Nanutilus Is On Her Way

(Special to The Guardian)

PROVINCETOWN, Mass., June 5.—The submarine Nanutilus in which Sir Hubert Wilkins and a group of scientists hope to go to the North Pole, left Provincetown Harbour for England at 11 o'clock tonight. The Nanutilus had spent the day here in speed trials. The coastguard cutter Pontchartrain accompanied her out tonight and will act as a convoy as far as the Grand Banks.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC.

Bennett Budget Is Commended During Debate

Tariff Assistance Given By The Government For The Coal And Steel Industries Praised In House Of Commons.

(Canadian Press)

THORNTON MAKES REPORT

(Canadian Press)

OTTAWA, June 5.—Gross revenue in 1930, said Sir Henry Thornton, in presenting his statement to the special Canadian National Railway committee of the House of Commons amounted to \$222,000,000. This is a decrease of \$46,000,000 from 1928 and \$68,000,000 from the 1928 total. This was a condition encountered by practically all the large railway companies on the continent. Progressive economy was applied and, as a result, \$26,000,000 was saved in 1930 expenses. Of this sum, nearly one half was in transportation expenses. In railway financing, Sir Henry proceeded, there came a point under which it was impossible to economize. In the last year, however, everything had been done to reduce expenses, keeping in mind the safety of travel and the necessary upkeep of the system. Some expenses were controllable, others were uncontrollable. It had been necessary to infuse this policy of economy in the mind of every official and employee "and it is a matter of intense gratification to the management at the response of every man."

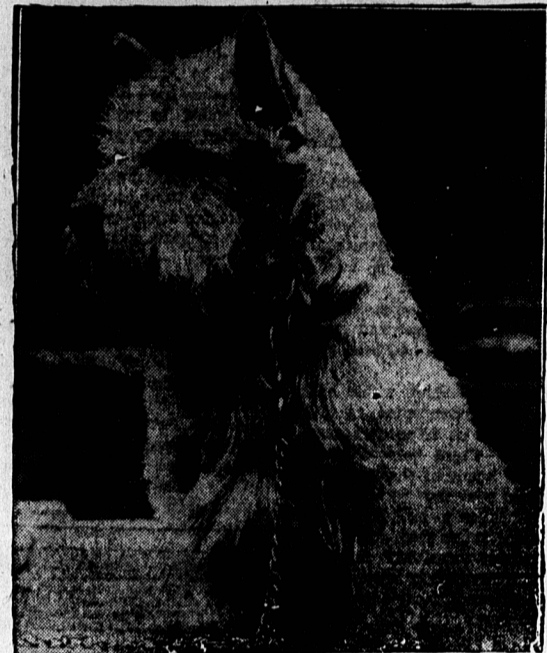

TOURIST TRAFFIC

OTTAWA, Ont., June 5.—The tourist traffic of Canada yields at least \$300,000,000 a year to this country and it is the duty of all to retain and increase it. Sir Henry Thornton made this declaration in explaining to the House of Commons committee today the expenditures made on hotels by the Canadian National Railways since 1923. Tourist traffic

- (Special to The Guardian)
- WASHINGTON, June 5.—On June 30th the United States Navy will be in a position to place more aeroplanes in sea combat than any other world naval power. From the decks of three great aircraft carriers and from the catapults of cruisers and battleships, hundreds of fighting, scouting, bombing and torpedo machines can take off for an aerial offensive so powerful that navy experts hesitate to prophesy the effect of a concentrated attack. This development is the result of a well executed five year building program inaugurated in 1926.
- Rear Admiral William A. Moffett in a recent speech declared that surface vessels that put themselves within range of aircraft will assuredly be obliterated unless adequately protected by aircraft. Authoritatively representing the views of a large section of naval experts, Admiral Moffett later declared that our navy should have the maximum possible number of aircraft on its ships. Aircraft will profoundly change the methods of all future wars to an infinitely greater degree than we can vision today. The program has been effected at a cost of approximately \$63,000,000. In five years the navy has increased the number of its planes from 350 to over 1,000.
- *A meeting of the shareholders of the St. Catharines Hall Co. will be held in St. Catharines School on Saturday evening, June 6th at 8 o'clock. All shareholders are requested to attend. 5013-6-5-21
- *A Sacred Concert will be given in Cornwall United Church, on Tuesday evening, June 8th by Professor Kendall and the Harmony Eight of Trinity Church, Charlottetown. Don't miss this rare treat. Concert commences at 8.15. Admission 35c and 15c. 5048-6-6-21.
- *Prince of Wales College Examinations. The Entrance Examination to F. W. C. will take place on Thursday, July 2nd and following days. Candidates must forward to Educational Office their applications stating name, age, school attended, post office address and centre for examination with fee of 50c before June 20. 5005-6-6-21.

Unification of Industrial Hopes All Over Canada Achievement of Budget

New Incentive Given Wide Range of Companies From Coast to Coast—No Concentration—Increased Activity In Many Lines to Speed Up Employment.

OTTAWA, June 5.—From the strictly industrial point of view, one of the interesting features of the 1931 budget is the manner in which incentive has been provided to a wide range of small companies from coast to coast without tending to concentrate the industrial development of the Dominion to any prescribed areas. Uniformity of Canadian industrial hope accordingly seems to be the keynote, and while tariff changes do not appear to be sufficiently sweeping to result in the establishment of any definite industry, other than the manufacture of parts for automobile construction, there are still enough alterations to indicate that scores of small plants all over the country will be in a stronger position, and should, at the same time, be able to make a material improvement in the employment situation of Canada over a period of time.

U.S. LEADS IN NUMBER OF COMBAT PLANES

WASHINGTON, June 5.—On June 30th the United States Navy will be in a position to place more aeroplanes in sea combat than any other world naval power. From the decks of three great aircraft carriers and from the catapults of cruisers and battleships, hundreds of fighting, scouting, bombing and torpedo machines can take off for an aerial offensive so powerful that navy experts hesitate to prophesy the effect of a concentrated attack. This development is the result of a well executed five year building program inaugurated in 1926.

States \$25,000,000 of U.S. Exports Imperilled By New Canadian Tariff

WASHINGTON, D. C., June 5.—Assistant Secretary Klein of the Commerce Department, today declared that the new Canadian tariff imperils approximately \$25,000,000 of United States exports. The figure represents slightly less than four per cent of last year. Armour, who had been just back of the pace setters in the earlier rounds of the competition over the gruelling Carnoustie course, finished with a total of 296 for 72 holes. Jurado finished in second place with a 77-297, after blowing up badly on the last nine. Gene Sarazen and Percy Allis, British bred Bellin pro, were tied for third with 298, and Johnny Farrell and MacDonald Smith, Carnoustie born pro, were tied for fifth place with 299.

Armour Wins British Open

(Canadian Press)
CARNOUSTIE, Scotland, June 5.—Tommy Armour, United States star who holds the Canadian open golf championship, today won the British open title, capturing the honor, taking for fifth place with 299.

RECEPTION FOR CHIEF COMMISSIONER

Mr. J. A. Stiles, Boy Scout Executive, Was Guest At Function Last Evening—Great Interest In Scout Movement Manifested.

The increasing interest in the Boy Scout movement in this Province was demonstrated last evening by the large attendance of parents and public men at the reception and supper given Mr. J. A. Stiles, Ottawa, Chief Executive Commissioner of the Boy Scout Association of Canada, at Zion Church Hall.

A sumptuous repast was provided by the Ladies Committee to the Scouts, the recreational work of the Scouts was demonstrated by local troops in an interesting program, and the principles of scouting, as it applies to the training of the boy, were discussed by Mr. Stiles in a most instructive address.

Mr. George Filliter, Provincial President, was chairman. Seated at the chairman's table were His Honor Lieutenant Governor Dalton and Mrs. Dalton, Mrs. Murray, Premier W. M. Lea and Mrs. Lea, His Worship Mayor T. W. L. Prowse and Mrs. Prowse, Chief Commissioner J. A. Stiles, Rev. G. T. Spriggs, Provincial Secretary, Mrs. Spriggs, Mr. J. R. Burnett, Bishop Lucas, of the Church Army, Toronto, Rev. C. St. Clair Jeans, Rev. H. D. Raymond and Mrs. Raymond.

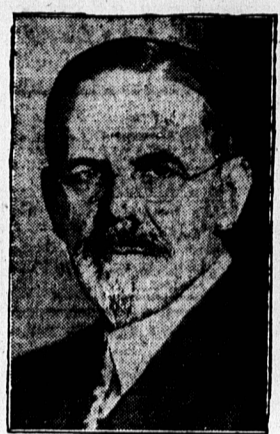

Mr. George Filliter, the Chairman, stated that the occasion filled a two fold purpose. It was a welcome to the Province of Mr. Stiles, Chief Commissioner, and it gave the parents an idea of scouting and of scout work. In congratulating Mr. Stiles on his recent appointment to the position of Chief Commissioner, the Chairman stated that the Chief would have an enlarged opportunity of doing work in his chosen sphere.

Commissioner's Address

Mr. Stiles, who was introduced by the Chairman, in opening a very practical address, thanked Governor Dalton, Premier Lea and Mayor Prowse for the interest exhibited in the Scouts. Never before had he found present at a Scout function, a governor, a premier and a mayor. The speaker thanked those responsible for the function.

The Chief Commissioner referred to the dream which his predecessor, Dr. James A. Robertson, who died almost a year ago, had for Prince Edward Island. In 1911 or 1912, Dr. Robertson had approached the farmers of Dundas County with the idea of starting illustration farms. His work was so successful that in a few years every farmer in the county adopted the idea. Dr. Robertson then had a vision of an illustration province, and in 1913 Prince Edward Island was picked out. The Great War and the death of Sir William Macdonald, who was financing the scheme, prevented the carrying out of the idea in this province.

Sociologist

DISMISSAL CAUSES FLURRY

Prof. Herbert A. Miller, internationally known sociologist, whose dismissal as head of sociology department of Ohio State University has caused a flurry of opposition between faculty members and board of trustees. The board is said to have disapproved of Prof. Miller's opposition to military training and his active support of Gandhi in India some time ago in the non-resistance campaign against Britain.—Associated Press Photo.

Ablest Diplomats In Pope's Court Hold Conference

ROME, June 5.—The ablest diplomats in the court of Pope Pius conferred with him today regarding the critical situation between the church and the state, but the Italian Government apparently was making no move toward conciliation. On the other hand, members of the Catholic clubs which have been closed by Government order have been informed that up to July 1st they are eligible for membership in Fascist organizations. As a gesture of protest against the dissolution of Catholic clubs the Pope today forbade the customary religious processions commemorating Corpus Christi day outside the Catholic churches. It was learned today that the Pontiff had sent a second note of protest to the Government following that which Foreign Minister Dino Grandi declined to receive last Friday.

Peter Veniot The Greatest Headman Of Them All

OTTAWA, Ont., June 5.—A total of 1,160 postmasters were dismissed in the eight and a half years from Jan. 1, 1922, to Aug. 4, 1930, according to a reply given in the House of Commons today by Hon. Arthur Sauve, Postmaster General. The question was asked by Samuel Gobell (Cons. Compton). The year 1927 saw the "axe" fall more heavily than in any other year, when 378 Postmasters were dismissed. By provinces the record shows Quebec with the largest number—394. Other provinces in order are:

- Nova Scotia 267
- New Brunswick 163
- Ontario 124
- Saskatchewan 72
- Alberta 58
- Manitoba 49
- British Columbia 22
- P. E. Island 11

ARRIVED IN CITY BY PLANE

Hopping off from Boston at 11 o'clock yesterday morning in their speedy bi-plane, Mr. Gerald Dalton, son of His Honour Lieut.-Governor Dalton, and well known engineer of Brookline, Mass., with Pilot Thomas L. Livermore of Sarasota, Florida, arrived in the City at 6.45 last evening. The silver colored plane circled the City several times before landing in a field near the P. E. I. Hospital.

Mr. Dalton and his companion reached St. John, N. B., at two o'clock where they remained for three hours. They then hopped off for Charlottetown.

Mr. Dalton is the guest of the Lieutenant-Governor at his residence on North River Road.

Assembly Has \$180,000 Deficit

TORONTO, June 5.—Today, the Presbyterian General Assembly, grappling with the most serious problem which has faced the Church since it emerged from the union struggle of 1925.

A deficit of more than \$180,000 was forecast by the report of the Board of Administration, presented today. To meet this growing danger the Board recommended new and drastic economies. It is proposed that the assembly, which has met annually since 1875, should meet every two years hereafter. And that the commissioners should be required to pay part of their expenses.

The larger church boards and committees should be reduced in size according to the report.

N. B. Crop Report

(Canadian Press)
FREDERICTON, N. B., June 5.—The New Brunswick Department of Agriculture in the latest crop report indicates an acreage in the province sown to certified disease-free seed potatoes as four times as great as in 1930. In the Saint John valley, field crops are well on the way, but in the eastern countries seeding has just been completed. Grass and clover for hay promise well and pasturage is excellent. In the Saint John valley, oats and wheat have made a good start. In Carleton County, potatoes are above the ground. Root crops will not get into the ground for some time yet, but the acreage will not be altered whatever conditions have been highly favorable.

The Weather, Etc.

THEY CALL IT THE 'SEA-SIDE' BECAUSE YOU SEE SO MUCH MORE OF PEOPLE HERE!

TORONTO, June 6.—Fresh to strong easterly winds, occasional rain.
