ATTENDING THE FAIR.— Messrs. R.L. Black, L.B.C., Phair, A. E. Kilburn and M. B. McAulay left Monday by automobile for Charlottetown to attend the annual Prince Edward Island Exhibition and races this week Fredericton Gleaner.

PERSONALS

Mr. Geo. H. Barr, chief of the Dairy Division, Department of Agriculture, Ottawa, was in the city yesterday attending the Provincial Exhibition. He left on return to the mainland this morning. During his visit here he was the guest of Superintendent J. A. Clark at the Experimental Station.

Mr. Ernest B. Roberts, of the staff of the Industrial and Development Council of Canadian Meat Packers was in the city yesterday. He is touring the Maritime Provinces on a special mission looking over live stock conditions and left this morning for the mainland.

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for Marmola Prescription Tablets and follow directions. One dollar is the price the world over. Get them from your own druggist or send price direct to Marmola Co., 4612 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful drugs and be able to reduce steadily and easily, without starvation diet or tiresome exercise.

Provincial Exhibition

(Continued from Page One.)

as one born and bred here. He had the good fortune to cover pretty well the province from one end to the other and for beauty and general prosperity he had seen nothing to beat it in any agricultural country. He noted how well kept up are the fields and buildings, which is an invariable mark of prosperity. Only last Sunday along the forty miles of road between Charlottetown and Summerside, he saw that not only were all the crops harvested with but one exception, but also that a very good percentage of the ploughing was under way—showing the interest and above all the industry of the people. He hoped Island farmers would continue to put their interest into everything they raise, and thus success would be assured.

Hon. Mr. Sinclair.

'We have in the institution of the Provincial Exhibition admirable co-operation between our friends in city and country, which is making for the advancement of our province in general more than any other institution we possess," said Hon J.E. Sinclair in a short address of congratulation upon the success by yesterday's opening of the 1922 fair. He expressed pleasure at hearing of the increased entries over last year particularly in the live stock departments.

THE DAIRY EXHIBIT

The Dairy exhibits this year though in some departments not is large as on other occasions, are exceptionally good and it will be encouraging news to Island dairy men to hear that this is the opinion expressed by Mr. Geo. H Barr, chief of the Dairy Division Ottawa, who attended the Exhibition yesterday and carefully inspected the exhibits.

The Cheese exhibit he declared is very much better this year than last season, with the possible exception of the June cheese, which is not so good in flavor. They are all well made and finished, and this defect of flavor, which to a less extent applies to all the cheese, is the one thing that Island dairymen should pay particular attention to. Only eleven factories are competing this year, but these as representative of the province, have made a highly creditable showing.

The nine Creamery Butter exhibits are also very creditable only one or at most two lots being under the high standard required. The Dairy Butter is this year the best, Inspector Barr has seen at an Island Exhibition and the showing is also a large one. A commendable feature noticed, was that the butter is not being as heavily salted as in other years.

A feature of the Dairy show in this province is that the exhibits are selected from ordinary commercial shipments and not made especially for show purposes. They are therefore a better indication of the standard of quality prevailing in the industry and Prince Edward Island is the only province in Canada to which this can apply. Inspector Fraser T. Morrow it also well pleased with the showing made.

DAIRY CATTLE

Among the dairy herds exhibited this year are fifteen pure bred Holsteins from the Provincial Government Falconwood Farm. Though these are not entered in competition they are one of the features of the live stock exhibit. One of them Lyla Camille Keyes, aged 4 years, 9 months, bred by R. J. Maley, Ontario, has the best record ever made on the Island for one day, three, seven, fourteen or thirty days. Three other cows have splendid records, Desta Keyes Camille, aged 3 years 2 months, produced 10887 1-2 lbs. milk for April 14th to September 22nd. Bertha Desta Keyes, 2 years 4 months, 13077.6 lbs from January 15th to September 22nd. These two were also bred by R J Maley. Lady Keyes, aged 4 years, 9, months, bred by C. E. Kaph of Ontario produced 16559 lbs. from February 1st to September 22nd.

The Falconwood young stock include some splendid animals sired by the well known bull Artis Vae used for the past two years on the herd. Howard Calbeck of Tryon, who is starting out, as a Holstein breeder has several splendid animals bred by Hon. W. M Lea. One is a large cow (twice a winner in the Amherst Dairy test) and two of her offspring—including a 9 months old calf weighing 960 lbs. Keith Boswell of Victoria, a returned soldier, who is making good as a cattle breeder has a dual purpose Shorthorn herd headed by a bull bred by P. R. L. Fairweather of Rotresay, N. B. All of Mr. Boswell's entries are low down smooth cattle showing evidence of splendid breeding and brought out in the pink of condition. J. Walter Jones one of the leading Holstein breeders in Eastern Canada, has a magnificent herd of fifteen, headed by Pat, son of Fancy Maid, four times the grand champion at Toronto. Walter Dickie of Amherst has thirteen head of Holstein, headed by Copequid La Honda Jem, son of Miss La Honda, world's champion three days test cow. Mr. Dickie has made the circuit of seven fairs, and has just returned from Ottawa where he won a large majority of the prizes. Mr Dickie's aged bull and aged cow were selected by the Holstein Committee to represent the Canadian herd at the Holstein show in St. Louis.

Mr. H J. Kennedy, Lot 48, has six herd of Holsteins, including one senior calf and two senior yearlings. Charles and George A. Godfrey of North Willshire have fifteen head of Holsteins, all excellent animals. W. J. Gibson of Marshfield, another well known breeder has six head, including the beautiful cow Nettie Rooker Posch that made an official record as a three year old of 15,000 pounds in twelve months, R. O. P. test. In six years R. O. P. test in 310 days she made over 16,000 pounds. She was a first prize winner last year. Mr. Gibson is showing another cow which was a winner at the Canadian National Show and other fairs in Toronto. Albert J. Johnson of Truro, N. S., is exhibiting thirteen dual purpose Shorthorns headed by Golden Morning. He is also showing females who have been very successful at St. John and St. Stephen. Roper Brothers of Charlottetown Royalty, the well known Guernsey breeders are showing 26 head of pure breds, headed by Langwater Prince Edward, bought last year in Ambler at a very high price. This bull is one of the best bred Gurnseys ever brought water Marmion 60160 dam Newbery Rose. The bull has the following percentages: May Rose 20 per cent; Itchen Daisy 21 7-8; King of the May 18 3-4; Golden Secret 37 1-2. "Prince Edward" was bred by Harold E. Glazier of Ambler, Pa. Roper Bros' herd also includes such splendid prize winning females as "Lassie M." of Hillside; "Dolly Dimple" and "Dorothy of Riverside," and exceptionally fine three year old. Horne Bros of Winsloe have nineteen head of Polled Angus. On Monday evening there was an addition to the Angus family, a very creditable specimen of the breed. Horne Bros have shown at Valleyfield, Three Rivers, Sherbrooke, St. John and Ste. Stephen, winning the greatest majority of prizes to the Island. He is sired by Lang in their class. Their herd is headed by Elm Park Van Master—the first prize winner last year over all beef breeds in St. John. Stead Bros of Highfield are showing seventeen head of pure bred Jerseys headed by Fountain Chief second prize winner last year. William Clark of North Wiltshire, another successful Jersey breeder has seventeen pure breds, including last years champion bull and Maple Grove Kitty, last year's champion cow. Alexander Agnew of the Royalty has four head of pure bred Holsteins, including the famous cow that made the largest milk record for her age in the Maritime Provinces. She is of immense size, true to type and confirmation, and is shown in splendid condition. Edwin Reid of Rollo Bay has twelve head of pure bred Ayrshires headed by Victor of Sunny Slope, son of Lone Pine Bell that produced 52,000 pounds of milk in five years' official test. This is one of the Island's first fully accredited herds, most of the females being sired by the former herd sire Paul of Inglewood, an exceptionally fine R. O. P. bred bull.

DOMINION LIVE STOCK BRANCH EXHIBIT

A display of unusual interest to visitors and citizens this year is that of the Poultry, Sheep and Swine divisions of the Dominion Live Stock department it is situated in a prominent place in the Main Building and is in charge of Mr. S. C. McLennan of Ottawa, who is kept busy answering the many inquiries concerning the various [illegible] displayed in the Poultry Division are shown colored, illuminated plans of the good and bad types of White Wyandottes, Barred Rocks and White Leghorns, with diagrams demonstrating the four [illegible] standards used in grading eggs. There is also an interesting picture of the Canadian champion egg layer, a White Wyandotte pullet, who established the record of 281 eggs in 365 days. In the Swine division is prominently shown a bulletin giving the offical grades of market hogs. These figures invariably attract the attention of farmers and are as follows: Select, 160 to 210 lbs; Thick Smooth, 160 to 210 lbs; Heavies 210 to 260; Extra Heavies, over 260; Shop, 120 to 160; Lights and Feeders, 170 and under; Roughs, any weight; Sows, females that have had one or more litters; Stags, hogs that have been castigated and are well healed before being offered for sale. There is also a large colored film showing a select bacon hog and smaller pictures of other marketable breeds. The four grades of bacon—Leanest Wiltshire, Lean Wiltshire, Prime, and Heavy Sides are also illustrated as an aid to the producer to develop the best quality for the English market. In the Sheep division are shown handsome Canadian grown and manufactured woolens and homespuns of many varieties, equal to anything imported, despite the prejudice in favor of foreign goods. The twelve operations through which wool passes from the sheeps back to the dyed yarn are shown by samples. Another case displays the different grades of wool. The exhibit is in itself a valuable educational contribution to the Fair.

BRACE McKAY CO. LTD

In the Main Building this year the firm of Brace McKay Co. Ltd. of Summerside have an interesting exhibit comprising a Pilot Superior Pipeless Furnace for which they possess the sole agency for the Island, and Braco Brand, made to order, English Fox Wire, for which they have the Canadian agency. They are also exhibiting Hartman and Princess Royal pianos, manufactured by the Amherst Piano Company. The Pilot furnace, which occupies a prominent place in the display is manufactured by the Hall Zryd Foundry Company, Hespeller, Ontario, and has all the best features of the latest American types, combined with first class Canadian Workmanship. A special feature is the cast iron and steel radiator, which possesses special qualities of durability.

BRUCE STEWART & CO. LTD

Just how gasoline engine cylinders are ground, and the difference between the Heald Grinder method and other methods, is illustrated in a practical manner at the booth of Bruce Stewart & Company, where the actual machine parts are displayed and the process of grinding made plain to the layman. There is something fascinating about the "insides" of machinery and to the motorist or farmer possessing a power plant the interest in this exhibit is increased by the fact that a demonstration which can give him a better knowledge of engine repair is putting money into his pocket. This exhibit is in the Main Building and is well worth seeing.

ORANKE PEKOE TEA

This popular tea is being served out freely to visitors passing the booth just inside the entrance to the Main Building. It is a brand well known here and a cup of it has a very reviving effect after a busy afternoon's sight seeing.

CHRISTIE BISCUIT

Opposite the tea booth there is a tasteful display by the Christie Biscuit Company whose name is a household word everywhere in Canada.

HUGHES DRUG CO., LTD.

Some very handsome enlarged photographs illustrating what the Kodak camera can do, are display ed in the Main Building by the Hughes Drug Company Ltd.

MONTREAL, Sept. 27.—Urgent appeals are being sent out to aid the Chaluzium, many of whom are in desperate starits, not only in Palestine but at various ports of embarkment, the Chaluzium are young Jewish pioneers who have gone out to Palestine with the idea of contributing to the upbuilding of their homeland.
