PARASOLS BECOME FANS
One of the most exciting of the fashion surprises of the French Grand Semaine are the new tiny Second Empire parasols which Suzanne Talbot has created. Little larger than a dinner plate and with ivory sticks, they are made of gathered black Chantilly lace. Not only do they add a touch of coquetry to present day fashions, but they are extremely practical, since they can be transformed into a fan at an instant's whim, and thus play a dual role.

Bessborough's Bid Farewell to Maritimes

The Earl and Countess of Bessborough are now drawing to a close their vice-regal stay in Canada, and in the above group are pictured as they attended a formal luncheon at government house, St. John, N.B., as guests of New Brunswick's Lieutenant-governor, the Hon. Murray MacLaren and Mrs. MacLaren. The governor-general and Lady Bessborough attended this and several functions in the loyalist city in connection with their final Maritime tour, part of their farewell itinerary in the Dominion.

WATERFOWL BREEDING CONDITIONS ON THE PRAIRIES
OTTAWA, Aug. 11—The Prairie Provinces afford the wild ducks of North America their most important nesting area. Since 1929, because of drought conditions, the annual hatch of ducks has been greatly reduced and partly for this reason and partly because of over-shooting the continental supply has diminished year by year. Many species of strictly prairie habitat are so reduced as to be now in grave danger of extinction while others with wider breeding ranges such as the Pintail are not so seriously affected.

MT. MELICK W. I.
The Mt. Melick W. I. met at the home of Mrs. Lloyd Ballem on Thursday evening, Aug. 8th. The meeting opened with the Ode and the Creed. The roll call was responded to by thirteen members. There were also several visitors present. After the reading of the minutes the treasurer reported the total receipts of the ice cream social to be \$26.21. The school and sick committees were re-appointed for the next three months. Mrs. Arden Richards invited the members to her home for the next meeting, at which meeting Mrs. W. J. Murch will be the convener and the roll call will be answered with "What Women Did Like Most in Men." Miss Alfreda Mellick of Boston, Mass. gave a very delightful talk, basing her remarks on the International Peace Garden. Miss Mellick and her sister, Miss Leona, are welcome visitors to our August meeting every year. Mrs. Ballem served a delicious lunch and a nice social time was spent after the meeting.

RUN-OFF CONDITIONS IN QUEBEC
OTTAWA, Aug. 11—The Dominion Water Power and Hydrometric Bureau of the Department of the Interior reports that run-off during June in the Province of Quebec was subnormal except in the Sherbrooke area where the abundant rainfall apparently appeared as run-off more rapidly than was the case in other portions of the province.

Natural run-off from the area tributary to the St. Lawrence from the north based upon the records of the St. Maurice river was about 80 per cent of normal although the actual flow of this river was less than 60 per cent of normal, the remainder being stored in the reservoirs of the Quebec Streams Commission, tributary to the St. Lawrence from the south, in the Sherbrooke area, natural run-off as indicated by the records of the St. Francois river was nearly 70 per cent greater than the June average, a portion of this run-off was also retained in reservoirs and the actual flow of the river was about 58 per cent above normal. Further east records of the Madawaska river indicate run-off 30 per cent below normal. In the northern portion of the province run-off was below the June average, the records of the Harricane river at Amos showing a flow about 35 per cent below normal.
