward Island as follows:—
Kings—Andrew D. MacDonald, Georgetown.
Princed—Louis A. Moore, Summerside.
Queens—Major T. Edgar McNutt, Charlottetown.

QUEBEC LIQUOR LAW MAY BE ILLEGAL

QUEBEC, Que., Mar. 4.—That the Quebec liquor bill which was sanctioned by the provincial government last week is unconstitutional inasmuch as it infringes upon the rights of individuals, is the opinion given by W. J. Bowser a member of the British Columbia legislature who has sent a telegram to Arthur Sauve leader of the opposition in the Quebec legislature. In this connection the government does not seem to be altogether satisfied that the liquor bill put through will stand the test and is preparing a measure to supplement that which has already been passed.

Costa Rican Forces Capture Guabito

SAN JUAN, Nicaragua, Mar. 5.—Guabito, lying a short distance to the northeast of Bocas Del Toro, in Panama, was captured by Costa Rican forces at five o'clock this morning. Panamanians retired toward Bocas Del Toro, leaving behind 18 dead and many wounded. Costa Ricans occupied the Almirante railroad and are now besieging Ciudad De Almirante. Guabito which is near the Atlantic Coast side of the Isthmus of Panama was taken by the Costa Ricans after several hours of fighting. PARIS, Mar. 5.—Messages have been sent by the League of Nations Council at Geneva, Costa Rica, calling their attention to the fact that the two republics are members of League of Nations, consequently undertake to subscribe its principles and obligations.

President Harding Takes Hold of Affairs of State

WASHINGTON, Mar. 5.—The reins of presidential authority of the United States passed from Mr. Wilson to Mr. Harding yesterday in the inaugural ceremony the simplest and most dramatic of a generation. No drama centred about the retirement of President Wilson to private life. Insistent to the last moment, that he would carry out the retiring president's customary part in the ceremonies, Mr. Wilson finally yielded to the pleading of relatives and warning of his physician that he might endanger his life, if he accompanied his successor to the Capitol. Before Mr. Harding had been president for an hour he revived the precedent set by George Washington of conferring with the Senate Executive in session, submitting in person the nominations of his ten cabinet officers all of which were immediately confirmed. With in another hour he had gone to the White House to "hang up his hat and go to work," as he himself often had said. He unlocked White House gates which for four years had been closed to the public. The public celebrated the event by actually over-running the grounds peeping through the windows to see the new president in conference with his cabinet officers. Mr. Harding took oath of office at 1:18 p. m. exactly eight years to the minute from the time the same same words and obligation were spoken by President Wilson at his first inauguration. There was but one incident of the

Cabinet Busy With Estimates

(Special to The Guardian)
OTTAWA, March 6.—The cabinet is spending a busy week in final revision of the estimates. Meetings are being held today morning and afternoon, and will probably be continued Monday. The estimates when submitted to the House during the coming week are expected to show considerable reduction in expenditure as compared with the estimates for last year.

Brazil Purchases British Dreadnought

(Special to The Guardian)
RIO JANEIRO, March 6.—Brazil is considering the purchase from Great Britain of the dreadnought Agincourt, 27,000 tons, which was being built in a British yard for Turkey when the war broke out.

Subjects Up Before Conference

OTTAWA, March 6.—The Prime Minister, speaking in the House yesterday afternoon intimated that at the coming conference of Prime Ministers of the different parts of the Empire called for June in London, following are among other subjects to be in agenda:—
1. Renewal of treaty alliance with Japan of July 13, 1911.
2. Question of naval policy based on the principle of co-operation.
3. Review consultation upon the general course in foreign policy of the Empire.
Correspondence, Premier Melgou said, is now proceeding on subjects for discussion.

Rev. W. Ivens Protests Innocence

WINNIPEG, March 5.—Vehemently protesting that he was innocent of the seditious conspiracy charges on which he and other strike leaders had been convicted, Rev. William Ivens, whose year term in jail expired last Monday, took part in the debate on the address at this afternoon's session of the legislature. With grim humor, he commented upon the irony of fate which had sent him to jail, "ostensibly for the purpose of helping to make laws" declaring that he intended to be loyal to his convictions, whatever the result of that loyalty be. He stated that he had gone to prison because he was standing for certain principles and that he stood for them today only "a little stronger". Mr. Ivens predicted the doom of the Norris government, claiming that sooner or later it would have to give way to those who were better able to deal with the changing circumstances of society.

German Cabinet Refuses The Allied Terms

(Special to The Guardian)
LONDON, March 6.—The German cabinet has unanimously opposed acceptance of the Allied reparations terms, the German delegates informed. The cabinet met in Berlin yesterday and the result of its deliberation was transmitted early today. Allied demands agreed on at Paris and communicated to the German delegation here this week called for payment of \$55,000,000,000. The motion was claimed by the Daily Sketch that in case of a blockade both the North Sea and the Baltic would be the scenes of a naval demonstration and that Great Britain would be in concert with France, Monday when her delegates establish a naval cordon along the coast to deliver their answer of German cabinet.

German Experts To Reply Monday

LONDON, Mar. 6.—Awaiting advice from Berlin as to whether new proposals are to be submitted to the Allies on Monday, Dr. Sigmund and the German experts are busy preparing a reply to some arguments used by Premier Lloyd George, in delivering the Allied ultimatum yesterday. The Germans strongly object to the verdict of the Allies that they are entirely responsible for the war. The Prime Minister's arguments are if they taxed themselves, France and England would be able to pay what was demanded of them. They claim internal taxes on sugar, tobacco, spirits have not been taken into account, they are prepared to produce figures showing the Allies have under-rated their impositions. With regard to the question of responsibility of the war the Germans maintain the European powers are equally at fault and cite a recent speech of Premier Lloyd George, in which he is quoted as saying that "the world drifted into war." "It is innocent say he is guilty," he said one of the delegates today. As for myself I would rather commit suicide than admit that Germany is alone responsible. Any government which made such an admission would promptly be overthrown. So if the Allies are determined to carry out their demands they must impose them upon us. They will soon find the penalties which they outlined yesterday will not produce what they expect. It is the general opinion of Germans in London that new propositions will be laid before the Supreme Council but they have no hope that they will satisfy the Allies. They say it is impossible to satisfy France, and they now fear that Premier Lloyd George, from whom they expected more lenient treatment, considering he committed himself so far to the French view in his speech yesterday, it is impossible for him to recede.

Yukon Territory Cold and Dry

VANCOUVER, Mar. 5.—The entire Yukon territory and some northern sections of British Columbia are not only cold, but dry for a time at least. No more wet goods may be carried through the United States territory even in bond in transit from one part of Canada to another by recent ruling of Volstead Act, according to telegrams arriving from Dawson. At White Horse and other points in Yukon officials have made a formal protest to Ottawa.

GERMAN CABINET REFUSES THE ALLIED TERMS

Germany's Official Reply Will be Given Monday. In the Meantime Britain and France Prepared for Naval Cordon Around German Coast.
