

## WILL WE EVER WALK ON AIR?

Train Of Thought Inspired By A Letter About "Fruit-a-tives"

MR. D. McLEAN

Orillia, Ont., Nov. 28th, 1914.  
 "For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read 'Fruit-a-tives' make you feel like walking on air. This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. Now I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I cannot say too much for 'Fruit-a-tives', and recommend this pleasant fruit medicine to all my friends."  
 DAN McLEAN.

A meeting of the Committee for Technical Education in the Province was held in the Assembly Hall yesterday afternoon. Mr. R. H. Campbell, Chairman of the Committee, presided, and Mr. J. A. Clark acted as secretary.

It was decided to adopt the technical monthly "Training" of Toronto as the official organ of this Committee. It may be mentioned that this paper has been similarly adopted by the other technical committees throughout Canada.

A motion was adopted congratulating the Hon. George E. Foster, Minister of Trade and Commerce, for his action in appointing a Committee to investigate ways and means to facilitate marketing, and to carry on investigations with reference to other matters of a commercial nature. Delegates were appointed to attend the Dominion Conference on Technical Education to be held on Sept 1st in Toronto, consisting of Mr. R. H. Campbell, Mr. J. A. Clark, Mr. E. T. Higgs, Mr. J. E. B. McCready and Mr. F. B. McCurdy.

The question of the introduction of a certain amount of technical education in relation to Agriculture was also discussed with the probability that with the consent of the Commissioner of Agriculture some preliminary steps will be taken this coming winter.

Quite a number of letters were read from councils who were unable to be present, suggesting various work along lines of industrial training and technical education, which were discussed by all present. This was practically all the business done to-day.

MADE IN CANADA

**"We Live in Deeds, not Years"**

WE have the years, too—forty-six "next birthday." What about the DEEDS?

1. We have established and conducted for nearly half a century an Insurance Company upon the ideal principle of mutualism—a unique achievement in Canada.
2. We have conducted the Investment Department during the whole of that time without losing one dollar of the policyholders' funds.
3. Every year, for 45 years, we have paid on an average \$362,221 to policyholders or their beneficiaries. Total, \$15,849,946.
4. We have acquired by foresight and economy assets amounting to \$24,542,314.
5. We have to-day a surplus over all liabilities, anticipating Government Standard 1915, of \$3,818,527.89.
6. We have received the greatest asset, the confidence of the Canadian public, who depend on us for protection to the extent of \$94,477,360.

And this is not all, though enough to show that "We live in DEEDS not YEARS."
