

Bigger Crops

More profit from POTATOES, better LAWNS, FLOWERS and VEGETABLES.

No matter where you use Soilgro—on your potatoes, corn, grain—on your lawn, flowers or in your garden, you'll be amazed at the growth it promotes.

Soilgro feeds any plant that has roots. It is the new scientific method of hastening and increasing growth. It is cheap—only six dollars you get a package that will do for a good sized lawn and garden, or an acre and a half of roots or grain—for all summer. It is easy to apply and eliminates for the man in town, the difficulty of procuring and the objection to applying barnyard manure or other fertilizer. On farms it can be used with manure with splendid results.

Here's what one man says about Soilgro
"I take much pleasure in saying that I got very good results from Soilgro as we had a very bad summer for flowers. I am pleased to say that my flower garden took first prize at the Exhibition and as there is but one other here that has used Soilgro we both had the best gardens."

The original of this letter is in our files. We will be glad to give the writer's name if desired.

WHO WERE THE STARS OF YESTERYEAR?

GEORGE W. BONHAG
Was another of the old masters who attained the highest records in walking and running. Mr. Bonhag was of the class who made running a scientific study, who studied faults and defects and by careful practice and blending developed a style which brought him into the foremost ranks of the champions. Bonhag was also the first man to defeat Tom Longboat over the three-mile route, accomplishing the feat in an indoor meet at Buffalo. Also premier middle-distance runner of America, he defeated Dan Linden after the famous Athens controversy.
The possessor of a winning personality, Mr. Bonhag today is a professor of one of the New York colleges.

A RIVER THAT LOSES ITSELF

Poets and others have taught us to accept rivers as more or less poetic features in Nature's general scheme of things. Tenneyson, for instance, has held up the Maligne as a model of virtue and longevity. It is both refreshing and interesting to discover, therefore, that there are streams which do not conform to this estimable standard, but which very much like human beings, do things they are not supposed to do according to the accepted theories of conventional.

There is a river in Canada which loses itself completely and thereby has earned a rather outlandish reputation. This is the Maligne River which rises in Maligne Lake, in Jasper National Park, Alberta, and after playing its pranks, tumbles as if it were applauding itself for its cleverness with a great rush and roar into the staid waters of the Athabaska. After it leaves Maligne Lake it flows for a goodly number of miles with nothing in its appearance to indicate that soot; so to speak, it is going to sow some wild oats. It is when it reaches the Maligne Canyon, situated about five miles from Jasper Park Lodge, that it begins its pranks. Here it dips suddenly and without warning, nose dives into a narrow gorge it has cut for itself out of solid rock. Within a distance of fifty yards, this chasm reaches a depth of several hundred feet and it is hard to see the water which has lessened in volume. This diminution continues until only a trickle is left. Yet, before the Athabaska is reached the river is again a roaring torrent. Only one explanation seems possible that somewhere the river loses itself in an underground passage. The canyon is one of the many interesting spots for those who visit this magnificent playground in the Canadian Rockies every year.

This is but one of the many scenic spectacles that the tourist sees in this land of never-to-be-forgotten beauty and many are now planning to take advantage of the very low tourist fares to this territory which go into effect on the Canadian National Railways May 15th, and information as to fares etc., illustrated literature may be had on application to the General Passenger Department of the Canadian National Railways at Moncton, N. B.

RED SOX TAKE FIRST GAME IN P. C. BASEBALL LEAGUE

Defeating Cardinals At Summerside Last Night 9 to nil—Good Opening Game

(Special to the Guardian)

SUMMERSIDE, May 18.—There was a good attendance at the opening game of the Prince County Baseball League at the Summerside ball park last evening, when the Red Sox and the Cardinals of the Toronto and Pioneers amalgamated met with Dr. J. A. McMurdo as umpire and L. Mountain as base judge. May Campbell pitched the first ball.

The Red Sox were first at bat and Howatt hit one towards 3rd, which John Cameron handled nicely. Kelly threw to 1st base, but Bill dropped the ball and Howatt made his first pot of call in safety. Phillips next popped a fly, but Doyle gathered it in for an out. Silliphant hit a two bagger and Howatt got to 3rd. J. Wright was next and made a hit, which was fielded to first for an out. Lyle made a wild throw to the plate and both Howatt and Silliphant came home. The Red Sox were retired without further scoring.

H. Cameron the first man up for the Cardinals got his base on balls. Kelly hit one to Daley who makes a notable play and both Cameron and Kelly are retired. Schurman the third Cardinal up is walked by Howatt. Morrison gets to first on a grounder and Schurman advances to second. Rankin strikes out on the first three pitched. Retires the first three. The first innings ends 2 to 0 for Sox.

Second Innings
The second innings was the most eventful of the game. Ross hits and gets to first, steals second and gets to third on a passed ball. R. Johnston gets to first on four balls. N. Johnston knocks out a two bagger and Ross and R. Johnston come home. Howatt hits one into left field, gets to second and R. Johnston comes home. Phillips hits a two bagger and Howatt comes home. Silliphant gets to first on a hit and Phillips comes home. Silliphant steals second. At this stage Doyle replaces Morrison in the box. Wright is the first man to face Doyle and makes a sacrifice hit which brings Silliphant home. Daley hits a two bagger. Lidstone hits ball Ross gets to first on four balls. Ross gets to first on four balls and steals second. R. Johnston hits two bagger and Daley comes home. Ross is caught at the plate and the Red Sox are retired after piling up six runs.

Every body out now for the next game and show the boys you appreciate their efforts.

The Summerside boys ought to be proud of their own ball park and their splendid diamond. With such excellent facilities and three good teams, there is bound to be great ball in Summerside this season. Every body out now for the next game and show the boys you appreciate their efforts.

WHO WERE THE STARS OF YESTERYEAR?

are very appealing and attractive to most people.
Another very early flower is called Bubbocodium verum and it makes a splash of colour immediately after the snow has gone. The flowers are much like crocuses in appearance though botanically they differ. They are light reddish purple in colour and remain in bloom for about two weeks.
Scilla sibirica, a small bell shaped blue flower, and abia, which is a creamy white variety, come next and are in bloom with the crocuses. Some of the best of these showy bulbs are Cloth of Gold yellow, the earliest of all. Mon. Blanc, white, purpurea, grandiflora, dark purple, Margot, pale lilac blue, abion purple, dark purple, Madame Mina, pale lilac with darker stripes.

Of the perennials other than bulbs, one of the earliest to bloom is Arabis albidia (Rock Cross) which makes the sheets of white in borders and rock gardens so familiar in springtime. The single variety is the earliest, but the double form is a much finer flower and remains longer in bloom.
Another white flower which follows Arabis is Iberis sempervirens (perennial candytuft.) This plant is of a shrubby nature and the clusters of flowers stand up above the ground and make handsome clumps. The foliage is dark glossy green, very different from the greyish green leaves of Arabis.

Alyssum saxatile, though not quite so hardy as the plants just mentioned, is well worth trying. It makes clumps of bright yellow which are very effective in the spring garden.
Aubretia, a dwarf growing plant with flowers of various shades of mauve, needs protection in the Ottawa district.
Myosotis (Forget-me-not), a well known old favorite should be in every garden. It seeds itself freely, but can be easily destroyed when it encroaches on other plants.
Narcissus are among the most beautiful of spring flowers, and should be mixed in the perennial border in clumps of ten or fifteen of the same variety. The varieties vary in hardness and the following

are among the best: Sir Watkin, Emperor, Empress, Mme. de Graaff, Seagull, White Lady and Isarill conspicuous.
Tulips. Early flowering varieties can be planted among the Arabis and Forget-me-nots and beautiful effects obtained by careful arrangements of the colours, or they can be put in clumps as suggested for the narcissi. Varieties: Cottage Maid pink and white, Couleur Cardinal deep crimson, Chrysolora yellow, Kelzkerkroon scarlet and gold, Fred Moore ruddy apricot. Darwin and cottage tulips bloom later and are more satisfactory for the perennial border. There are a large number of varieties and it is difficult to make a selection, but the following are beautiful:
DARWINS.
Bartigon, crimson.
Clara Butt, pale pink.
King Harold, deep purple.
Princess Haarlem, bright red.
Princess Elizabeth, deep pink.
Valentin, blue violet.
COTTAGE.
Gesneriapa spathulata, bright

Great is the pleasure of the gardener when the first snowdrop appears. This is the first flower in most gardens, and it would be sorry of a place for that reason alone, but its dainty white bells

COL. ERNEST J. CHAMBERS
PASSES

Gentleman Usher of the Black Rod who succumbed to a lengthy illness on May 12th. He was a soldier and journalist, and was chief press censor for Canada during the war. He was appointed Gentleman Usher of the Black Rod of the Senate of Canada on March 1, 1904.

GEORGE LYON

The "Daddy of them All" in Canadian sports, and yet probably one of the most active, George Lyon, at the age of 66, possesses a record unequalled by any other old-timer in the Dominion.
Eight times Canadian champion at golf, he still takes a prominent part in all the leading tournaments. He also has the Canadian batting record for cricket, scoring 238 runs not out, for Rosedale against a picked team from Toronto and Peterboro in 1894.
In curling for the Toronto Curling Club he figured as Vice-Skip for the team that won the Canadian Tankard in 1915. He won Olympic championship in 1904 at St. Louis, when he defeated H. Chandler Egan 3 and 2 in a 36-hole match.
A fine fivepin bowler, tennis player, and general all-rounder, Mr. Lyon today looks good for at least six more Canadian championships, with his son following closely on his heels. Canadian championships in general have a good chance of remaining in the Lyon family for years to come.

Farquharson — At Banbury, May 14, 1925, to Mr and Mrs J. Russell Farquharson, a son.

McKinnon — In P. E. I., May 13, 1925, daughter of Daniel G. and Phyllis (McKinstry) McKinnon, formerly of Desable, P. E. I., 11 years, 4 months.

McLean — At 205 Water Street, May 16, 1925, Charles Edward, infant son of Jas. W. and Mrs. McLean, aged one month and three weeks.

Wanted--Yes--Wanted

By July First 1925 or Sooner

We want a man to take full charge of the breeding, raising and maturing of Silver Black Foxes on an up-to-date fox farm, 100 pairs of good foxes with good ranch and good equipment, beautiful location and well adapted for fox raising.

The man must be a lover of animals. He must be experienced in feeding, breeding and caring for foxes. He must have brains and know how and when to use them.

He must know the meaning of the term "elbow grease" in a practical way. He must be absolutely temperate.

We will provide him and his family with a new modern seven room home, electric lighted, furnace heated, with a bathroom and in every way nice; also phone and radio and the use of a car.

This is no backwoods place, but close to schools, churches and half mile from town.

We will pay \$1200. per annum, free home to live in and a bonus of \$15. per pup raised to maturity in excess of 100 per cent production.

In the event of the man being right the second year he will receive \$1500. per annum and bonus.

This is an opportunity for a real man. Don't apply unless you know you can do the work and make good. Give references to whom we can inquire. Write "L. B." c/o The Guardian, Charlottetown, P. E. I.
